ANNOUNCEMENT.

SHERIFF.

We are authorized to announce that Geo. B. Crawford, of Gregg, will be a candidate for Sheriff, subject to Democratic rules.

REGISTER.

We are authorized to announce that W. J. Carlin, of Rebersburg, will be a candidate for Register, subject to Democratic rules.

TREASURER.

We are authorized to announce that John F. Potter, of Milesburg, will be a candidate for Treasurer, subject to Democratic rules.

WONT GET OFFICES.

There are two classes of seekers after appointments under Cleveland's administration, who will not be recognized as having any claims, and who, the President has ordered, shall not receive any appointments. Men who held positions under Mr. Cleveland's first administration, will not get any positions under his present administration, except in exceptional cases, for the reason that a new set have better claims than those who have already been served. We think this is right and it is a policy that will be endorsed by the people. Some fellows want to be in office all the time and would have equally as good and competent ones stand back although they never held a position. The rule of turn-about-is-fair-play, is certainly a good one in the main.

Another class that will be objected to will be 4th class postmasterships that go into business houses where the clerks having other duties to attend to are always apt to neglect the postal service to further the business of their employer. This will be a new departure and will largely prevent postoffices from being kept in stores.

Mr. Cleveland has set his foot down upon these two classes, and the rule is strictly to be adhered to. This order will thin out the number of office seekers very largely.

None of Mr. Cleveland's former cabinet officers have been reappointed.

Our neighbor, ye man of the Watchman is announced as an applicant for a position in the pension bureau.

AND NOW every Republican office holder in this big land sees visions of large letters that spell, w-a-l-k.

PERSONAL PROPERTY TAX.

The Ledger calls attention to the report of the auditor general for last year, which shows that the gross revenues of the state for the year ending November 30, 1892, amounted to \$17,728,613.63, including a balance left over from the preceding year of \$6,979,854.55. After paying all the expenses of the government, redeeming loans to the amount of \$1,417,106, paying for common schools \$5,379,618.62, and returning to counties, as their share of the personal property tax, \$41,799.06, there remains an unexpended balance of \$6,000,644.95 in the treasury.

The figures show conclusively, as has already been demonstrated from the auditor general's report for 1891, that the state has absolutely no need whatever for the personal property tax, and that it ought, therefore, to be immediately repealed.

From this tax alone there has been collected \$2,235,838.46, of which \$1,902,511.98 was under the three mills tax, because, owing to the different times at which different counties make their assessments, the act of 1891, raising this tax to four mills, did not get into general operation last year. Assuming that not one dollar more of interest-bearing property will be returned for taxation, the state will collect, during the present year, from this source alone, nearly \$3,000,000, which it clearly does not need, and which it cannot possibly spend in any legitimate way.

This is in accord with what we said in a recent issue of the REPORTER, that the money now raised by taxation was not needed, and the burdens upon the people should be lightened by a repeal of some of the tax laws.

THE BELL telephone patents expired last week. Now let a new company start in and give the public a cheaper service. Exit monopoly.

AGRICULTURE needs the attention of congress and state legislatures as much as any other interest—yes, more so.

We do not believe the present legislature will reach anything practicable in road reform, nor does it matter, for the old law gives all the power to construct good roads if desired and provided the people elect supervisors who understand how to make better roads than heretofore, it is not any ninny that is fit for supervisor.

BILLS PASSED.

Senator Logan's bill to prevent the spearing of fish in any of the waters of this commonwealth, by the use of torch light, or placing any tent or house on the ice or any other device to be used for the purpose of taking, killing or catching fish with a spear, was defeated.

The house bill repealing the act permitting physicians to obtain certificates as pharmacists without examination passed finally and will go to the governor.

A FAIR way to tax railroad, telegraph and telephone lines for local purposes, would be a certain rate per mile for every mile it traverses through a township, city or borough. Let them pay taxes for local purposes, they get large revenue from local traffic. A tax on each acre of right-of-way valued at some rate as adjoining lands, including the iron rails, would seem to be reasonable. The number of acres can readily be ascertained, and the value of the iron per mile also. The poles and wire of the telegraph and telephone lines can be estimated per mile in same manner.

In a number of town elections in New York, held during the past two weeks, no ballots were used, the voters indicating their choice among candidates by machinery. The great advantages of this method are its speed, accuracy, and simplicity. A citizen can vote in half a minute, there is no chance for fraud, and the most ignorant voter does not need assistance. As the machine adds up the poll as well as records the vote, the result of an election can be known in ten minutes after the polls close. The machine is steadily growing in popularity, a larger number of towns using it every year, as a law of the State authorizes them if a vote of the Board of Supervisors consents. There is a bill before the Michigan Legislature authorizing voting by machinery in that state, and from the favor it has met it will probably pass. It is an advance over the Australian system, and as this country demands the best in everything the machine will undoubtedly in time supersede the Kangaroo.

