POSITIVE PROOF

HARTER DID MAKE THE INTELLIGENCE ASSERTION.

Made it in the Presence of Mr. J. C. Smith and Others, of Millheim.—Democrats Will Resent the Insult.

The Centre Democrat last week asserted that John F. Harter had made the following disrespectful allusion about the Democrats:

"The intelligence of this country is in the Republican party."

Mr. Harter authorized his organ, the Keystone Gazette, to deny that he made the above expression and challenged the Centre Democrat to prove its charge. The Democrat this week accordingly brings its proof, and good proof at that. Here it is:

Millheim, Pa., Oct. 30, 1893.

C. R. KURTZ, Dear Sir:—I notice in last week's DEMOCRAT a statement that J. F. Harter should have said that "the intelligent people of this country as a general thing are republicans," and that the same is denied. The above was said in my hearing, also in the presence of a number of others, about five or six years ago, while Mr. Harter and the late Mr. Musser were arguing politics. The assertion was made adjoining my place of business at that time. Resp. yours, J. C. SMITH.

No one dare impeach Mr. Smith's veracity. When Harter now begs of Democrats for their vote, tell him it looks as though he thought them ignorant and green enough to do it.

A prominent member of the bar also says he heard Harter make the following expression: "All the low Dutch, ignorant Irish and ofscouring of the foreign countries, belong to the Democratic party."

Whew! hadn't the Republicans better haul down the name of Harter as their candidate for sheriff?

Didn't Celebrate.

The hallow 'een fiend who never in previous years missed playing his annoying pranks in Centre Hall, did not celebrate here on last Tuesday night, and our town did not have the look of chaos and extra inscriptions so common heretofore on the morning after "hollief". Nothing seemed to be disturbed, no tricks played and no premises disfigured. Well, this is an encouraging sign, that we trust will stay. Perhaps the "hollief" fiend thought our town was suffering sufficient disfigurement from the work of the street improvement fiend and out of pity spared our citizens from his nocturnal pranks.

To be Recoined.

The souvenir half dollars issued to the World's fair managers are to be re-coined into half dollars of the ordinary kind. This is the decision of the World's fair managers as communicated to Secretary Carlisle. The managers do not care to put them in circulation at their nominal value because they think it would be unfair to the thousands of people who have paid a dollar apiece for the coins. There are still undisposed of about \$1,500,000 worth of the coins, or about 3,000,000 pieces.

And the Roost was Empty.

Ex-Sheriff Spangler up to a few days ago had four fine large turkeys he was fattening for Thanksgiving dinners, and fostered many a pleasant thought of the feast that would be had on that day. A few mornings ago he went out to his turkey pen, when lo! and behold! the pen was empty. They doubtless are now being cared for by some nocturnal marauder, and the ex-sheriff is pondering who in the d—l took them.

Snow No. 1.

The first snow of the season greeted us last Sunday afternoon. The day was windy and raw and somewhat cloudy. In the middle of the afternoon small snow pellets about the size of homeopathic pills began to fall and towards evening there was a change to regular snow flakes and an old fashioned snow spall, which lasted about half an hour covering the ground and housetops with a mantle of white.

Will Resume Again.

Editor Fiedler, of the Bellefonte Gazette, recently informed us that it was his intention to resume the publication of the Daily Gazette in a few days. A canvass of Bellefonte and vicinity is being made and he has met with sufficient encouragement to again send the sprightly little sheet to the press.

Train Delayed.

Last Thursday afternoon the passenger train east, due at 3:01 was over one hour and a half late from Bellefonte, owing to an accident to the locomotive at Lemont. The train managed to reach Linden Hall at a slow pace where the engine from a freight was attached and the train taken east.

FIRE AT MILLHEIM.

Duck, Hockman & Frank's Planing Mill Burned.

On Thursday night, last, the planing mill, formerly known as Confers, now owned by Duck, Hockman & Frank, was totally destroyed by fire, between one and two o'clock. The mill stood on the side of the road opposite the brick grist mill, about thirty feet from it. The fire was first discovered by John Stoner, and seems to have started in the north west corner, while the engine is situated in the opposite, south-east corner. The mill with all its contents, lumber, finished work and machinery is a total loss. No insurance. The general opinion is it was set on fire. The loss is estimated at \$2300.

