CENTRE BALL, PA., THURS. AUG. 27.

PENNSYLVANIA'S STORM

Echoes from the Path of the Meavy Rainfall.

READING, Pa., Aug. 25 .- During Sunday night's storm there were many narrow escapes from lightning. Valentine Grieb and Solomon Shear, watch men at the Reading Fertilizer company's works, were knocked down by a stroke of light-ning and lay stunned for several minutes. About midnight, while Superin-tendent Bouzano and other officials of the Philadelphia and Reading railroad were seated in the trainmaster's office Lightning struck the building and knocked off a large piece of coping on the northeast corner of the office. Nearly every person in the office was affected by the shock.

The Bernhart valley, north of this city, and the Antietam valley, south of Mount Penn, was deluged. The water was half way up to the first stories of many houses, and the people fearing that the large storage reservoirs of this city, situated in these valleys, would burst, abandoned their homes and fled to the high ground.

MOHRSVIILE, Pa., Aug. 25. - The Bowmanite Evangelical camp meeting near this place was wrecked by Sunday night's storm. Lightning struck a number of trees, and some of them in falling came dangerously near crushing upon tents. A regular stream of water rushed through the woods and carried away bedding and furniture. Tents were blown down and the people were thoroughly drenched. Those who were on their way to the Mohrsville station had a sorry time. Several thousand people were on the grounds. Bishops Bowman and Esher said they never exexperienced such a time at camp meet-

SHILLINGTON, Pa., Aug. 25.—The race course of the Three Mile House at this place was washed out to the depth of three feet by the storm of Sunday night. The stables adjoining the track were flooded, and thirty-eight trotting horses kept there in training for fall races had to be removed to places of safety. Nearly 100 people returning from camp meet-ing had to remain here all night, as they could not cross the Wyomissing creek, which was twelve feet high. A num-ber of farmers lost cows, hogs and other valuable live stack.

ROBESONIA, Pa., Aug. 25 .- The reservoir at the Robesonia furnace, which furnished that large industry, and also the village with water, broke Sunday night, ewing to heavy rains. The flood caused great destruction. Gardens, fences and public roads were all washed out, and trees were uprooted in the ourse of the flood. Over 300 feet of Philadelphia and Reading tracks near the station were carried away. TREMONT, Pa., Aug. 25.-The Black-

wood Coal breaker was struck by lightning and badly damaged. The Phila-delphia and Reading Coal and Iron company's store was destroyed by fire. There ern end of Schuylkill

NEW YORK'S HORROR

NEW YORK, Aug. 24 .- Nearly a hundred men are now at work removing debris from the burned buildings on Park Place, which collapsed on Saturday afternoon. Two companies of firemen are kept at their dreary task searching for bodies. Thus far seventeen bodies have been taken out of the ruins.

During the day inquiries were made at the police station near by for missing persons, and the list of missing as reported yesterday has been largely swelled. It is now stated that the number of those missing is eighty-six.

Au Agonized Father.

Poer Eugene Heagney. He was the saddest of all the sad sights. Three of his children—his hittle boy and two little girls-had been at play on the sidewalk of the building in which he car-ried on his plumbing business. Crazed

with grief and suspense he ran to his home on the fifth floor of No. 51, across the street, and ran back to the wrecked building, muttering and crying and not knowing half he said, begging the firemen to work and begging the bystand-ers to tell him where his children were -a pitiful spectacle for men with hearts. More workmen to the task in hand. The bystanders were willing and anxious to assist, but their help was not needed as yet. Firemen released from their work with the hose sprang to the work and tere at the bricks with hands and toels

At last they came upon a little arm chad m soiled and torn cotton. Then a face was unclosed—the face of a child, still alive and her eyes blinking at the sudden light. With might and main they finng away the bricks. The ambulance surgeon reached down and pressed to the bleeding lips a glass of water. The child drank it. Her body was still enclosed in timbers, but she could speak. "My sister is down in there," she said:

'can't you get her out?" The firemen dug on and soon extricated the child, who proved to be Mary Hagney, the plumber's 9-year-old daugh-

Fifteen minutes later the firemen drew out from the mass just next to where Mary had been uncovered the body of little Annie Heagney, 4 years old. She was quite dead. The bricks had fallen upon her little chest and crushed it in. She must have died full of pain.

Still Bigging for the Bead. NEW YORK, Aug. 25.-A gang of Italians worked under the light of elec-

tricity all Snnday night at the scene of the disaster in Park place. Progress was slow owing to the immense amount of debris which the overturned rear wall created. The first discovery was made at 5.30 in the morning, that of the body a man burned beyond recognition. was no other storm damage in the west- At 7.40 the body of another man was out; a few minutes late that of a boy. The latter was terribly burned about the face and arms. The man had been fearfully crushed, his intestines protruding in a way that was sickening to see. At 8.30 the body of a man with his legs burned off was discovered and was recognized as that of John Steinke, of Jersey City. At 9.50 a young man's body was found, making the twenty-fourth vistim discovered.

SHOEMAKESVHLE, Pa., Aug. 25, -Seve-ral breaks occurred in the Schuylkill canal caused by the heavy rain, and the low lands have been flooded for a distance of some miles. Many farms were entirely submerged, and great damage was done to property.

Attacked a Little Girl.

