CENTRE HALL, PA., THURS. APRIL 26

REPUBLICAN HARD TIMES.

Mr. Thomas G. Shearman in a recent address to the workmen of the Patterson, N. J., showed the cause for the present hard times in the following clear manner. He said:

What laws are in force? Republican laws.

Who, when the panic began, held nine-tenths of the offices through which these laws were administered? Republicans.

Who hold most of the offices today? Republicans.

Who passed the tariff now in existence? Republicans.

Who passed all the tariff laws which have been in existence for the last thirty years? Republicans.

Is there more or less protection to American industries in force today than there was in the first year of Harrison's administration, when we are told that everything was so prosperous?

More by about one-third to one-half. The protection on woolen goods is about fifty per cent. higher; on cotton goods, forty per cent. higher; on iron and steel, fifty per cent. higher; on silk, eight per cent. higher; on flax, sixteen per cent. higher.

What have the Republicans been telling us for the last thirty years was the cause of American prosperity?

The Morrill tariff.

Is there more or less protection given by the great and wonderful Morrill tariff?

More by 100 per cent. all around. More on woolen goods than 200 per cent., more on iron and steel by eighty per cent., more on flax manufacture by 100 per cent.

In a contest for state senator in Lancaster county, last week, the Cameron candidate was badly beaten.

THE supreme court of South Carolina has declared the dispensary law of that state unconstitutional. There was much turmoil throughout the state on account of the law and two persons were killed.

WE'LL BE HAPPY.

ALL the news just now is about the Coxeys; tramps and the soft coal strikers. Neither is having any foothold in this blessed county of Centre, with its many churches, smiling acres, pretty women and superabundance of gubernatorial timber, its CENTRE REPORTER and other well-conducted papers of minor importance.

There is too much good sense in our county to have any great fools in it, otherwise Coxeys would have an addition of tramps from Centre county to his army.

Then, again, our laboring classes are always in receipt of such fair wages that strikes do not take root on our soil. Here everybody has enough to eat and drink and wear and at worst a fairly good shelter. Yes, we are just happy here, and when the outside world has rheumatiz and other commotions, we are singing and dancing, eating and drinking, marrying, hunting and fishing, building churches and school houses, dress in style even if we can't pay for it, rocking cradles, and hum to ourselves, "Let the wide world wag as it will, We'll be gay and happy still."

Indeed, we will.

WHEN Coxeys' army reaches Washington, what then? Well, we would advise, let the doors of the capitol be locked, the members of the senate and house join the army and let the march continue on, and on, and on, ever so far. The two C's—Coxey and Congress—would be a paying humbug.

THE "Keystone Gazette Industrial Edition" is upon our table and is a creditable affair to both the publisher and the embryo city of Bellefonte, and elegant buildings set out in attractive illustrations and pen descriptions, added to which are also photographs of prominent citizens of the town. Editor Harter deserves credit for the mechanical get-up of the 12-page industrial edition, which can be had from that office for 10 cents per copy.

IN Luzerne county twenty-two murders have been committed within the past four months, and but two of the assassins have been brought to punishment. This is an appalling record and is explained by the fact that the murders were committed by foreigners who are screened from detection by their friends. Even the relatives of the people who are killed join in secreting the bloodthirsty assassins when the officers of the law are search-

ing for them. This state of affairs is a disgrace to Luzerne county, and must lead to the people taking the law in their own hands unless a change takes place. A few executions by Judge Lynch might have a beneficial effect upon these ignorant foreigners.

THE western branches of the Coxeys army are causing trouble; one of these stole a railroad train. At Columbus a fight took place in which some shooting was done and several hurt. The authorities are now likely to put their on this "army" foolishness.

THE soft coal strike, it is now reported, is likely to end in a few days.

WOMEN in Ohio now have the right to vote for school directors.

THE Houtzdale and Osceola miners have also joined the soft coal strike.

THERE was a big wedding in Germany, last week, attended by Queens, Emperors, Kings, Princes and Dukes, and on a somewhat larger scale than such affairs are here in Centre county. The marriage was that of cousins, two grand children of Queen Victoria.

