A CURE FOR LA GRIPPE.

The Great Factor in Stemming the Present Epidemic.

La Grippe, at present epidemic on this Continent, as well as on the Continent of Europe, the precursor of pneumonia, and other fatal diseases, is principally a catarrhal inflammation of the mucous membrane of the upper air passages. It comes on suddenly and is generally attended with extreme debility, high fever, pains in the head. shoulder and limbs, oppression of the chest, severe cough, and a little expectoration.

The disease should be at once driveu out of the system in the first stages if possible, and not allowed to develop into others of a more serious nature which may become fatal. To do this the most simple and effective agent may be found in Radway's Ready Relief and Radway's Fills. The latter are to be used where there is not diarrhœa. Take two or four of Radway's Pills before retiring at night, and swallow thirty to sixty drops Radway's Ready Relief in half a tumblerful of water. In applying the Ready Relief by hand, wet well the head, throat, chest, shoulders and wherever the pain is felt. If not entirely cured repeat the following night. This treatment has been used before in similar epidemics, has cured thousands, and warded off pneumonia and other fatal dis-

Radway's Ready Relief and Radway's Pills should be in every family. It is jeopardizing human life to be without them. An ounce of prevention is better than a pound of cure.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the muccus linhing of the Eustachian Tube. When this tube gets inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing, will be destroyed forever; nine cases out of the nare caused by catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that we cannot cure by taking Hall's Catarrh Cure.

The majority of well-read physicians now believe that Consumption is a germ disease. In other words, instead of being in the constitution itself it is caused by innumerable small creatures living in the Oriental Cream, or Magical Beautifler lungs having no business there and eating them away as caterpillars do

the leaves of trees. The phlegm that is coughed up is those parts of the lungs which have been

gnawed off and destroyed. These little bacilli, as the germs are called, are too small to be seen with the naked eye, but they are very much alive just the same, and enter the body in our food, in the air we breathe, and through the pores of the skin. Thence they get into the blood and finally arrive at the lungs where they fasten and increase with frightful rapidity. Then German Syrup comes in, loosens them, kills them, expells them, heals the places they leave, and so nourish and soothe that, in a short time consumptives become germ-proof and well. @
