THE "AMERICAN TIN" HUMBUG.

The tin banner was paraded upon the stage (when the Governor made his address) at a propitious moment to enthrone the multitude, bearing the noble inscription, "American tin, Norristown, Pa." with the name of the Ardmore Republican Club on the other side.

It was a magnificent spectacular display, and Gov. McKinley bowed time and again in response to the thunders of applause which drowned his voice. That identical tin banner was manufactured by Mr. William A. Edwards, of the Ely Tin Plate Company, near Cardiff Wales, who came over here with his Welsh superintendent, Mr. Richard Lewis, and later bought and repaired a mill at Norristown, imported his own plates from his foreign mill imported his own tin from Wales, imported his own skilled workmen, and dipped the English plates in English tin by English workmen, and McKinley points to it as a grand achievement of his tariff in producing American tin. There is one of the same tin-plates (pointing to a tin-plate on the platform), and I have the certificate of the man who made it.—From Col. McClure's Speech in Philadelphia.

Water famine is the cry all over the country.

Dog sausage is only eaten in the cities, the article made of pork is good enough for us in the country.

GEORGE F. KRIBBS.

Mr. Kribbs has filled his place in congress so honorably there will scarce be any opposition to his re-election, and he will be returned with an increased majority. Every vote cast by him has been right, and the pity is that there are not more men of his stamp elected to congress. There would be less robbery, greater economy, and fewer laws.

It is strange that some county officials seem to forget that their Democratic majorities come from this side altogether, and that there is some telling newspaper work done over here, yet when it comes to patronage a mere mite is thrown to this side, and the bulk where it is no more—perhaps less—deserving. That this side does not get a fair show in offices, is an old complaint, and the same wrong is committed against the journals over here. Occasional defeats should be reminders that fair-play is the best.

The Democratic county ticket seems to be a very satisfactory one the opposition have failed to pick a flaw in it. McCormick acquitted himself creditably during his first term and will do the same in his second, while Schofield will be equally as true in the lower house. Mr. Smith will come up from the lower end with a good vote, while Faulkner, Singer and Herring will turn up with a vote they can feel proud of.

Some men are your friends as long as you serve or favor them. When you can no longer do this ingratitude is the reward you get for your kindness. Never be an ingrate, always remember kindness.

Chicago has a grand time this week dedicating the World's Fair buildings. The editor of the REPORTER had an invitation and a reserved seat, but had to forego the pleasure on account of other business.

Andrew Carnegie was worried so much over the Homestead trouble that he had to go fishing. Poor Carnegie.

THE MAN FOR THE OFFICE.

The *Wage-Earners Journal*, of Phillipsburg, thus endorses the nomination of James Schofield, of Bellefonte, for Legislature:

"James Schofield, of Bellefonte spent a couple of days in Phillipsburg, this week among his friends, with a view to his fitness to occupy the position of one of the representatives of Centre County in the Legislature of the State. The gentleman's friends were so numerous that he had a difficult time to get around, and his visit to the editor was very brief. It would not have mattered to us had he not called. We have known 'Jim' too long to have been influenced one particle by what he would or would not say, now since he aspires to a seat in the State Legislature. We have known him since a boy—and a bad boy at that. Just bad enough to be taken into McClure's saddle shop, and made a harness maker of, but not quite bad enough to make a good printer's devil. 'Jim' served his trade faithfully, and turned out to be one of the best harness makers in the State, his best piece of work being a set of harness valued at \$450. Then he started a shop for himself, and now has the biggest institution of the kind in the county. At night he studied and read and read and studied, then began to dabble in politics, and turned out to be quite a good stump speaker, and popular with workmen and farmers because their welfare has always been a sort of a hobby with him. Several years ago the people of Bellefonte wanted an A. No. 1 man to fill the position of Overseer of the Poor and they elected 'Jim,' and after serving one term elected him again and filling the office six years or three terms. The old Republicans were a little afraid of Jim's unadulterated Democracy, but he overcame the big Republican majority in that town, was elected, and gave the town a business like and economic administration. Now, he's out for the Legislature and we hope he'll get the nomination. We don't hope so for his good but for the good of the people. The office will likely prove a loss to him but it will be the people's gain. If he is elected, every interest in the county will be looked after, and none will be served at the expense of the other. Labor will have as good a friend and advocate in Mr. Schofield as it would have if it sent some man fresh from the ranks of organized labor; the interests of the farmer will be guarded as rigidly as if that class in the county had sent the oldest granger in the county to Harrisburg, Mr. Schofield is honest, intelligent and a good talker. He will be able to do good work both in the committee rooms and on the floor of the House. If the Democracy nominate him, the people will see that he is elected, and the Democracy of the county will add strength to the ticket by nominating him.

