## THE MINERS ALIVE.

THE IMPRISONED MEN AT DUNBAR HEARD FROM.

A CORPS OF PHYSICIANS ON HAND. DUNBAR, Pa., June 19 .- The imprisoned miners have been heard from. At 4 o'clock this evening, the men working in the head of the entry, entry to keep quiet. Everyone did so, and in a moment "pick," "pick," for a with renewed vigor. The men in-side cannot be reached for many hours

The rescuing party is within a few feet of the line leading from the Mahoning to the Hill Farm mine; but, after that is reached, the men will have to drive through 75 feet of coal to reach their comrades. The news that ! the entombed miners had been heard from spread quickly throughout the little mining town, and in a short time the mouth of the Mahoning mine was crowded. At least 500 people were gathered there. It was composed of men, women and children.

The excitement grew more intense each moment and the crowd gathered so closely about the mouth of the pit that the coal and iron police were finally compelled to move them back. About 8 o'clock Mine Boss, Gray came up from the slope with the report that the sound of the tapping against the wall had been heard and that the rescuers were working like heroes.

At 11 o'clock a thousand people were at the mine. In some way or other the news was spread that the men were Every one who had friends in the mine was there. They came with brightened faces. An air of mystery swept over the place. Policemen were dumb. When a man came cut of the mines he was silent as the grave. Little Mary Smith, eight years old, heard that the men were safe. Her father is in the mine. She came up alone. "Where is my father?" she asked, as she came up to the mine barriers. 'He is not out yet," said a man who stood by. The little girl burst into tears. She was disappointed. Disappointment was not the word. It was more than that. It was grief only such as is seen under the most distressing circum-

General Manager Hazzard was seen late in the evening. "You may say that there are men down in the mine alive. They have been heard from. We do not expect to reach them until 2 or 3 o'clock to-morrow morning. They will be taken care of. The Catholic priests are down in the mine at the present time. They will stay there till the opening is made. I have ordered a corps of physicians, to be ready for anything. We don't want to let the people know outside, because the excitement would be too great. We rescue the men."

Late to-night Bert Wormley came out of the mine. He said that for some time the men at work in the Mahoning mine had not heard a sound.

"We will not reach the mine before to-morrow morning," said Mr. Wormley, "I am sure that only two men can work at a time where we are dig-

ging." In the meantime the suspense is aw-

SPREAD OF THE DREAD EPIDEMIC IN SPAIN.

MADRID, June 16 .- Much alarm is cholera at Puebla de Rugat. The auto stamp out the disease, but so far there were four deaths from the dis- was injured. ease and nine new cases were reported. The doctors at Puebla de Rugat are greatly overworked, and the authoritles have telegraphed to Valencia asking that physicians be sent from that city to aid them. The supply of drugs is running short and the town officials have also telegraphed for a fresh supply from Valencia. The total number of cases thus far reported is 91. One of the persons who fled from the town for safety has died from the disease at Albaida. Dr. Candela, who is an expert, declares that the disease at Puebla de Rugat is true Asiatic cholera.

MADRID, June 16 .- The Government announced in the Senate, to-day, that it had not been proved that the disease now prevalling at Puebla de Rugat is Asiatic cholera, and there | flowing the surrounding country. Three was no cause for alarm. It was further stated that the Board of Health had McElery and five members of the famsent a deputation to Valencia, and had lly of George Wager were drowned. taken sanitary measures to prevent the Much live stock was lost. FOOD FOR THOUGHT.

Hope is the other half of happiness. Form in matter is thought made vis-

One cannot be healthy who is not We insult the Master by abusing our

bodies. A wife who is worth having is worth praising. The hardest work any man ever tries

to do is to do wrong. The true birds of the air always fly with their own wings, All truth is nonsense to the man who

knows nothing about it.

If we never had any trials we would never have any triumphs. Trials do not weaken us. They only show us that we are weak.

Many a preacher is "long" on sermons and "short" on salary. Age brings us wisdom, but does not

give us much time to use it. The best man in the world is a bore if he comes at the wrong time. It takes more courage to do right

than st does to face a cannon. No person lives rightly whose spirit is controlled by bodily appetites,

A shadow is always darker and larger than the figure that makes it. Flattery is but the condoling of our failures rather than a true estimate of

our ments. In accordance with the ancient proverb, he who would accumulate must spend also. We might take lessons from child-

hood in that enviable art of being easily made happy. Regulate the diet of a person and the moral preception takes on the power to act righteously.

It is true, though it sounds paradoxical, that a man never has any trouble in finding trouble. If it be true that "truth is stranger

than fiction," how exceedingly queer it One half of the world is steeped in sentiment and the other half languishes

in a dull respectability. People who elevate themselves by flattering each other are like balloons

packed with ice for ballast. Most people who make a business of casting bread upon the waters expect it

to come back pound-cake. A man can determine how much authority he should have by a comparison

SUPPOSE.