ASHLAND, Pa., Aug. 24.-Little Mary Stitzer, aged 7, who disappeared from Washington park, has returned home, and her story of her treatment has caused considerable excitement. She left the park to take a walk. She had not gone far when a man, apparently 20 years old, drove up to her and asked her to take a ride. She accepted, and they drove off in the direction of the fair grounds. When he reached a lonely spot in the road she jumped from the buggy. He followed and assaulted her. He then drove off. The child was found and brought to her home, where she is still lying in a precarious condition.

The Grangers' Exhibition.

CARLISLE, Pa., Aug. 25.—Yesterday being the opening day of the eighteenth annual session of the grangers extriki-tion at Williams Grove, the attendance of people from all parts of the country was large. The address of welcome was delivered by Hon. Leonard Rhone, worthy master of this state, who declared the exhibition opened. Every department is complete. Distinguished men will make addresses during the week. This forenoon the machinery was put in active operation.

Great Damage by Storm.

POTTSVILLE, Pa., Aug. 24.-The worst thunder storm ever known in this section occurred yesterday afternoon and caused damage to property estimated at \$100,000. Cellars in the business portion of the city were flooded, and many lower stories of residences were filled with water. Reports from Minersville, St. Clair, Port Carbon, Schuylkill Haven, Girardville and Mahanoy Plane say that the storm at those places caused great damage.

Cleared of a Murder Trial.

CENTRALIA, Pa., Aug. 24.—Lawrence Derr, who was suspected as being the murderer of Anthony Dougherty, has murderer of Anthony Dougherty, has returned to Centralia and, appearing be-fore the jury, made a satisfactory state-ment, which was corroborated by Dougherty's wife and three othes who were inmates of Dougherty's house. The jury then brought in a verdict of accidental death, exempting Derr and the railroad company from all blame.

Another Cigarette Victim.

WEST CHESTER, Aug. 25.-Llewellan Quillan, a young man of this place, yesterday was strapped to his bed, a raving maniac, and the physicians in charge of him assign the cause of his condition to inveterate cigarette smoking. The phy-sicians are of the opinion that this at-tack will not last long, but say if Quil-lan falls into his old habits when he recovers from this attack he will lose his reason permanently.

Incorporated Into a Borough.

EPHRATA. Pa., Aug. 24.-The court has incorporated this town into a borough, and ordered an election for officers to be held Sept. 15. The officers of elec-tion are : Judge, H. C. Gemperling ; in-spectors, John H. Shea and Alle. B. Urich.

A few minutes later a bystander saw an Italian workman pick up a vest and take a watch and chain out of it. A policeman was called and the Italian ar-rested with the watch and chain in his possession. He said he intended to give them to bis foreman. He was held in \$350 bail to answer. At 10:30 another bedy, that of a man greatly disfigured and burned, was taken out. Thirty-four Bodies Recovered.

The work of removing the debris was greatly accelerated in the afternoon. The Italian laborers had been notoriously inefficient, and in their place stalwart longshoremen were substituted. They pulled a mammoth press from the ruins and another body, that of a man, was dlscovered beneath it. At 3 o'clock the bodies of three women were found.

A few minutes later three more bodies were found, two women and one man. Three of the women were identified as Maggie Quinn, 18 years of age; Mrs. Lottie Hean, 26 years; Mammie Williams, 16 years.

Up to midnight two more bodies had been taken from the ruins, making thirty-four in all thus far recovered. Two more of the bodies were identified last night. They are: Mary Deinlein, aged 16, of 445 East Ninth street; and Conrad Schmidt, of 125 East One Hundred and Sixth street.

Crushed Beneath a Press.

Early this morning the workmen, in removing some timbers revealed the arm, head and breast of a woman. She lay on her back and a large press crushed her down with its weight and rendered the removal of the body impossible without the use of a derrick. The face showed no sign of suffering, she having been providentially stunned before the press crushed her life out. At 1:30 this morning another body

was found. It was discovered in a sitting position on the site of the restaurant at the west side of the ruins. It was that of a man about 30 years of age.

Later a small foot, ankle and part of a leg. probably a boy's or a girl's, was recovered. The member looked as though it had been burned away from the body.

The total number of the bodies recovered from the ruins is thirty-four. The number positively identified is twenty, and the number reported miss-ing eighty-eight. This would indicate that 122 persons lost their lives by the collapse of the building.

The worst part of the tragedy is yet to come, as evidenced by a fearful and overwhelming stench which indicates unknown horrors and an almost inesti-mable number of bodies buried underneath the weight of rubbish and machinery. A terrible stench arises from that part of the ruins occupied by the restaurant. It is probable that this spot will add a fearful tale to the present and estimate of the horror.

The theory that the accident was directly caused by faulty construction is being borne out by the facts which are slowly coming in.

District Attorney Nicoll is already considering the question of indicting the person or persons responsible for the

Monday, Aug. 24.

Pearl Scholy, aged 11, and Ida Smith, aged 19, were drowned while rowing in Pine lake, near Lansing, Mich.

A private dispatch from San Francisco states that President Harrison will appoint ex-Congressman W. Morrow as judge of the United States district court for that district, to succeed Ogden Hoffman, deceased.

Secretary Foster says that the treasury department proposes to redeem, on presentation after Sept. 2, all outstanding 41/2 per cent. bonds not continued at 2 per cent. and consequently that there is no ground whatever for the impression prevailing in some quarters that interest will continue to be paid, after Sept. 2, on the nenextended bonds.