Why do not our Republican contemporaries explain to the farmers of Montgomery county how it is the McKinley addition of 10 cents more than the old tariff a bushel on wheat has not raised the price of wheat. Last year it was from 90 to \$1.10 per bushel; now it is only 70 cents per bushel. The McKinley tax of 25 cents per bushel has been in operation now over two years, and yet wheat has come down in the markets. The farmers of Kansas have sold wheat at 50 cents per bushel this year to pay their campaign expenses in their efforts to defeat Harrison's re-election.—Norristown Register.

General Hastings says the McKinley bill has increased the earnings of the tobacco raisers of Connecticut from \$25 to \$125 per acre. We wonder if the same bill is responsible for the wool and wheat of Mercer county selling for twenty-five and seventy-five cents respectively. How many bushels of wheat per acre would a Mercer county farmer have to raise or how many sheep per acre would he have to keep in order to secure the same return? The McKinley tariff taxes the many to enrich the few. It makes a few millionaires and a multitude of paupers. How long will it be endured?—Mercer Press.

Mr. Carnegie agrees that free trade is the best thing for England, that in a young country like the United States it is best to "temporarily protect." But when a man makes \$5,000 a day by the "temporary" article of protection, is it not human nature to be should desire to make it permanent? Naturally therefore, Mr. Carnegie congratulates and sends \$120,000 to the Republican national committee, remarks the *Pittsburg Post*, to which we may add, and Carnegie then spends his American made profits in free trade England.

There is no portion or section of the country that can be pointed to as booming with prosperity. From all quarters comes the complaint of stagnation in business. How far does this fact go to prove that the McKinley tariff has been a blessing.

Brother Dan Hastings is out making speeches big as himself. In not one of his talks does he allude to the stagnation in Bellefonte, his home, where all industries are dead—died since the McKinley reviver was passed.

Trimmed Just to Suit Him.

It is related that during the National Encampment of the G. A. R., just closed at Washington, a veteran Union soldier, minus both legs above the knee one arm and one eye and wearing the army blue, was grinding away at a hand-organ on the edge of the side walk on Pennsylvania avenue when a well-dressed, portly Southerner came along, stopped and gazed at the cripple for a moment, then laid a \$5 bill on the cigar box which rested on the top of the organ, "Thanks, comrade, but I haven't any change," said the old vet. "Don't comrade me," was the irritable reply, "but you can keep the whole of it. You are the first d—d Yankee soldier that I ever saw trimmed up just to suit me."

The Bellefonte Republicans should have some protectionist make an address in that town and explain to the people why its industries are all dead under the McKinly protective tariff.

Judge Cox, of Ohio, a member of Grant's cabinet, has flopped over to Cleveland. There are more on the way.

Sixty Million Bushels of Wheat.—A Bushel for every Inhabitant of the United States. The Kansas Crop of '92.

Never in the history of Kansas has that state had such bountiful crops as this year. The farmers cannot get enough hands to harvest the great crop and the Santa Fe Railroad has made special rates from Kansas City and other Missouri River towns, to induce harvest hands to go into the state. The wheat crop of the state will be from sixty to sixty-five million bushels and the quality is high. The grass crop is made, and is a very large one; the early potatoes, rye barley and oat crops are made and are all large. The weather has been propitious for corn and it is the cleanest, best looking corn to be found in the country to-day. Cheap rates will be made from Chicago St. Louis and all points on the Santa Fe east of the Missouri River, to all Kansas points, on August 30 and September 27, and these excursions will give a chance for eastern farmers to see what the great Sunflower State can do. A good map of Kansas will be mailed free upon application to Jno. J. Byrne, 723 Monadnock Block, Chicago Ill., together with reliable statistics and information about Kansas lands.

The constant demand of the traveling public to the far West for a comfortable and at the same time an economical mode of traveling, has led to the establishment of what is known as Pullman Colonist Sleepers.

These cars are built on the same general plan as the regular first-class Pullman Sleeper, the only difference is that they are not unholstered.

They are furnished complete with good comfortable hair mattresses, with blankets, snow white linen, curtains, plenty of towels, combs brushes, etc., which secure to the occupant of a berth as much privacy as is to be had in first-class sleepers. There are also separate toilet rooms for ladies and gentlemen, and smoking is absolutely prohibited. For full information send for Pullman Colonist Sleeper Leaflet. E. L. LOMAX, General Passenger and Ticket Agent, Omaha Neb. t. f.
