THE WORLD FOR 1892.

"The most energetic, resolute and relentiess journal in America when it nets out to accomplish any great object; I can testify to its humanity, comprehension and persistence."—GAIL HAMIL-

We can tell our Republican readers a secret and our Democratic friend a piece of good news: The World intends to and will elect another Democratic President this year, as it elected Grover Cleveland in 1884.

Whether the Democratic candidate shall be Grover-Cleveland, representing the cause of Tariff Reform, or any one of a number of other Democratic leaders who can be elected, representing all the elements of opposition to Republicanism The World will be foremost in his support. The next President must be a Democrat

But while doing this The World will give to its Republican readers, as it did in the recent campaign, a fuller and better report of Republican meetings and speeches in the Presidential can vass than the organs of their own party print The World never colors news; it photographs events.

The World is now printing an average of over 320,000 copiesa day. It has made a net average ga n of 36,000 a day during the past year. It will circulate next year, on the basis of this increase only, at least 120,000,000 copies of the ablest,

strongest and best Democratic news; aper printed. The World is recognized as distinctively the Newspaper of the People. It believes that to be the highest journalism, which is dedicated to the public service.

The World puts heart and conscience into its work as well as brains. It is the handmaid of Justice, the unraveller of mysteries, the detecter and the terror of Crime, the friend of the friendless, the help of the poor the strength of the weak. Realizing that its power comes from the People, it gives back to them freely weatever service its influence and its resources enable it to

With a perfect equipment, a thorough organization, capable direction and a deep determination to move on and up to higher ideals and greater schievements, The World wishes its muititude of readers a Happy New Year and confidently bids them to expect from it during 1892 even more wonderful things than it has already accomplished.