Suppose, my little lady, Your doll should break her head, Could you make it whole by crying Till your eyes and nose were red?

And wouldn't it be pleasanter To treat it as a loke, And say you're glad 'twas Dolly's, And not yours, that broke?

Suppose your task, my little man, Is very hard to get, Will it make it any easier For you to sit and fret? And isn't it, my boy or girl,
The wisest, bravest plan,
Whatever comes, or doesn't come,
To do the best you can't

THE "DAILY HOPE."

"It's no use, pardner; we may as well give it up. We haven't struck the vein, and we can't strike it now. Indications are good, that's sure; but signs won't go with old Sharkey. He'll never put up the money on anything In the U. S. Senate, on the 16th, a less than a big showing of ore. If lease, it's good-by to the Daily Hope."

"He won't," was the reply, made with conviction. "He has been offered Rum river, near Anoka, Minnesota, on retire General Banks as Major General more money for the mine than we agreed to pay him in case we conclude to buy, and our time will be out at mid-In the United States Senate on the night. He will be only too glad to 17th, the House bill to amend the act have us fail in our part of the con-

"Well, we have as good as failed now and there's no help for it; but I'm not disposed to give up the mine without making an effort to hold it. Go and see Prang, and do your best to talk him over. Tell him we will take him the calendar. The River and Harbor in as a silent partner if he will let the lease stand three months more, and leave us the privilege of buying two-The Legislative Appropriation bill was thirds interest at the end of that time at the original price. That may bring In the U. S. Senate on the 19th a him-at least it's worth trying."

"Not while Blashford stands ready to outbid us in any offer we can make," responded Duncan, downheartedly.

But he yielded to his partner's view of the matter, and made ready for the long ride down the mountain to talk the matter over with Prang.

The two miners, Duncan and Mayhew, had taken hold of the Daily Hope Mine, after privately prospecting the property, satisfied from the indications that there was a body of rich ore near In the House, on the 16th, conference at hand, but the result had not justified their expectations.

Mayhew went down into the mine after Duncan left, looking over the work they had done dispiritedly.

"Nothing to show for all our months of digging and sweating in here;" thought be; "and now most likely we'll lose it. But if it was all to do over Pending consideration of the latter the again, I'd take the same chances, Well, here goes; it won't do to idle

honest means, eh? Well, I'll see what man as he dismounted and approached, he has found,"

loosened fragments, and Mayhew true in fact, for it was the body of his tamped in a blast at the spot, which partner which depended there, hung as brought down the whole section of wall a horsethief by the mob that had ac- built except the Eiffel tower and the when he fired it, revealing a natural companied Blashford from the camp. crevice which ran back a dozen feet, and was lined with a brilliant green incrustation of lime crystals stained with copper, but the miner had no thought for the beauty of the place.

He chipped off the surface covering and eagerly scanned the ore beneath; it at the White House, accompanied by a Zurich which was burned down. They was high-grade mineral, and the whole length and depth of the fissure lay Mexico. He stated that the stone was able workmanship, together with a within the vein which he had so accidentally stumbled upon.

Here was the discovery they had been hoping to make, only a hundred times richer than they had dared to expect. the stone was venerated as a household But had it come in time to benefit them?

Mayhew dropped his tools and rushed from the mine to glance at the sun riding high overhead, and then gave a that Duncan's horse was better than any one which he could procure for his own use in the camp.

progress down the mountain had been slow. He had little heart for his errand, and less faith of convincing Prang that their prospects were worth more than Blashford's offer of cash in hand.

He rode along leisurely and stopped for a rest during the heat of the day. but as evening approached he pushed on more rapidly, and was within a few partner's voice called his name,

"Duncan, hold on! I hardly bone

for such good luck as to overhaul you, and I couldn't have done it with any other beast. Come, get down and change mounts with me. I am the one to see Sharkey and convince him that he's safe in backing us. See that, will you? The Hope is a certainty now, old

fellow, and it will be ours yet," He showed the specimens of mineral which he carried, and poured out the story of his find; but Duncan fixed his eyes upon the horse which his companion rode.

"Surely this is Blashford's Comet!" he exclaimed.

"Yes; I found her 'all saddled and to set out on this same errand of ours, work is already contracted for. to get hold of the Daily Hope, but I stole a march on him and borrowed his mare without asking. I recken you had better take her back to camp about now."

"He might make it look uncommonly "He might make it look uncommonly like a case of stealing if he tried," said tion to statistics, but Walter Besant, in Duncan, gravely.

"Oh, nonsense! A fellow is justified in a case like this."

And Mayhew swung into the other's saddle and was off, eager to close the water." bargain which should make them beyoud all chance the owners of the mine.
