TO THE DEMOCRATS OF PENNSYLVANIA.

The election on the 8th of November will be held under the new law known as the Baker law. This law is a Republican measure. It originated in the House of Representatives, and was handled from first to last, as a partisan bill, for which the Republican leaders took the responsibility. All amendments offered from the Democratic side were voted down by the Republican majority.

In the Senate, the Ring Managers twisted and mangled the original bill, until they made it what it is and then passed it. All Democratic amendments were voted down, and all Democratic protests were disregarded. It professed to provide the machinery for a "secret" ballot, although, as Governor Pattison, warned the Legislature, in his inaugural, and, as every commonly informed citizen knows, a secret ballot is impossible in this State, without a change in the Constitution.

To induce the Democratic Governor to sign the Baker sham—which incurred all the expense and trouble, without accomplishing the object of the reformed system, namely, secrecy of the ballot—the Republican majority passed a bill providing, in a lame partisan way for a Constitutional Convention, as recommended by the Executive and give the latter signed the two bills together, in the faith that the Convention would make the Baker law effective, and the people genuine ballot reform, in return for the enormous expenditures and general disturbance occasioned by the law. But the Republican machine marshalled its hosts against the Convention, and left us with the Baker law alone—thus rendered useless and oppressive.

It now seems likely that many thousands of intelligent citizens will abstain from voting, rather than cast their ballots under this odious law. It was designed and intended to discourage independent voting, without interfering with the usual "ring monopoly" practices of corruption and intimidation, and we hereby urge all good citizens not to allow the Quay plan to succeed by yielding to the genuine disgust and remaining away from the polls. Every Democrat, every honest citizen, every Republican, and every man of every party, who is honestly opposed to Quay and Quayism, should familiarize himself with the method of voting under this infamous law, for which Quay and Quayism are responsible, and casting a clean ballot against Quay and Quayism, elect a legislature which will not again juggle with ballot reform at untold needless expense and annoyance to the people of the State.

Gov. Flower predicts that Cleveland's majority in New York state will be 50,000.

Cleveland will be elected—just pin that in your hat. He will carry New York and Indiana.

THE FARMER AND MCKINLEY.

While Governor McKinley has wisely eluded face-to-face debate on the tariff, he had to face a hard-headed farmer when addressing a Republican meeting lately in Norwalk, Ohio.

Just when McKinley declared that the farmer now "for the first time in the history of the country secures the benefit the protection system" a farmer rose and asked the author of the tariff—"How does it come then that the farmer has to sell his wheat at from 65 to 70 cents per bushel?" It was a stumper, and the Governor had to confess that the price of wheat depended upon the foreign demand. McKinley hoped that he was through

with his practical farmer, but the man who had both wheat and wool to sell came back at the Governor with this brain-clout—"Now tell us why wool has declined to 22 cents a pound under the McKinley bill." This knocked the Governor clear out, and he immediately made a rush at wild-cat money.

The surest way to prevent being killed by a gun "that you didn't know was loaded" is to drown yourself.

The REPORTER supplement contains the ticket to be voted November 8th along with sections of the law to be embraced in the sheriff's proclamation.

EARLY TARIFF HISTORY.

In citing Jefferson and Madison as favorable to protection, the Republican press carefully conceals the fact that the protection they favored was the protection of a Democratic revenue tariff, and holds no relation whatever to McKinleyism, which is a very different thing even from the protection Henry Clay championed. The two—the revenue tariff of the fathers and McKinleyism—are different in principle and purpose. The one levies a tax of 60 per cent, largely in the interest of established industries and to add to the gains of protected millionaires. The first tariff, reported by Madison to congress in 1789, was distinctively a revenue tariff; it imposed high duties on luxuries and low rates on the necessities of life. Few articles were enumerated, and on all non-enumerated articles the rate was 5 per cent. But mark this; wool, tin and tin plate, dyes hides and other raw materials were on the free list. This tariff was amended from time to time down to 1812 by increasing or lowering the rates as revenue was required. The embargo under Jefferson and the war of 1812 stopped importations as effectually as a prohibitory tariff could have done. From 1789, when the government went into operation, down to the war period of 1812, the average rate of duties was about 17 per cent. That was the Jefferson and Madison idea of "protection," as compared with McKinleyism, averaging 60 per cent; and with it in the first tariff bill framed they carried out the policy of free raw material as to wool, tin and tin plate, hides, etc., the Democratic principle of to-day.

