

Disease of Cattle.

The recent scientific investigations conducted in the veterinary department of the University of Pennsylvania, of the diseased cattle belonging to Joseph E. Gillingham, have aroused the curiosity of the public to an alarming degree. The cattle are being killed at the rate of three a day, and in no case has there been an absence of disease. Are not all cattle, particularly those of imported breeds, victims of tuberculosis to a greater or less degree? Is the question that is now confronting bovine experts.

It has been rumored that several other valuable herds will be sacrificed in a similar manner. When questioned in regard to this, Dr. John Marshall, dean of the veterinary department, said that such might be the case, although it had not reached his ears. "Unquestionably there are lots of herds affected, as are Mr. Gillingham's cattle," he said, "and their owners may follow his example. The disease is both contagious and hereditary. As to whether tuberculosis can be communicated through the mediums of milk and butter to human beings I am not prepared to say positively, although my own impression is that it can."

Joseph E. Gillingham said he had not heard that any herds but his own were to be killed.

Anarchists Must Leave the Country.

In accordance with the decision of the government to adopt the most stringent measures to repress the Anarchists, orders for their expulsion from France, were on Thursday communicated to several of the leading foreign Anarchists in Paris. No actual crime is charged against these, but the authorities are determined to prevent them from committing acts of violence at Paris. They are known to be hand in glove with the French Anarchists, and it is believed they will be far less dangerous if they are driven from the country. Several other Anarchists, who were warned a short time ago to leave France, paid no attention to the warning and gave no sign that they intended to do so. Thursday they were taken in charge by the police and conducted to the frontier. The other Anarchists who have been notified to leave are Italians, Germans, Austrians, and Belgians. They must leave the country within twenty-four hours. Leon Ravechol, the leader of the Anarchists, was taken into custody on Thursday, in Paris, and there is nothing to show that he made the desperate struggle it is said the police expected him to make before he would submit to arrest.

Greatly Exaggerated.

Rev. Davis, pastor of the Centre Hall Evangelical charge, informs us that the report telegraphed from Chicago of a disgraceful fight in one of the churches of Chicago, week before last, was greatly overdrawn, that there was no violence at all. If the story had been correct it would have been a disgraceful affair, but how much more disgraceful it is to set such an untruthful story afloat.

It is the cheapest blacking considering its quality, and yet we want to sell it cheaper if it can be done. We will pay

\$10,000 Reward for a recipe that will enable us to make Wolff's Acme Blacking at such a price that a retailer can profitably sell it at 10c. a bottle. This offer is open until Jan. 1st, 1893.
