Pablic opinion should be pronounced in the case of a father and son named vanced age. His Holiness, however, Rice, who conjointly edit a Republican seems to be much worried because of the paper in Fort Scott, but who at present are opposing candidates for the Kansas Legislature, the son as a Republican and the father as an Independent. As a straight out party organ their journal supports the son, but any man with the least sense of reverence in him would tell that youth to get out and give the old man a show.

A prominent granger tells us the Wrothy Master of the State grange only the Pontiff, but this explanation affords learned at Williamsgrove that he did not carry that respectable order in his vest pocket at all-not even to the extent of a single vote. This could have been learned from the columns of the REPOR-TER long ago, and that his following was confined to only that especial friend of the farmer, an oals operator, two or three the "Peter's Pence." middle-men and the vile Gazette, all outside of the grange. Strange company

They are Moving. A leading Republican of Chester county, Mr. Alfred Sharpless, is authority for the statement that in that county "the names of 700 Chester county Republicans have been listed who will positively vote for Governor Pattison." And the work is still going on in that county. An independent Republican league has been organized in Warren pledged to resist boss dictation which numbers 200 of the 450 Republican voters of the borough, and organizations on the same basis are being formed in every township of the county.

The Farmers' League of Indiana county, composed largely of Republicans, has adopted a set of questions to be submitted to the consideration of candidates of both political parties. Among them is the following: "Will you do all in your power to defeat caucus rule and to defeat the will of M. S. Quay in electing J. D. Cameron or any corporation lawyer for United States senator?" The other questions request of candidates to state whether or not they will enforce the constitution against corporations; do all they can to advance farmers' and laborers' interests; establish an equitable system of taxation; work for the Australian system of voting; let bribery and intimidation be dealt with as treason, and do all in their power to reduce high official salaries and to abolish the store-order system. It will be queer indeed if the Farmers' League of Indiana county doesn't give Governor Pattison a solid support.

Evidences of Republican activity against Delamater and Quay come from many counties of the State, and in a few days the independent; say plans of effective organization covering the Commonwealth will be determined on and put into execution. This should encourage Democrats, but they must not lose sight of the fact they have a great work before them. Of course they can labor more effectively with the reasonable assurance of success, and that we take it, they have Robert E. Pattison will be next governor of Pennsylvania. That is the logic of the situation at this time, and it is a Democratic duty to confirm and strengthen it.

It is really wonderful, how many individuals permit themselves to be hood-winked by quack medicines and compounds of all kinds. A sure cure for nearly all diseases that flesh is heir to, are the often spoken words on each bottle of this trash. Doctors of repute who have spent their days, and nights too in their studies to learn if possible any new thing to prolong life, and to make life more enjoyable, have no hesitancy in recommending Klein's Silver Age Rye. Mr. Klein does not claim that it cures all ailments; but it is considered by all who know the goods; that it is a fine stimulent, that it is used in City Hospitals; that Physicians recommend it; nay prescribe it, and that it strengthens the weak. It is also admitted by all who know Mr. Max Klein that his many years in business have fitted him not only to deal fairly with the world, but made him the leader of his line in our state.
