Lessons on Hard Times

After all it is the hard times that bring out the real merit of men and methods. Flush times and easy profits in business never make the best men, nor the most prosperous communities. Hard times teach self denial and retrenchment, close attention to details and careful selections of the best possible methods. Less is wasted; goods are bought and sold for more nearly their intrinsic value; speculation is discouraged and honest efforts fostered. Lessons learned by unpleasant necessity in hard times will produce prosperity in the long run. The pinching experience is hard to bear while it lasts, but it will, as the old saying goes, "feel better after it gets done hurting."

In the face of difficulties, manhood comes to the front, and the country is the gainer in the end.

The funeral took place on Friday at 10.30 o'clock. In the absence of her regular pastor, Rev. G. P. Sarvis conducted the funeral services.

It is, to say the least, wrong for anybody to go to church or public meeting, and disturb the preacher or orator by coughing. Use Dr. Bull's Cough Syrup at once.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain, and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble. The noted specialist, Franklin Miles, M. D., L. L. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts. Dr. Miles' Restorative Nerve, the unrivaled brain and nerve food, is prepared on the principle that this subject, and many other difficulties originate from disorders of the nerve centers. His wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nerve cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all drugists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, bottles for \$5, express prepaid.
