The Pleasures of Editing.

Editing a paper, says a provincial editor, is a pleasing thing. If it contains too much political matter, people won't have it; if it contains too little, they won't have it. If the type is too large, it doesn't contain enough reading matter; if the type is too small, they can't read it. If we put in a few jokes, folks say we are nothing but a rattle-head; if we omit jokes they say we are an old fossil. If we publish original matter, they condemn us for not giving them selections; if we publish selections, folks say we are lazy for not giving them what they have not read in some other paper. If we give a man complimentary notices, we are censured for being partial; if we do not all hands say we are a great boor. If we insert an article which pleases the ladies, men become jealous; if we do not cater to their wishes, the paper is not fit to be in their houses. If we attend church, they say it is for effect; if we do not, they denounce us as deceitful and desperately wicked. If we speak well of an act, folks say we dare not do otherwise; if we censure, they call us a traitor. If we remain in our office and attend to business, folks say we are too proud to mingle with our fellows; if we go about a bit, they say we had better stay at home and get on with our work. If we do not pay all bills promptly, folks say we are not to be trusted; if we do pay promptly, they say we stole the money.

A Good Way to Get Rid of Them.

A number of gentlemen interested in trap shooting are experimenting with English sparrows as targets. It is said that out West these birds have frequently been utilized as targets in trap shooting, and that they served the purpose excellently—making a good substitute for both the live and clay pigeon in every respect. He is very active, a rapid flyer, and invariably flies from the shooter. In the latter respect he differs widely from the domestic pigeon, which often flies toward the shooter. Another strong reason for the substitution of the English sparrow as a target is that he is small, thereby insuring better marksmanship in the end. As the bird is a regular nuisance, his destruction would really be in the nature of a lasting benefit to the country.

Within a year the first long-distance telephone line will be completed between Chicago and New York.

Before then it is expected that every one of the more than eight thousand telephones in Chicago will be replaced with copper metallic circuit instruments, by the use of which any sound can be transmitted for thousands of miles with perfect distinctness. These improvements will cost the American Bell Telephone Company and its auxiliary corporations several millions of dollars. The work of building the first line from New York across the continent was begun several months ago. Without following the route of any railroad, the line has been built straight across the country, over the Alleghenies, and across rivers. Its western terminus is now at Cleveland, from which point it will be pushed rapidly westward to Chicago and beyond. Another trans-continental line is projected, and in fact, already begun, which will pass through Pittsburgh and reach Chicago by another route.

We desire to say to our citizens, that for years we have been selling Dr. King's New Discovery for Consumption, Dr. King's New Life Pills, Bucklen's Arnica Salve and Electric Bitters and have never handled remedies that sell as well, or that have given such universal satisfaction. We do not hesitate to guarantee them ever time, and we stand ready to refund the purchase price, if satisfactory results do not follow their use. These remedies have won their great popularity purely on their merits. J. D. Murray Druggist.

SIX YEARS FOR PRESIDENT.

Bill in Congress to Extend the Term of Office.

The sub-committee of the Committee on Elections has favorably reported the bill prolonging the term of the president and vice-president to six years, and making the former ineligible to a second term. The same bill extends the term of a representative to three years. The reason assigned by the committee for making these recommendations are that a vast deal of time and money are wasted in electing presidents, and representatives have so short a term that their knowledge of the National needs amounts to very little if they serve but two years.
