REFORM LEGISLATION.

When the new congress meets, in December 1893, reform legislation can be looked for.

One of the first duties of the new Democratic congress will be to bring relief to the agricultural interests by tariff reform. The farmer must have the burden of tariff taxes lifted from his empty purse, so the purchasing power of the low prices of grain will be greater and bring him more goods for his money.

We know that the good effects of a lower tariff will be felt by the masses of the people of Centre county, and of every county in the United States.

The war tariff to be continued down to this day—thirty years after the war—was simply robbery and outrage upon the toilers of the country. It has got to end now—thanks to the good sense of thousands of Republicans who became alarmed at the iniquity and joined with the Democracy to arrest this legalized robbery.

We want tariff enough only to pay the expenses of the government, and not to rob the masses in order to make millionaires of a few.

The farmer and working class can look ahead now for this wrong to cease.

The next big thing ahead is Christmas.

The comet is sailing towards the earth at the rate of 180 miles per minute. Heads in.

THE NEW CABINET.

These are lively times for Cabinet makers. There are scores and apparently hundreds of Democratic leaders and organs assuming that they must take a hand at once in the formation of the new Cleveland Cabinet; but it would be well for all not to lose sight of the one man who will have the last guess at the Constitutional advisers of the new President.

It goes without saying that if William C. Whitney desired, or would accept, a position in the new Cabinet he would receive it with the hearty offering of the President and as hearty approval not only from his whole party but from the country irrespective of politics. He is one of the few men who exhibit the highest qualities of the statesman in all his movements as a politician, and he would adorn any position in the Cabinet. It is quite probable, however, that he would not accept the position, as both his business interests and political possibilities logically forbid it.

Without any knowledge on the subject not accessible to all, we assume that if Mr. Whitney shall not accept a portfolio under the new administration, the Cabinet will be composed entirely of new men. Among the apparent possibilities is Senator Gray, of Delaware, whose transfer to the Cabinet would doubtless recall Mr. Bayard to the Senate, where he would most fitly round out his eminent public career.

New York will have a Cabinet officer of course, and he will doubtless be first, a man whom the President wants and, second, a man who will not be offensive to either of the party factions in the State. Whitney would completely fill the bill, but if he shall decline, there must be others who could, at least, go into the Cabinet without protest from either side. How long any New York Cabinet minister can hold the party to unity in that State, is one of the problems that only the future can solve.

Pennsylvania has no claim for a Cabinet officer, and only special individual merit could command such an honor for our State. Viewing it from that standpoint, there is only one name that could be considered for such honors—that of William F. Harry. Whether he shall desire to be transferred to the higher plane of national politics, is as yet unknown to the public. His conspicuous success in the direction of the Presidential campaign has clearly proved his fitness for a wider field than are offered by his State, and if he shall desire Cabinet honors, it is reasonable to assume that his appointment would be more than possible. In the meantime those who are wise will make haste slowly in formulating Cabinets for Grover Cleveland.—Philadelphia Times.

JUDGE BARKER PRESIDING.

An Especially Hotly Contested Case up on Tuesday

A special term of court was held this week, Judge Barker, of Cambria county presiding. Among the interesting and hotly contested cases was that of Wm. Colyer, plaintiff, H. A. and J. D. McKee defendants. Colyer's claim was to recover 5 per cent commission on an extensive sale of timber land in Potter township, this county.

The tract in question consists of 4000 acres of timber, which was sold at \$4 per acre, June 24, 1890, to the Glenn Union Lumber Co. Previous to this McKee Bros., the owners, had agreed to pay Colyer 5 per cent commission if sold to N. C. Frick, of Millersburg, within a certain time. It was virtually a special case and a special offer, but the sale was not made, therefore the defendants in the case maintain they were not liable for the commission. Subsequently, however, the McKees effected the sale themselves to the Glenn Lumber Co., Mr. Colyer not having any dealings in the sale at all. Yet he claims his 5 per cent commission on the sale with which the defendants assert he had nothing whatever to do.

Quite a number of witnesses were called in the case and it went to the jury Tuesday evening, but too late to be acted upon and return their verdict to court before Wednesday morning. The jury rendered its verdict in favor of Colyer for about \$800.

Orvis, Bower & Orvis were attorneys for the defendants, C. P. Hewes for the plaintiff. Application for a new trial will likely be made.—Gazette.

THE "PATRIOT" BURNED OUT.

A Loss of About \$50,000 Falls Upon the Harrisburg Newspaper.

Fire was discovered in the Morning Patriot building about six o'clock Tuesday morning and burned for over two hours. The interior of the building was entirely burned out, and the loss is estimated at from \$40,000 to \$60,000, partly covered by insurance.

The morning edition had just been run off when the conflagration took place. Several persons were severely burned. All the newspaper offices in the city were tendered to the unfortunate publishers and immediately the files, subscription lists, and the large library, which was saved, were taken from the street to these offices.

Withdraws His Suit.

The Phillipsburg Journal said that our readers are all familiar with the recent school difficulty, resulting in the arrest of Superintendent Prof. J. G. Anderson, by James Cale, on the charge of undue punishment of the latter's daughter. When the arrest was made the professor entered bail for his appearance before Judge Furst, and everybody expected, of course, from all reports, that the affair would be thoroughly ventilated at the approaching session of our county court. The case, however, will not come up, the prosecutor, Mr. Cale, having withdrawn the suit and in addition paying the costs thus far incurred. This settles the matter, and for the sake of our schools, which have been the pride of our town, we hope the present term may be completed without any further eruptions.

Sixty Million Bushel of Wheat.—A Bushel for every Inhabitant of the United States. The Kansas Crop of '93.

Never in the history of Kansas has that state had such bountiful crops as this year. The farmers cannot get enough hands to harvest the great crop and the Santa Fe Railroad has made special rates from Kansas City and other Missouri River towns, to induce harvest hands to go into the state. The wheat crop of the state will be from sixty to sixty-five million bushels and the quality is high. The grass crop is made, and is a very large one; the early potatoes, rye barley and oat crops are made and are all large. The weather has been propitious for corn and it is the cleanest, best looking corn to be found in the country to-day. Cheap rates will be made from Chicago St. Louis and all points on the Santa Fe east of the Missouri River, to all Kansas points, on August 30 and September 27, and these excursions will give a chance for eastern farmers to see what the great Sunflower State can do.
