lower parts will be three feet. The telephone lines are all down above Greenville, and nothing has been heard from the levees to-day. It is greatly feared that the heavy wind and now prevailing will cause the levees to give way in new places. The an outlet into the Yazoo river, which of the crime. will inundate a large section of country in Sunflower and Yazoo counties.

The water at this hour has reached Washington avenue, one of the principal streets of the city, and the people are navigating in skiffs.

No lives have been reported lost, and no actual suffering is anticipated unless the flood continues for a consid-

able length of time. CHICAGO, March 31 .- The situation of affairs in the lower Mississippi valley is alarming, said Mr. J. J. Hogan, of Memphis, to-day. He had just arrived in the city direct from the districts along the great flooded river the levees are being patrolled day and night by armed guards. It sometimes happens that somebody out on the bank, seeing that there is danger of a break, relieves the pressure by slipping quietly over to the opposite bank and making a hole that soon becomes a roaring crevasse. To prevent that kind of work the armed guards have been posted everywhere. The people down in that country all have the blues. They are downhearted, for they see their crop prospects ruined for this season. They ought to be planting cotton now. If the waters subside in 15 or 20 days they may still get a crop in, but, with continued rains up North, there is not much prospect

The Work of To-day.

To shun the world's allurements,
To bear my cross therein;
To turn from all temptation,
To conquer every sin;
To linger, calm and patient,
Where Duty bids me stay;
To go where God may lead me,—
This is my work to-day.

I think not of to-morrow,
Its trial or its task,
But still, with childlike spirit,
For present mercles ask.
With each returning morning,
I cast old things away;
Life's journey lies before me,—
My prayer is for to-day.

Silas Blake sat in the library, a

troubled look on his face. The handsome house which he occupled, and the extensive grounds which stretched away from it, belonged to his ward, Miss Laura Cameron. They were left her by her father, and Silas Blake was to care for them until she was married.

The trust enabled him to live comfortably, and as he would have to surrender it in the event of her marriage, he hoped that it would be long delayed, or, rather, that it would never happen at all.

But Miss Cameron had a lover, Mark Meredith by name. He was in every way worthy of her, and was quite ardent in his wooing.

It was this young man's persistency that had brought the troubled look to

Silas Blake's face. His ward entered the library, and rand. She was young, pretty, intelli- ask me to mediate.' gent, lady-like, charmingly dreased, and self-possessed in manner.

'Mr. Blake, I have had an offer of marriage,' she abruptly announced.

'Yes,' answered he, in an odd tone: I have understood that I was, in that event, to tell you of the offer previous to my accepting it.'

Silas Blake simply nodded. 'It isn't stipulated in the will?' she

Gold is indestructible.

Gold may truthfully be said to be pure acids have no effect upon it. Air to participate therein. and water alike are prohibited from working its destruction. While to the baser metals they are decay, to gold they are innocuous. Bury it through in a measured tone-'for nine years, the excavator again brings it to light, Days, years, century upon century may gold is a noble metal.

ONE KIND OF WOMAN'S WORK.

How Young Women Are Examined for Places in Retail Music Stores

An agreeable and much sought after occupation for women is that of a clerk in a music store. The hours are no longer than in the majority of stores, the duties are less exacting, there is a chance to sit down in idle moments and the pay is from \$10 to \$12 a week. With all these advantages it is no wondes that the owners of music stores are overrun with applicants. Nevertheless it is said to be no easy task to secure a competent clerk, although the knowledge of music required is not very extensive.

The clerk must not only be a good saleswoman, but she is expected to be able to play off hand every piece of music kept on the shelves. This is not so difficult as would appear, for those who purchase classical music are always good musicians, and know the character of the piece they are ordering. Only the dabblers in music insist on having a piece tried for them before they purchace, and these amateurs seldom affect anything more pretentions than a popular song or dance composition.

"Every music dealer has a plan of his own to test the ability of an applicant," said a well known music man, "but I haven't vet found one that is entirely trustworthy. Often when I think that I have secured a treasure in a clerk, I find I have been mistaken, and much of my time is taken up in trying applicants. The plan generally adopted is to make the test with a catch piece of music. For a long time I made use of an old overture, in the execution of which it was necessary to cross the hands. This was more effective than you would imagine, for an applicant, rendered nervous from the knowledge that I was watching her every movement, would become rattled the moment she reached the critical measure if she were not a good reader. But after using this piece for some time it became worn out in the ser-

"One day I gave a young woman a trial. She got along all right until it was necessary for her to cross her hands, and then she made as bad a botch of it as could be imagined. She went ont seemingly much pained at her failure. week later I tried another. She dashed the piece off like a professional, and I hired her on the spot. Before the day was over I found that she was utterly incompetent. I questioned her and learned that she was the sister of the other young woman. It was a prearranged little scheme. The first came to find out what piece was used for test ing purposes, while the other, after practicing it until she was perfect, was moments, an enwrapt look on her face. to secure the place. But I didn't get caught that way again."-New York Evening Sun.

Useful in Many Ways.

Oranges and lemons are not only delicious to the taste, but can be used in other ways. Lemons are used for soap in many countries where they grow. When, for instance, the men and women of the West Indies want to wash their hands they squeeze the juice of a lemon over them and rub them briskly in water until they are clean. There is an acid in the lemon similar to that used in soap. And in countries where oranges grow in great plenty country gentlemen use the cheapest kind for blacking their boots. The orange is cut in two and the juicy side of onehalf is rubbed on the soot of an iron pot and then on the boot. Then the boot is rubbed with a soft brush and a bright polish at once appears.

An Anecaote of King George.

One cay, a hundred years ago, a benevolent looking man, clad like a farmer, meandered into a factory. The men were taking their noon, "My through the gate to a lonely grave. The not insane, and was not buried beside lads," asked the stranger, "what are moon was up and its bright light fell an asylum wall. She was buried in you doing?" "We're doing nothing mid-ocean, and Donald Cameron was now," answered the men, "but presently we shall be eating our dinner of bacon and beans," "Good!" exclaimed ricate a lie. I am to be married to the stranger. "And if you have no objections I will eat bacon and beans with you."

The farmer like stranger was his maday, in commemoration of that event, the second Saturday in July is celebrated at the arsenal. There is given what is called the "bean fest," and everlasting and indestructible. The folk gather from all over the kingdom

Knitting Carpets.

Knitting carpets is a home industry in Germany, where it is carried on by long ages, and when the rude tool of women and girls of all classes. It is more durable than woven rag carpet. Kuitted carpet schools have been established in many towns, and itinerant knitting is done with wooden needles. She staggered back, as if about to roll by, mighty empires rise and fall; and for convenience the carpet is made swoon, but soon rallied. She groaned dynasties, which dream their power only about twelve inches wide, the aloud, one hand pressed against her everlasting, and armies, which have widths being joined together by sewing marched and conquered, may become in the usual manner. Knitted in strips nerveless; cities teeming with millions from six to eight inches wide, it serves may become the abode of the owl, yet admirably as a border for remnants or the thin filament of gold remains to- short pieces of Brussels or other carpet day as it was 5,000 years ago. Truly made into rugs. Knitting carpets is also a Canadian demestic industry.