The brick grist mill on the opposite side had also taken fire, but plenty of help having arrived in the meantime, by great effort it was saved.

The damage done to the grist mill may be over \$100, which is insured in the Centre Hall Company.

Early Winter Notes.

Corn husking is not finished yet with all farmers; cold fingers may be in store for such as did not get thro during the fine weather.

It will only be a short time and the scream of the porker and chatter of the sausage chopper will be heard in the land and we country folks will be living on the top of the pile—sausages and Johnny cakes: Selah!

Any of our patrons in the timber districts wishing to pay for the Reporter in posts and rails, can put such in same as legal tender if they report at these headquarters soon and before we become overstocked.

Now is the time to attend to your hydrants and secure them against freezing; a stitch in time saves nine.

Having had good success in foretelling results in the moral and political world, we will now, for a moment, turn weather prophet, and predict that during the coming winter you will see sleighs glide along and hear the merry bells jingle.

Over Twenty Cars of Apples.

The large shipment of apples from the valley this year has been without a precedent, and from an enormous amount shipped, a fair idea can be gleaned from the shipments made from the Centre Hall station. Up to this writing over twenty car loads have been sent out, of which amount D. B. Brisbin alone sent fifteen. It would be safe to say that fully twenty thousand bushels of the luscious fruit has been shipped from Centre Hall, while other stations along the road in the valley sent their full quota.

Potter North Pr. Election Notice.

The voters of the north precinct of Potter township, will take notice that the general election, Tuesday, November 7th, on account of the serious illness of Mr. John Odenkirk of the Old Fort hotel, will not be held at said hotel, but the said election will be held at the farm house occupied by James Moyer, a short distance north of the aforesaid hotel.

G. L. Goodhart, B. F. Adams, J. B. Strohm, County Commissioners.

Fingers Badly Lacerated.

Last Thursday afternoon while John Lee, who is employed at the foundry, was running a buzz saw, he attempted to remove a piece of wood from near the saw and got the first finger and thumb of his right hand badly used up in the fray. The flesh was torn from his fingers to the bone, and he will be without the use of his digits for some time.

Will Stay in Jackson Park.

G. W. G. Ferris the builder of the great wheel at the World's Fair, is unable to state what will be done with the wheel at the close of the fair. Bids are in from Coney Island, the Belgian exposition, Atlantic City and several other places, but the Jackson Park commissioners want it to stay right where it now is. The enterprise is now making money.

Brief Home Items.

Tuesday morning this week showed up the hardest freeze for this season, so far; the day was bright.

Some one borrowed four of ex-sheriff Spangler's turkeys, a short time ago.

John T. Lee had several fingers badly wounded by contact with a circular saw in the foundry, on Monday.

To Be Sold Saturday.

On Saturday next, 4th, the three tracts of the estate of Thomas and James Lingle, dec'd., will be offered at public sale, and an excellent opportunity awaits one who wishes to make a profitable investment. In another column can be found the advertisement of the estate, in which an error in the terms has been rectified, and properly inserted.

Services Sunday.

Rev. James Boal will preach in the Presbyterian church at this place next Sabbath afternoon, at half past two o'clock.

"Get out the vote" should be the cry of every Democrat from now until election day.

NOVEMBER WEATHER.

A Forecast of the Conditions that will prevail next Month.

Ira Hicks, the weather prophet, in his forecast for November says that about the 2nd and 3d of November will centre a "reactionary change to warmer, which change will begin in the west with southerly winds, growing cloudiness and rain. These conditions will advance eastward during the 3d and 4th, followed closely by the shifting of the wind to westerly and colder. About the 7th a very marked storm period will begin. Both the "Vulcan and Mercury disturbances are central on the 8th, making direct connection with the new moon on the morning of the same day. This period will set in with a decided change to warmer in western parts, resulting in very active storms of rain and wind, turning to snow and sleet in many places northward, and followed promptly by a severe and general cold wave. From about the 7th and 10th, beginning in the west, all parts of the country will in turn experience the progressive and changing phases of the period. There are reasons to apprehend hard and dangerous gales in connection with the disturbances of this period, especially on the lakes and northerly seas. Sharp cold and freezing may be expected immediately behind the area of low barometers, and storms, causing cold and frosty weather, generally up to the changes to warmer and stormy from about the 14th to 16th. Be on the watch for sudden changes to colder after the storm area of each period passes to the east of your locality.

