WEDDING BELLS

A PRETTY WEDDING SOLEMNIZED AT TUSSEYVILLE.

Mr. Charles W. Swartz and Miss Emma Krumrine united in marriage on Wednesday evening.

The home of Mr. and Mrs. Adam Krumrine, at Tusseyville, was the scene of a very pretty wedding last evening at which Mr. Charles William Swartz and Miss Emma Viola Krumrine plighted their troth, and were united in the holy bonds of matrimony.

Guests began assembling at the Krumrine residence shortly after six o'clock and before seven, the time set for the marriage ceremony, the assemblage was awaiting with unusual expectancy the coming of the wedding party. As the hands of the clock noted the hour seven, at a signal, Prof. J. A. Weaver, of Pine Grove Mills, struck up the wedding march. Preceding the wedding party into the room came the ushers, Mr. William A. Wagner, of Bellwood, Pa., and Mr. Samuel S. Kreamer, of Centre Hall, and at intervals came Mr. James Runkle, of Lancaster, Pa., and Miss Agnes McCoy, Mr. W. G. Runkle, of Bellefonte, and Miss Emma Swartz, a sister of the groom, Mr. Wagner Geiss and Miss May Rhone. Following these came the bride on the arm of the groom.

The bride and groom took their places before the minister, Rev. Fisher, who then proceeded to tie the knot, which should make them one. Their responses were clear and distinct, and the minister invoked the divine blessing upon the newly wedded couple. The bride was attired in a dress of cream, which shade was also worn by the bridesmaids, while the groom was attired in the conventional black. The bride looked her prettiest, and it certainly was a handsome couple that stood before the minister plighting their troth.

Congratulations were in order and many and varied were they. A bounteous repast was served to the guests, who numbered over a hundred, it was well prepared and the guests did themselves ample justice.

The bride was the recipient of many valuable and useful presents, being not only ornamental but combining with them utility, and showed the esteem in which the bride was held.

Mr. and Mrs. Swartz will leave this Thursday afternoon for a tour of the eastern cities and when they return they will take up their residence at Tusseyville, where the groom is engaged in the mercantile business, and is deservedly popular.

Guests were present from Centre Hall, Potters Mills, Bellefonte, Pine Grove Mills. Among those from a distance were Mr. and Mrs. J. E. Whiteside, of Harrisburg, Mr. and Mrs. John Wagner, and Miss Josie Franklin, of Lancaster, Pa.

Hayes Inaugurated Twice.

Ex-President Rutherford B. Hayes says that when the 4th of March falls on Sunday the President-elect should be inaugurated. His case was an instance in point. "I was at the White House on Sunday," he said, "with President Grant, Chief Justice Waite and Secretary of State Hamilton Fish. There was talk at that time of Mr. Tilden being inaugurated at New York, and as March 4 fell on Sunday and the inauguration ceremonies were fixed for Monday, it was thought that a question might be raised as to the legality of the inauguration on that day. So Chief Justice Waite administered the oath of office to me at the White House on Sunday."

Be Your Own Keely Institute.

Mrs. Wm. Curtis, of Chicago, gives this prescription as a sure cure for drunkenness: Electrified gold, 15 grains; muriate of ammonia, 7-12 grains; compound fluid extract of cinchona, 4 grains; fluid extract of cocoa, 1-4 ounces; glycerine, 1-14 ounces; nitrate of strychnine, 1 grain; distilled water, 1-4 ounces. Take a teaspoonful every two hours when awake for two or three weeks. After the second or third day there will be no desire to drink. Medicine to effect a cure will not cost over \$3.50.

Burglars Blow Open a Safe.

A gang of experienced cracksmen are making a tour of this part of the country, from the number of depredations committed. On Friday night last they effected entrance to the office of the Miner's Beef Company at Phillipsburg, and blew open the safe and secured only sixty-five cents in money, and a fourteen dollar revolver.

A Good Recipe.

A Punxsutawney man who answered a fake advertisement, enclosing twenty-five cents for a recipe to cure redness of the nose, received the following reply, "Drink whiskey till your nose gets blue."

THE NEW ELECTORAL SYSTEM.