The New York voting machine is the invention of a former Centre county man, Hile Meyer, who years ago had an agricultural implement store in Bellefonte.

THE REPORT given out from Washington that the editorial fraternity was to be excluded from appointments under Cleveland, has proven incorrect. Mr. Cleveland thinks their service invaluable and that it would be unjust to discriminate against them. The President has appointed editor Hoke Smith, of Georgia, secretary of the interior, and the publisher of a Scranton paper as postmaster for that city.

WHEAT AND COGN have been weakening in the markets with no immediate prospect for a rise. Oats is holding its own however. Potatoes are far above par on account of the shortage in last year's crop and the freezing of many last winter in callars and other places.

IT IS A settled matter that the present legislature will pass no new fence law, so you must keep your stock in or pay damages if it trespasses upon any ones grounds.

Looked Dangerous.

Last week the iceogree extended from Williamsport to Lock Haven, and looked full of mischief, but on Friday night the ice began to move, and the river fell, much to the relief of the towns along the stream. The low places along the rivers were mostly inundated and farm buildings surrounded by water.

Home For Sale.

Dr. Orndorf offers for sale his Pine Grove Mills home on small monthly payments to suit purchaser at an astonishingly low price, address, 'Squire ARCHIE, Pine Grove Mills, Pa. A. J. ORNDORF, mar9-31 Greensburg, Pa.

Disappeared.

The snow had nearly all disappeared from the fields at the close of last week, and the streams were high in consequence, although no harm was done by floods. The fields do not appear to have suffered to any great extent thus far.

Still Progressing.

The revival which was begun a few weeks ago in the Methodist church by Rev. Minnich, is still progressing and several conversions have already been made. This Thursday evening, a minister from the Conference at Bellefonte has been detailed to preside in the pulpit and conduct the services.

Cholera in Pennsylvania.

Swickley, Penn: We had an epidemic of cholera, as our physicians called it, in this place lately and I made a great hit with Chamberlain's Colic, Cholera and Diarrhoea Remedy. I sold four dozen bottles of it in one week and have since sold nearly a gross. This Remedy did the work and was a big advertisement for me. Several persons who had been troubled with diarrhoea for two or three weeks were cured by a few doses of this medicine. P. P. KNAPP, Ph. G.

35 and 50 cent bottles for sale by J. D. Murray, Druggist.

How a Mother Saved Her Boy.

Little Robert Fry lives at Silver Lake, his mother and father love him with parental devotion; he is a bright little fellow. Bobby, as he is called, took a severe cold, which would not yield to everything they tried. A neighbor persuaded the use of Pan-Tina, the great remedy for Coughs, Colds and Consumption. The first few doses relieved and the contents of a 25 cent bottle made a cure. You can imagine the mother's joy. Pan-Tina is sold at J. D. Murray's Drug Store.

SCRIBNER'S MAGAZINE FOR 1893.

PARTIAL PROSPECTUS.

Francis Hodgson Burnett will contribute the first serial to appear in a magazine from her pen for many years, entitled "THE ONE I KNEW THE BEST OF ALL."

H. C. Brunner will furnish a series of six sketches entitled "Jersey Street and Jersey Lane." Illustrated by Robert Grant.

will relate the further experiences of Fred and Josephine in "A sequel to the Reflections of a Married Man." Illustrated by Harold Frederic.

By the Author of "Jerry." Miss B. Elliott, the author of "Jerry," will write a realistic story of life among the Tennessee mountaineers, "The Duke's Sperrit,"

Personal Reminiscences. Some unpublished letters of Carlyle to Edward Irving and others, dealing with a part of Carlyle's life far different from that brought out in the recent literature of Carlyle's reminiscences. Recollections of Lincoln and Sumner. By the late Marquis De Chambrun. Both articles are of new matter. An artist in Japan. By Robert Hunt, who has just returned from a residence of nearly two years in that country. Also daintily illustrated by the author. Historic Moments, which have been a feature of the magazine during 1892, will be continued by some particularly striking papers, among them several by the great war correspondents, Wm. H. Russell, Archibald Forbes, and others.

Men's Occupations. A series of articles on the life work of men in many callings—the chief ways exclusive of professions in which men earn their livelihood.

The World's Fair in Chicago. A series will be published later in the year giving the impressions made by the exhibition upon different observers of note, both American and foreign; and many of these observers will be able artists who will illustrate their own articles.

Miscellaneous Articles. Further contributions to the Poor in Great Cities. Mrs. Burnett's illustrated paper on the London plan for Home Aid to Invalid Children. Also of special interest also will be Professor Helprin's authoritative account of the Peary Relief Expedition (illustrated), a very interesting article by Octave Uzanne on the exhibition of Woman's Art, now going on in Paris, and articles upon artistic subjects, accounts of travels, etc.

The Illustrations of the year will represent the work not only of the well-known illustrators, but many drawings will also appear by artists who are best known as painters.