The opposition of Jupiter occurs on the 18th, and there is much indication that these oppositions greatly excite all atmospheric perturbations occurring about such times. This opposition will likely be felt most severely during the storm period running from the 19th to the 23d. The Venus excitement will also be present at this period giving good grounds for fearing heavy storms as a result. Heed our warning and be on the watch for them and for the cold that will press behind them on land and water. The final crisis of this period may not come until full moon, on the 23d, but be ready for severe storms with danger on the lakes at any time during the period. The Venus extremes from warm to sudden piercing cold, with thunder and rain, turning to northwest gales and snow, will show themselves at this time.

The Venus equinox is central on the 29th, and its influence will be plainly felt in all the disturbances for about twenty days before and twenty after that date. Ordinary or normal disturbances otherwise will be excited into great and prolonged violence, so that many disasters will be heard from. The reactionary movement about the 23d to 27th will feel the central force of this Venus period and wind up in great cold. So will the regular storm period, which begins about the last day of the month and runs into the opening days of December.

Kills no More Sheep.

A week or so ago a sheep was killed for Mr. Henry Homan west of Centre Hall, and the crime was fastened upon dogs belonging to Uriah Osman and John Moore. Both gentlemen appointed themselves judge, jury and executioners and Mr. Osman dog got the axe where the chicken did—in the neck. John Moore however concluded to execute his dog according to later methods, and secured a plow line which formed a noose around the dog's neck. He was swung over a cross beam in the stable which method was fully as effective as the ax, although a little more time was necessary, but the result was just the same, and he got no canine blood upon his hands by the operation.

He Preferred Jail to Starvation.

On Monday morning a fairly well-dressed tramp picked up a pair of boots at Will Wain's store and walked down Market street apparently unconcerned as to what he had done, says the Lewistown Free Press. When overtaken and questioned as to his act he said he was nearly starved and could get nothing to eat and his purpose was to get to jail where he thought his appetite could be appeased. He was not arrested and a kind hearted citizen took him into Major's restaurant and gave him a hearty meal.

Still After Mutton.

The sheep killing curs have not all been killed yet. A few nights ago several sheep belonging to John Carper, about 2 miles west of our town, were badly used up by dogs. This business has become a little too frequent in this neighborhood of late.

Gets a Good Berth.

"Sweet Charity."

In the Artists' Exhibition of 1893 at the New York Academy of Design, there was exhibited an oil-painting by J. L. G. Ferris, entitled "Sweet Charity." Its richness of coloring commanded instant attention, while the lesson it taught was so impressive that one naturally returned to it for a second view.

Its subject is a young lady of colonial times who is on an errand to one of the poorer families of the town. She has a sensible, charming face, which expresses with remarkable fidelity the sentiment of her errand. There is not a home that this charming picture will not ornament. It must be seen to be appreciated.

"Sweet Charity" was purchased by the Publishers of The Youth's Companion and has been reproduced in colors in large size, 14x21.

It will be sent to all new subscribers to The Companion who send \$1.75 for a year's subscription, and the paper will also be sent Free from the time the subscription is received, to January, 1894, and for a full year from that date, to January, 1895. This offer includes the Double Souvenir Numbers published at Thanksgiving, Christmas and New Year's. Address, THE YOUTH'S COMPANION, Boston, Mass.

To North Carolina.

Unfortunately the boat stuck near the Castanea bridge. A teamster was appealed to, and his horses with a rope soon dislodged the craft. Mr. Mapes' family was with him. He will float down the river to the bay and thence along the coast until he reaches his destination. He expects to make the trip in two weeks.—Clinton Democrat.