It seems to be generally accepted that the present House will propose and pass by the required two-thirds vote, an amendment to the National Constitution providing for the division of the Electoral vote in exact proportion to the popular vote cast for the respective candidates. Under this system the Electoral vote would be apportioned in Pennsylvania this year on the following popular vote:

	Pop. vote.	Elec. vote.
Harrison	516,011	16
Cleveland	452,264	14
Bidwell	28,128	1
Weaver	8,714	0

Harrison has a fraction over the vote necessary to command 16 Electoral votes, but Cleveland has a much larger fraction over 14 Electoral votes, and he would be entitled to the one vote given to the fractional number. Bidwell would be entitled to one Electoral vote, although he falls some 7,000 short of the requisite quota.

It is impossible to attain the election of President and Vice President by a direct popular vote. A dozen or more of the smaller States would protest against it because it strips them of their present unmerited influence in national contests, and they have the power to defeat it. When it is an imperative necessity to provide a remedy for a seriously threatened evil, and the best remedy is not obtainable, it is the part of wisdom to accept the best remedy that can be had.

SPRING MILLS.

R. U. Bliner has decided to abandon chemical experiments in his school and pay more attention to arithmetic. J. M. Runkle, J. F. Meyer and W. F. Ziegler are at home now for the holiday vacation.

Deputy sheriff Crawford was in town on Monday.

Prof. C. L. Gramley, county superintendent, is staying with his brother, T. M. Gramley at present. He will probably visit our town schools before returning to his home in Rebersburg.

W. C. Meyer, of Penn Hall, bought Wert's new threshing machine and engine last Saturday. All his property was sold by the sheriff, he has since left for parts unknown.

The Methodists are getting along swimmingly with their annual warfare. The attendance at the "Schwärmerei" increases nightly and twenty-one have been converted. Our revivalist seems to be far ahead of all other psychologists. He has discovered to a dead certainty that all animal creation is annihilated at death. It is hoped that scientists will revise their works accordingly.

33 A Month.

The widow of a pensioned soldier gets only eight dollars a month no matter how much more than that his pension may have been. She has to make an application in her own person for that, and does not get it simply because her deceased husband was on the list. The law does not take cognizance whether a pensioned soldier is married or not. The widow, however, gets back pay from the date of her affliction. So the sooner she makes application the better it is for her.

Heavy Blasting.

The blasting being done in the stone quarries near Bellefonte is certainly of a very heavy nature, as almost every report is distinctly heard in Centre Hall, and much resembles heavy thunder. On Monday the blasting was very heavy, so much so that the windows of the REPORTER office were shaken. At first we had thought of an earthquake, and it was one, but in a primitive style.

CAPITOL GOSSIP

GOSSIP OF THE WEEK AT THE NATIONAL CAPITOL.

Appropriation Sliced Down and Strict Economy Exercised.—Immigration Likely To Be Restricted.

WASHINGTON, Dec. 19.—Judging from the Congressional Record, the House has not accomplished much during the two weeks that Congress has been in session, but a visit to the various committees having charge of appropriation bills will show that it has accomplished much more than its predecessors have usually done previous to the Christmas recess. The Army appropriation bill has been passed and the Fortification bill reported to the House, and work upon all the other appropriation bills is well advanced and is being diligently pushed; and only those who have seen the process can fully appreciate the enormous amount of hard work there is upon most of the appropriation bills, in the committee from which it comes. Next Thursday, when Congress adjourns until January 4th, most of the Members and Senators will take a little holiday trip somewhere, but the democratic members of House committees having charge of uncompleted appropriation bills will stay right here and work every day. The committee on Appropriations cut down the Fortification bill from \$7,642,512, which was the estimate, to \$1,735,055. Mr. Holman is determined that his committee shall not be responsible for a Treasury deficit.

The agents of the Ocean Steamship Lines, now in Washington, are in a decidedly uneasy state of mind over the outlook for immigration legislation, and they are doing their level best to make Senators and Representatives believe that it is much easier to keep cholera away next year by the use of medical science than by suspending immigration. They thought they made a strong point when they argued that even if we did suspend immigration it would be impossible to quarantine the Canadian border all the way from the Atlantic to the Pacific, but they said no more about that when informed that members of the House and Senate Immigration committees had assurances that the Canadian Government was only waiting for Congress to suspend immigration to do likewise.

The death of Senator Gibson, of Louisiana, although not unexpected, was a shock to his colleagues with whom he was deservedly popular. A Congressional committee left here on Saturday night to attend his funeral.

