THE JUDGESHIP.

The election of a president judge, to succeed Hon. A. O. Furst, is beginning to attract attention, in both parties. The importance of having a judge with all the requirements called for by the dignity and importance of the position, is a matter for grave consideration. Property, life, character, are in the hands of the judge upon the bench, in a very large measure. We would not know of a greater calamity to befall a people than to have the judicial ermine worn by incompetent and corrupt men; and as these important personages can only be selected from among the legal fraternity, the past life of the aspirant for the position, in its legal as well as private and political phases, should receive close scrutiny.

It is not looked upon, by honorable men, as a position that should be given away as a reward for mere party services. In many districts men are placed upon the bench regardless of party affiliations; legal learning, pure private character and an unprejudiced mind alone being the base upon which choice in founded.

An independent judiciary is the safe-guard of the people.

Where both parties have fit men for the bench, it is all right enough to observe party lines; but where the one is not, the former is the proper one to

When the present board of commissioners took possession of the office, they had to grapple with confusion and a deficit as a legacy of hendersonian financiering. Few changes, perhaps none, will be made in the tariff bill by the senate; the only change that is likely, may be a small duty on sugar. There will be no trouble to pass the bill in the senate within about four weeks.

THE Democrats in congress have resolved to cut down expenditures twentyfive million dollars; the country will say "Amen" to that.

An agitation to cut down all salaries 25 per ct. would be in order since prices in every other line have come down nearly fifty per ct. This would save millions of dollars. As we are about to have tariff reform, let the next demand of the people be for salary reform.

To Keep Apples and Potatoes.

Apples and potatoes should never be kept in the same cellar, or if this is unavoidable the potatoes should be kept in the warmest part of the cellar and apples in a barrel well headed up near the windows, where on days when the air outside is only a few degrees above freezing they can be treated to a cold breeze from the open windows, while at the same time the atmosphere in the part of the cellar where the potatoes are kept does not fall below forty degrees.

He was in Honolulu during the revolution of last January a year and made a thorough explanation of the Islands. Last Monday night he entertained quite a number of our people with a

Two Medical Men Engage in a Fight .-Jealousy the Cause.

On Tuesday at twelve o'clock, the town of Mifflinburg was thrown into wild excitement by an assault made upon Dr. Oliver Bellman by Dr. Nevin Pontius. The former is a prominent dentist of the town and the latter has been practicing medicine in Colorado, but resided in Mifflinburg before he went west.

On Tuesday Pontius entered Belljack, the latter defending himself with a knife. When they were separated both were badly bruised and cut up. The affair was caused by jealousy on the part of Pontius, who found on his return from the west that Bellman fegl-im had supplanted him in the affections of his promised wife. All the parties are highly connected. Pontius will be arrested and placed under bail for his appearance at court.