Madison in reporting the first tariff bill declared himself "the friend to a very free system of commerce, and held it as a truth that commercial shackles are generally unjust, oppressive and impolitic."

Of course the protected manufacturer is for a Protection system out of which he can get the wages of his employees paid and have a handsome bonus besides. Steel rail makers are protected \$13.44 per ton, and they pay \$11.59 in wages. Sugar refiners are protected \$11.20, and they pay \$3.04 in wages. Pig iron workers are protected \$6.72, and pay in wages \$3.35 per ton. It is easy to understand why a protected manufacturer should be for the McKinley bill. But why in the name of common sense should the mechanic, the laborer, or the miner, the storekeeper, the car driver, the professional man, or any of the great unprotected class want to keep up this great scheme of fraudulent taxation? They don't want to do so. And they will say so at the polls in November.

Ex-Senator Edmunds was recently interviewed on subjects touching the present political contest, and in the course of his remarks he said of Grover Cleveland that he was "a strong, able man, honest and courageous." The people have long ago recognized these qualities in the Democratic candidate for President, the ex-Senator merely seeing in him what is seen by all. But coming from so high a Republican source it is valuable at this time. It supplements what the other great Republican, Chauncey Depew, said of Cleveland more than a year ago when in one of his public addresses he called him "the typical American."

In New York the Democrats are supporting a Republican for judge of one of the higher courts, because of his ability and fitness for the place. In other localities we have known Republicans to adopt the Democratic candidate for judge for the same reasons. This is eminently proper. The people cannot be too careful in this regard. You want an honest pure and upright man for judge at all times, one who is learned in the law, and not a partisan. Politics must not influence the voter. An incompetent, corrupt or partisan judge will rob you of your rights and property, without regard to justice.

William Macrum, one of the parties to the Baker ballot injunction case, on the 21st served notice on the Pittsburgh Printing Company formally warning them not to fulfill the contract entered into with the county commissioners. If the contract is illegal, Macrum's notice alleged, the county could not be held responsible and the commissioners were not responsible.

Of course Hamilton and Dale would vote for Quay, well knowing that he is not the choice of the people for senator.

Some of our Republican friends are a little nervous lest they vote right under the new ballot law. Now if these will follow the directions of the REPORTER they will surely vote right, see: Make an X mark to the right wherever the word "Democratic" is printed on the ballot, and you vote right, sure.

Many persons in Germany have good reasons to bless the day the Empress gave birth to a daughter. To mark the christening day of the infant princess 400 women who were imprisoned for various offenses have been released, and there is consequently much rejoicing among the erst-while prisoners and their families.

When the Democrats said they had gained McVeigh the other fellows replied they had gained Gen. Sickles. But now it turns out that Gen. Sickles is speaking for Cleveland.

Sixty Million Bushels of Wheat.—A Bushel for every Inhabitant of the United States. The Kansas Crop of '92.

Never in the history of Kansas has that state had such bountiful crops as this year. The farmers cannot get enough hands to harvest the great crop and the Santa Fe Railroad has made special rates from Kansas City and other Missouri River towns, to induce harvest hands to go into the state. The wheat crop of the state will be from sixty to sixty-five million bushels and the quality is high. The grass crop is made, and is a very large one; the early potatoes, rye barley and oat crops are made and are all large. The weather has been propitious for corn and it is the cleanest, best looking corn to be found in the country, to-day. Cheap rates will be made from Chicago St. Louis and all points on the Santa Fe east of the Missouri River, to all Kansas points, on August 30 and September 27, and these excursions will give a chance for eastern farmers to see what the great Sunflower State can do. A good map of Kansas will be mailed free upon application to Jno. J. Byrne, 723 Monadnock Block, Chicago Ill., together with reliable statistics and information about Kansas lands.

Oregon, Washington and the Northwest Pacific Coast.

The constant demand of the traveling public to the far West for a comfortable and at the same time an economical mode of traveling, has led to the establishment of what is known as Pullman Colonist Sleepers.

These cars are built on the same general plan as the regular first-class Pullman Sleeper, the only difference is that they are not unholstered.

They are furnished complete with good comfortable hair mattresses, warm blankets, snow white linen, curtains, plenty of towels, combs brushes, etc., which secure to the occupant of a berth as much privacy as is to be had in first-class sleepers. There are also separate toilet rooms for ladies and gentlemen, and smoking is absolutely prohibited. For full information send for Pullman Colonist Sleeper Leaflet. E. L. LOMAX, General Passenger and Ticket Agent, Omaha Neb. t. f.
