**PARDONING OF THE ANARCHISTS.**

The pardoning of the three anarchists by Governor Altgeld of Illinois, receives that condemnation from the people which it deserves.

If Governor Altgeld had made it a condition in his pardon that the scoundrels leave the country and never return, the pardon might have received some approval. Anarchists from foreign lands have no business whatever in the United States. They are not wanted here. Let all that class of human fiends purchase an island somewhere, settle down and establish such a government as best suits them. This would last until the scoundrels had each others throats cut and that would be the end of it.

Let Illinois make it hot for these and every other anarchist; so hot that they may not want to remain there, and if they pass into a sister state, let their reception be of such a nature that they may find the United States a very unhealthy country to abide in.

Governor Altgeld has committed political suicide. Let him leave the country too, for he will never be missed.

AND now some wicked fellow who probably don't get treated to strawberries says that the strawberry brings on rheumatism.

NEVER mind about who passed the Sherman bill. What we want now is to have the Sherman bill repealed.

SOUTH CAROLINA'S dispensary liquor law has been declared unconstitutional by Circuit Judge Hudson at Charleston, and he has issued an order restraining the county board from ever opening a dispensary there. The case will be carried to the Supreme Court. The State has already a supply of about \$350,000 worth of liquor and machinery, with heavy daily expenses. Even the temporary closing of county dispensaries will strike its finances a heavy blow.

**FACTS ABOUT SILVER.**

As the silver question will be the main question before the extra session of Congress, to meet August 7th, we give the silver question in brief.

Silver is becoming so plenty as to be a drug—there is more mined than is consumed. Hence it has lost its value like any other commodity of which there is an over-production.

The Sherman silver law, which is likely to be repealed, requires the purchase by the government, of 4 million ounces of silver monthly, for coinage.

The government, in consequence, has purchased far more silver than it has use for, and it is piled up in the treasury in bars like cordwood, and it is being paid for in gold, and the gold is being drawn from the treasury in consequence.

The price of silver as bullion is now so low, that the American dollar only contains fifty cents worth of silver, but the silver kings get 100 cents for 50 cents worth of silver, under the Sherman law, by the government coinage.

Hence the purchase of more silver

by the government is to be stopped, as it results to a loss of many millions of dollars to the people.

Wheat has gone down to 63 cents here, and it would be equally just that the government buy it from the farmer at \$1 and store it as it does the silver. The farmer has the same right to ask the government to buy his wheat at \$1 when it is only worth 63 cents, as the silver lord has to ask that it coin 50 cents worth of silver and call it \$1.

THE valley and mountain scenery around Centre Hall just now, is charming beyond description. More lovely landscape views are not to be met with in the state. The cities have nothing to compare with what nature has done for us.

A NUMBER of citizens are finding fault with the town council for failing to appoint policemen for the Fourth of July, to quell some of the too happy American patriots who indulged in strong language and fistcuffs. It is certainly treading upon sacred ground to criticise the council, for was it not lately filled with the wisest men of the town, who have labored hard upon the water subject and at doing up board walks of some at the expense of others? You certainly should not expect too much from these councilmen.

WHAT is the first thing a bank does when it breaks? It promises that all will be paid dollar for dollar.

**PENSIONERS.**

The work of reform emanates from the pension bureau, presided over by Judge Lochren, and it is proceeding on the lines laid down by law. There is a universal demand for pension reform. The abuses and frauds have been astounding, but it is easy to see that all efforts in the direction of reform will soon break down if a pitiable story is devised for every pensioner who is dropped from the list and given the sweep of newspaper circulation. The dropped pensioners are hardly competent or reliable judges in their own cases. Judge Lochren, a gallant Union soldier, is doing this work, but it is easy to see why the name of Hoke Smith, of Georgia, is dragged into it. It has an odor of the bloody shirt hallelaloo.

THE farmer who now sells his wheat at 65 cents and takes pay in silver, only gets 32 cents worth of the white metal for a bushel of wheat. If a silver dollar were sold now at its bullion value, it would be worth only 50 cents.

EVEN in New England Governor Altgeld is not friendless. The Knights of Labor of New England have approved his pardon of the three men convicted of inciting the Chicago bomb throwing. With Altgeld as their leader, these Knights might leave the country and colonize some lonely island and have things their own way and up to the anarchistic standard.

GEN. HASTINGS seems at this time to be certain of the Republican nomination for Governor in 1894. The attempt to put a Stone in his way will not materialize much.

They were especially anxious to visit the grave of their father who died just prior to their leaving town, and were much gratified to find it in good condition the headstone leaning but very little.

We used almost everything without benefit. Then I said, let us try Chamberlain's Colic, Cholera and Diarrhoea Remedy, which we did, and that cured us right away. I think much of it, as it did for me what it was recommended to do. John Hertzler, Bethel, Berks Co., Pa. 25 and 50 cent bottles for sale by J. D. Murray.
