

THE LAND OF SUNSHINE.

A Unique Country where the Skies are almost never Clouded while the air is Cool and Bracing, like Perpetual Spring.

As an anomalous southern resort, by reason of the fact that there one may escape summer heat no less than winter cold, New Mexico is rapidly becoming famous. Averaging throughout the entire territory 5,600 feet in altitude above sea-level, and characterized by dry air which, unlike a humid atmosphere, is incapable of communicating heat, the temperature in midsummer remains at a delightfully comfortable degree through the day, and at night becomes invariably brisk and bracing.

An Expensive Law.

Supervising Architect Elbroke, of Washington says that the new eight-hour law will cost the government \$3,000,000 more a year on its building contracts alone, and that it may make a serious difference in the character of the public buildings to be erected in Washington, Omaha, St. Paul, Milwaukee and San Francisco.

The law does not apply to those who already hold contracts with the government," said Mr. Elbroke, "but it will be made to apply to them directly in a great many cases, and that was what it was intended to do.

A friend in need is a friend indeed, and not less than one million people have found just such a friend in Dr. King's New Discovery for Consumption, Coughs, and Colds.

Onerous taxation comes from dishonest public servants. If the man who says there is no honesty in politics is elected to a public position, he will not fail to be dishonest and extravagant, and the taxpayer must make it up.

Citizens should always have an eye to honest men in their choice for men to fill public positions.
