CENTRE HALL, PA., THURS. NOV. 17.

THE FARMER.

As soon as the victorious Democracy take possession of the government, the first duty they owe is towards the farmer; the agriculturist must be relieved of the enormous tariff taxes, so that the low prices he gets for his products will purchase more goods, by lowering of the tariff taxes on all the farmer now has to buy. No class has suffered more under tariff robbery than the industrious farmer, and his class are the backbone of the land.

Take our own county of Centre, if the farmer prospers, the mechanic and the laboring man, and the merchant, all, feel the good effects.

No government is true to itself that will neglect its agricultural interests. What makes America great, is its farms.

Uphold the farming interests first, and let other interests come in second—that is the true doctrine, and for it the Democracy has always contended.

The McKinley tariff did one good thing—it killed the Republican party.

Even McKinley's strong Republican district has elected a Democratic congressman, Ikert, by 1000 majority. And it was a gerrymandered district at that.

The Republican leaders are now beginning to admit that the tariff killed their party. Just what the REPORTER thought it would do.

THE BAKER BALLOT LAW.

It was the supposition before the recent election that the Baker Ballot law, which received its first trial on Tuesday, November 8th, in Pennsylvania, would prove unsatisfactory to the voters of this Commonwealth, and that a strong effort would be made at the next legislature to repeal the obnoxious law. From all parts of the state however, and in Centre county the new mode of voting has met with popular favor instead and the law has become a permanent fixture, and as such will remain. There are a few points still to be remedied; not serious ones, and little inconvenience would be caused if they were not, but the secret ballot will stay.

Comparatively small percentage of improperly marked ballots were cast, lower than anticipated, and to this was due the education of the voter previous to the election.

The general impression prevailed that few scratched tickets would be voted and that all nearly would go into the ballot box straight, but the count showed differently. The voter understands how to properly mark his ballot and the cutting was done all through the county.

The secret ballot has come to stay and has gone from unpopularity into public favor.

Most of the Republicans now look for the defeat of Quay and think the landslide should strike him too.

The voter knocked the McKinley bill out with the ballot box.

The REPORTER was near correct when it predicted the majority in old Centre would be upwards of 900. We also predicted a clean sweep for Cleveland. The REPORTER is generally correct.

AN AGE OF PROGRESS.

Reading and thinking is what guides the American voter of today, when he approaches the ballot box. The newspapers mould public opinion, and the machine boss crows before the press. The manipulator of votes no longer carries the power in his vest pocket that he once did. The people now read, then think, and then vote.

This is a wonderful and healthy improvement upon the bullragging and bulldozing politics of the past. The campaign just closed was magnificent and brilliant for the quietness and order that reigned, and every citizen is pleased that it was so. Soon campaigns may run themselves without big or petty bosses, chairmen and machines, and without corruption funds.

Really the country is progressing, and the REPORTER predicts a healthier future, better government, better politics, and better men in public positions. The people seem to be on a way of determining to have it so. And so mote it be.

The talk of having an extra session of congress may be set down as bosh. If the Republicans at the next session want to show obedience to the public will they will pass the tariff bills sent to the senate by the Democratic house during the last session.

CENTRE COUNTY DEMOCRACY.

The Democracy of old Centre have just covered themselves with glory again, coming up smiling with a majority of 900 for Cleveland and the entire ticket. This reminds us of the days of Bigler, Pierce and Buchanan, and later results. This county is reliably Democratic on any good set of nominees, and it is only a deviation from nominating other than the people's choice, that will cause our majority in the county to fall off or bring us temporary defeat, which serves as a reminder that the people demand good men on the ticket, and it soon serves to make the party in the county heed the demand.

Old Centre did nobly for tariff reform, and her voice is in unison with the people of the land, who have condemned trusts, monopolies and capitalists in tones that will prove effective in crushing these plunderers of the toiling masses.

The Centre county Democracy are always in the right place at the right time.

Many people will frighten over a wildcat, but Tuesday 8th showed that mighty few got frightened over the false Republican cry of "wildcat money" that we were to be cursed with if the Democracy got into power. Does anybody hear a wildcat scream?

The next thing the Republicans will want to do, is not to break the solid south, but to crack the solid Union.

This time the Republicans were badly fooled—they thought it wasn't loaded.

CLEVELAND'S BIG MAJORITY.

Cleveland's majority over Harrison, on the popular vote, will be near 700,000. This is one of the largest majorities ever cast for a presidential candidate.

As the Republicans alleged that the Democrats were going to ruin this 'ere great country, will they just be kind enough to tell when and where the ruin is to begin?

Hurrah for the people of the United States! they have come to their senses. Republicans are glad along with the victorious Democrats, and aided in the glorious work.

A New York policeman committed suicide by shooting, the other day, while on duty. Any policeman who does such a thing should be instantly discharged.

PENNS VALLEY.

The Penns valley Democracy have again covered themselves with glory—our Democratic townships on this side, the REPORTER's old stamping ground, gave 1100 maj. The average majority for the Democratic ticket in the county is about 900. Thus it will be seen that if it were not for the half dozen Democratic townships in Penns valley, the county would regularly be Republican by from 200 to 300. Does the Democracy of this side receive due recognition for all this, when patronage and nominations are made?

All honor to the Pennsvalley Democracy! Ever true—they never falter, and never fall. Let them understand their power and importance.

Bravo! gallant Democrats of Penns valley.

Now that the Democrats are in full control of all branches of legislature, extreme caution is necessary or they will drop into the pitfall prepared for them and lead the party to defeat.

Congressman Harter, of Ohio, having made such a splendid run in a Republican district, of 2000, which he overcame and received a majority of 2500, is now talked of for governor. Run him for governor, we say so too. Congressman Harter, no doubt would make a good executive, but for a year or two he can best serve the people and his party by remaining in congress, where his sterling sense and sound judgment are appreciated, and have marked effect on legislation.

To the agricultural class of the country—the most oppressed of all—the Democracy owes much for its splendid victory. Let the farmer be remembered now by relief in legislation.

Gen. Weaver predicts that the Republican party is dead now and that his party, called the People's party will be the coming party to triumph before the year 2000.

Late returns of the election indicate that the Prohibition candidate, Bidwell, has been defeated for president.

Tammany didn't do it. The people did it—even if Tammany had been ferriest Cleveland he would have had an overwhelming election. But Tammany did splendid work too.

Sixty Million Bushels of Wheat.—A Bushel for every Inhabitant of the Unfed States. The Kansas Crop of '92.

Never in the history of Kansas has that state had such bountiful crops as this year. The farmers cannot get enough hands to harvest the great crop and the Santa Fe Railroad has made special rates from Kansas City and other Missouri River towns, to induce harvest hands to go into the state. The wheat crop of the state will be from sixty to sixty-five million bushels and the quality is high. The grass crop is made, and is a very large one; the early potatoes, rye barley and oat crops are made and are all large. The weather has been propitious for corn and it is the cleanest, best looking corn to be found in the country to-day. Cheap rates will be made from Chicago St. Louis and all points on the Santa Fe east of the Missouri River, to all Kansas points, on August 30 and September 27, and these excursions will give a chance for eastern farmers to see what the great Sunflower State can do. A good map of Kansas will be mailed free upon application to Jno. J. Byrne, 723 Monadnock Block, Chicago Ill., together with reliable statistics and information about Kansas lands
