Senator Taggart, granger, at the last moment jumped the granger tax bill as along, that it was supposed he would never flinch, but at the last whack he went right over to the Boyer bill, Granger Taggart, like a few other leading grangers, is human, and has weaknesses just where backbone should be in abundance, and we have a clear proof here that some of the fellows who are bellowing "farmer," "farmer" are frauds.

A Republican paper in Chicago declares that "abundant showers of McKinlay rain have fallen throughout several Western states" and adds: "With an extra crop of wheat and corn sold at the best prices had in ten years, the g. o. p. date. will be in pretty good shape again, thank you."