According to an estimate made by the Commissioner of the Internal Revenue Representative Scott's bill increasing the tax on whiskey from 90 cents to \$1.25 a gallon would if enacted into a law at this session, add \$35,000,000 to the income of the government during the next fiscal year.

The executive committee of the National Association of Democratic Clubs is in session here today for the purpose of electing a chairman and secretary, and the transaction of some executive business. Representative Wilson, of West Virginia, is the present chairman. The membership of this committee is a distinguished one, as may be seen by glancing over the roll, which follows: Col. R. G. Monroe, of N. Y., at present a member of Gov. Flower's staff; G. A. Lambert, of N. J., President of the Jefferson Democratic club of Newark; Representative Rusk of Md.; Mr. A. T. Ankey of Minn.; Rep. McMillen of Tenn.; Mr. Jas. Fenton, of the State of Washington; Mr. C. C. Richards, chairman of the Democratic Territorial Committee of Utah; Mr. W. N. Melvor, President of the State Democratic Societies of Ia.; Gen. Patrick A. Collins, of Mass. (Rep. O'Neill is Gen. Collins' proxy at the meeting, as the Gen. was unavoidably absent); Gen. John C. Black, ex-Pension Commissioner and Congressman-elect of Ill.; Hon. Henry Watterston of Ken.; Mr. J. S. Carr, President of the State Asso. of Democratic Clubs of N. C.; Rep. Harter, of Ohio, Hon. Don M. Dickinson, of Mich.; Mr. Wm. A. Clark, of Montana, who may occupy a seat in the U. S. Senate next year, and Mr. Jefferson M. Levy of Va., who is such an enthusiastic Jeffersonian democrat that he purchased Monticello, the home of Thomas Jefferson in order to be sure that it was properly taken care of. The members of the executive committee report the association to be in a very thriving condition, and it is their intention to keep increasing its membership all the time, and not wait for campaigns to do the work.

Representative Antony of Texas, has introduced a bill in the house to suspend the granting of pensions under the Dependant law enacted by the fifty-first, or billion dollar Congress, and to stop paying those that have already been granted under that law.

The anti-option bill does not appear to be making any headway in the Senate. Some say that while a majority of the Senate would vote for it on a direct vote there are enough of that majority willing to see it killed without having to put themselves on record against it to prevent a direct vote ever being reached. There may be no truth in this, but circumstances seem to bear out the statement.

FARMERS MILLS.

Miss Doup, of Sprucetown, receives injuries by being thrown from a Buggy.

Rev. Charles Stover, of Bedford county, Pa., arrived here last Saturday for a few days visit to his mother, brother, and other friends in this vicinity, and on Sunday p. m. he filled Rev. Eisenberg's pulpit here, with credit to himself.

Newton Weaver and family, of Williamsport, arrived here last Friday, to pay their friends a visit during the holiday season.

Esq. M. L. Rishel and wife attended State grange meeting at Harrisburg last week.

John Hettinger and his sister Mollie, in company with several others intend spending the holiday season at York, Pa.

Last Saturday M. L. Rishel, executor, sold the real estate of the late Miss Dashem, of Egg Hill, to Spear Hettinger for \$1400.

Mrs. E. Hingston, after visiting her aged mother, Eve Stover and other friends about here for five weeks, returned this week to her adopted home in Kansas.

A. C. Ripka and son Emory intend to spend New Year in Snyder county, with the former's brother at Globe Mills.

Last week James P. Grove, north of here, attached to his barn a straw and dung shed 40x40 feet.

Our local nimrods were quite busy this fall but did not succeed in capturing much game.

On the 14th inst., while Miss Hettie Doup, of Sprucetown and her nephew, Will Zerby, of Sober, were driving towards Spring Mills, their horse became unruly and ran in D. Shook's lane, and in doing so ran the vehicle against the fence post and the consequence was a smashed cart wheel, and Miss Doup was thrown against the fence with such force as to break her left arm near the shoulder, otherwise they sustained but few bruises. Dr. George Frank, of Millheim, was called and reduced the fractured arm at the residence of A. P. Zerby.

Stirring up Passengers.

The Pennsylvania railroad officials have been annoyed for some time by the failure of a number of their passenger trains to run on schedule time. An investigation led to the discovery that much valuable time was lost in the embarking and disembarking of passengers at stations.

To remedy this evil notices will be placed in all prominent places along the company's lines requesting passengers to alight from and board the trains as quickly as possible. The train crews have also received notice to hurry the passengers in embarking and disembarking.

