BEHRING SEA SEALS.

An Appeal Made to the United

States Supreme Court. WASHINGTON, Jan. 13.—The Behring sea fur seal fishing question was sud-denly and unexpectedly brought before the supreme court of the United States yesterday, when Sir John Thompson, attorney general tor Canada, through Mr. Calderon Carlisle, the American counsel of the British legation, and Mr. Joseph Choate, associate council, made a motion in the court for a writ of pro-hibition commanding the United States district court at Sitka to annul the pro-ceedings by which the schooner W. P. Sayward was libeled in 1887. This move on the part of the Canadian officials, it was stated, was made in behalf of Canada by Sir John Thompson, with full knowledge and consent of the British government, the purpose evidently being to appeal from the state department to the supreme court to settle once and for all the dispute. This move on the part of the British government seems not to have been expected and the attorney general was taken by surprise when the motion was made by Mr. Choate.

The court ordered that two weeks' time be granted to the attorney general to make a showing in opposition to the motion. The British government, it is believed, has had this matter in contemplation for some time, probably since last spring, when it was announced that the negotiations between the United States and England on the Beh-

ring sea matter were ended. The schooner W. P. Sayward, of Victoria, B. C., was captured by the revenue cutter Rush. Capt. Shepard, for killing seal in Behring sea. When the confidence they have given your people in their isolated homes. Like capture was made the schooner was on Behring sea, fifty-nine miles from any land, and there were 477 seal skins on board. The schooner was taken to Oonalaska by the Rush, and from there to Sitka, where she was libeled by the United States district court for taking seal within the jurisdiction of the United States, in violation of the revised statutes. An appeal was taken, and the case was taken to the supreme court, and on motion of petitioners, this was dismissed, which motion was immediately followed with a request to file suggestions with the court for the writ of prohibition to annul the action of the district court of Alaska.

On Friday night the vessel was designed by fire to night the vessel was damaged by fire to the extent of \$3,000. The vessel had been undergoing repairs. The second visitation caused a damage of \$25,000; partially insured, the policy being held in the Liverpool, London and Globe

Strange Receptacle for Surplus Mail. MiddleBorough, Ky., Jan. 12.-Great indignation prevails here over the dis-covery of mail matter which was found in an old ash barrel back of the postoffice building. There were letters, circulars and newspapers, some of which were received for distribution here, while others were intended for other points. The only explanation the post-office authorities will give is that their building is too small for the transaction of their business.

Early Closing a Failure.

BALTIMORE, Jan. 12.—The grand jury in a report, said that the high license law, as at present framed, is a complete failure so far as it prevents the sale of spirituous and fermented liquors on Sunday. The report suggests that the law be amended so as to require an unobstructed view from the street to the barrooms; that only one entrance be allowed to a barroom and that a direct way from the street.

Living on Turnips.

CORK, Jan. 12.—The state of destitu-tion into which the poor people of some portions of Ireland are plunged can be judged by the fact that representatives of over a hundred families living in the Cloyne district waited upon the board of guardians and earnestly begged for assistance. They stated that for some time past they had been starving and had been living almost entirely upon turnips.

INDIANS COMING IN SLOWLY,

Leaving Their Arms Hid in the Sand Hills-Hemmed in Closely by the Troops and the Cordon Being Drawn Tighter-Brules to be Sent to Rosebud.

PINE RIDGE, S. D., Jan. 13.-It now looks as though the Indian troubles would be ended today and that without further bloodshed. The hostiles, with many warlike demonstrations and firing of rifles, have advanced to within about a mile of the agency, and Gen. Miles confidently expects that by to-night peace will reign at the agency. Scout Gourard reports that the savages are wild and growing more measy as they approach the agency. They fear they are going to be swept off the face of the earth for the deviltry they have committed. The crisis will be reached when the savages go into camp here. Then it will only take a spark to set off the whole magazine. Artillery men were galloping through the camp today placing their heavy guns in more commanding posi-

Everything is now so arranged that any hostile demonstrations on the part of the savages will be met by a fire which will instantly crush them. Gen. Miles has sent the following communication to Buffalo Bill, who is in command of the Nebraska state troops: "I am glad to inform you that the entire body of Indians are now camped near here within a mile and a half. They show every disposition to comply with the orders of the authorities. Nothing but an accident can prevent peace being established, and it will be our ambition to make it of a permanent character. I feel that the state troops can now be withdrawn with safety and desire information has this day been given Gen. Colby.'

The Warlike Cheyennes, PINE RIDGE, S. D., Jan. 13.—Capt. Ewers will start in a few days with Little Chief's band of 490 Cheyennes, to take them to the Tongue river, Mont. Little Chief and his band have been ugly fighters in every war for the past twenty years. In 1876 they were sent from this region to Ft. Reno, I. T., and in 1878 fought their way back through the settlements of Kansas and Ne-

where they were captured.
Since then they have been good friends to the whites and made excellent police and scouts. The band have about 900 relatives on the Tongue river and have begged for several years to be transferred to the reservation. Capt. Ewers and his party will go across the reservation to Rapid creek, thence to Ft. Meade, next Winnesella, and from there along the stage road to the agency. The settlers along that route are too well acquainted with the Cheyennes and Sioux to be unnecessarily alarmed by the movements of so large a body of Indians.

LINCOLN, Neb., Jan. 12 .- The gubernatorial situation remains unchanged. Governor Boyd is recognized by all of the state officers, while ex-Governor Thayer still insists that he is still at the head of the state government. It is evident that Governor Boyd's warrants will be honored by the auditor and treasurer, while Governor Thayer will not be able to have supplies for his militiamen pending the settlement of the controversy by the supreme court the controversy by the supreme court.

A Fatal Colliery Accident.

SHAMOKIN, Jan. 13.—A fatal accident occurred at the Burnside colliery yesterday just after operations were com-menced. A dirt car was being hoisted up the plane at the side of the breaker, and while passing over the knuckle at the top the pulling bar became de-tached, causing the car to run back. It dashed down the steep incline, and at the bottom struck Andrew Hersherick, who was employed as a dirt loader, mangling his body and killing him in-
