should go to C is

# THE RACKET

It is always an interesting store, and lively participation in the discussions differs as much from any in the town or county of day and night. In a word it is a modern store—business is done on the American planone price and that the lowest. The assortment is immense. The room including the basement and balcony addition, is 195 feet long, and is as full of goods as a little red wagon.

# AGRICULTURE

THE FARMER MUST NOT BE NEG-LECTED.

General Interest Manifested in the Success of Agriculture, By all Classes in the State

The general interest taken by all classes in this state in the success of agriculture, is manifested by the success of the Farmers' Institutes held annually all over the state, under the auspices of the State Board of Agriculture. The farmer is having the sympathy and support of the people in general as shown by the large attendance upon these Institutes and the by all, and which are free and open to