The Rate Reduced.

The post office department has issued an order that after January 1, 1893, the rate for a registered letter shall be reduced from ten cents to eight. This method of transmitting money and valuable packages is the safest that can be taken.

Taken to Danville.

On Tuesday, Dr. Jacobs took Lewis Bottorf to the state asylum at Danville. Lewis Bottorf is a borough charge and quite aged, and recently showed signs of becoming demented, and the latter course was considered expedient by the poor overseers.

Has Sold His Store.

J. R. Bible, of Potters Mills, has sold his store to Harry Long, of Spring Mills, who will take possession in February. Mr. Bible intends to go to farming in the spring, having bought John Wolf's farm, seventy-five acres, near Potters Mills, at \$1700.

No Services.

There will be no services in the Presbyterian church at this place, on Sabbath afternoon, Rev. Baskerville, their pastor, having been sent by Presbytery to fill a vacant pulpit at Hubbersburg.

Charter Granted.

A charter was granted at the State Department to the Juniata Valley Electric Railway Company, to run from Altoona to Bellwood and Tyrone.

General Health Good.

SANTA CLAUS.

A Brief Biography of the Gentleman the Young Folks Dream About.

For the edification of the REPORTER'S juvenile readers, we will give a brief biography of the gentleman the young folks dream about this time of year. We mean Santa Claus—the Germans call him Belsnickel.

Santa Claus was born up near the north pole somewhere, and raises reindeer, manufactures northern lights; also sleds, jumping jacks, Noah's arks, little railroads, steamboats, whistles, horns, drums, dolls, cradles, wagons, and about two thousand other little playthings for boys and girls.

Santa Claus' house is an ice cave, and he don't have any fire in it. He eats fat meats from polar bears and walrus, and that keeps him warm. Besides his face is made of hair, and his coat and pants and cap are made of fur hides, and these keep out the cold. Santa Claus keeps his workshop open only one day in the year, and that is the day when the sun shines right along about 160 days in the year before it sets, and so he has a good long day to make things to fill good children's stockings with when Christmas comes.

Santa Claus is as strong as if he were built of iron, and he can carry a big pack on his back that holds presents enough for all the children, and he don't charge the boys and girls anything either for the presents he brings 'em.

Up where Santa Claus lives there are no little folks at all, it is too cold, and this is the reason he likes little boys and girls. He has a sledge drawn by about twenty reindeer to haul his toys down into the country; he generally starts early in the morning the day before Christmas, and makes the trip down to where the children are, in about one day, and gets down a little after midnight. He then fills his pack from his big sled, and crawls down the chimney of a house, so the people won't see him, and so the children don't get scared in their beds. He laughs all over while he is filling their stockings, and in the morning when the children see what he did, they laugh too.

There is only one Santa Claus and he won't die as long as the world lasts, and we guess the children are all glad of it. He is now nearly 2000 years old already, and he would be taken to be only about 27 so hale and fresh does he look.

He has a good time; there is no one to bother him, or interfere with his business of making toys up at the North Pole.

Santa Claus always knows when children are asleep and never slips down the chimney when they are awake, and this is the reason none of the children can see him, even if they watched for him. So it is always best for children to go to bed early the night before Christmas, get a sound sleep, and give Santa Claus all the chance to be about his business filling stockings.

That's all.

SOME four years ago an Illinois editor tested the virtue of the postal law making it larceny to take a paper and not pay for it. He obtained judgment against each delinquent subscriber for the full amount of his claim. About half of them then came up and made oath they had no more property than the law allowed them as exempt from execution. He had this lot arrested and sent to jail for larceny. He was a plucky editor and knew his rights. He will be paid in future.

So MUCH is heard about the heresy of Dr. Briggs that it might be supposed it was the most momentous question of the hour before the ecclesiastical world. As a matter of fact it does not disturb even the Presbyterians who are the most interested as regarded as a ripple. Dr. Briggs is regarded as a "crank" fond of notoriety—a character of man found in all the churches—and when it is all over and Dr. Briggs is no more heard of the Presbyterians will be going along in pretty much the same groove as they were before the agitation started.

THE Gazette mentions E. C. Humes, of the First National Bank, Bellefonte, as the oldest bank president in the United States. Mr. Humes has occupied the position since the passage of the national banking law, and his banking house has been one of the most reliable in all that time. He is at his post every day.