Queen Victoria, who still finds great delight in family weddings, must have been more than usually happy, at last week's function at Coburg, which united two of her grandchildren.

The Grand Duke of Hesse is the son of the Princess Alice, and his bride, the Princess Victoria Melita, is a daughter of the Duke of Edinburgh, now the Duke of Saxe-Coburg, who married a Russian grand duchess. The intermarriages of the royal family are growing very complicated. The Queen has married her sons and daughters into nearly all the families now available, that their children are now confined practically to their cousins, and royalty in Western Europe, even down to the small principalities and duchies, is being rapidly reduced to a single family type. It is creditable to the stock that this close interbreeding has thus far produced no very bad results, but an infusion of new blood would seem to be desirable on general principles.

FARMERS MILLS.

Wilson Beck Died Suddenly from a Stroke of Paralysis.

George and William Meyer, of Coburn, were pleasant callers in this vicinity lately.

Wilson Beck died at his home on Saturday evening after an illness of about five days, he was in the act of harnessing a horse when he was stricken with paralysis and was unconscious until he died. He was a consistent member of the Evangelical church, and will be greatly missed by his many friends. The funeral took place on Tuesday forenoon, Rev. Hertz officiating. Interment was made in the Union cemetery.

A number of farmers have sowed their oats.

J. H. Rishel, the merchant is doing a rushing business at present, putting out his spring goods.

The Union Sunday school was reopened for the coming summer on the 15th.

Most of the fishermen have not yet succeeded in catching very many fish, on account of the high waters, although some of them have been fortunate enough to get caught themselves.

Last week one of James Lee's cows broke her hip by falling over a large embankment along the road; a warning for the supervisor, better put railing along dangerous places.

Communion services on Sunday were well attended considering the bad weather, and quite a number of members were taken into the church. There was also a special collection taken for foreign missions.

CORRECTION.

In the article headed "Private Trout Streams," 2nd column, last page of this issue, the word "sufficient" should read "insufficient"; the last paragraph should read thus:

He continues that: "The mere placing of fish in a pond, without any improvement whatever for the propagation of fish or of game fish, is insufficient to place the pond within the protection of the act of June 3, 1878."

MARRIAGE LICENSES.

The following marriage licenses have been granted the past week:

MYSTERIES!

The Nervous System the Seat of Life and Mind. Recent Wonderful Discoveries.

No mystery has ever compared with that of human life. It has been the leading subject of professional research and study in all ages. But notwithstanding this fact it is not generally known that the seat of the nervous system is located in the upper part of the brain, near the base of the brain, and is so sensitive that the slightest touch of the hand will cause the prick of a needle to cause instant death.

Recent discoveries have demonstrated that all the organs of the body are under the control of the nerve centers, located in or near the base of the brain, and that when these are deranged the organs which they supply with nerve fluid are also deranged. When it is remembered that a serious injury to the spinal cord will cause paralysis of the body above the injured point, because the nerve force is prevented by the injury from reaching the paralyzed portion, it will be understood how the derangement of the nerve centers will cause the derangement of the various organs which they supply with nerve force.

Two-thirds of chronic diseases are due to the imperfect action of the nerve centers at the base of the brain, not from a derangement primarily originating in the organ itself. The great mistake of physicians in treating these diseases is that they look for the organ rather than the nerve centers which are the cause of the trouble.

Dr. FRANKLIN MILES, the celebrated specialist, has profoundly studied this subject for over 20 years, and has made many important discoveries in connection with it, chief among them being the facts contained in the above statement, and that the ordinary methods of treatment are wrong. All headaches, dizziness, dullness, confusion, nervousness, mania, melancholy, insanity, epilepsy, St. Vitus' Dance, etc., are nervous diseases no matter how caused. The wonderful success of Dr. Miles' Restorative Nerve is due to the fact that it is based on the foregoing principle.

Dr. Miles' RESTORATIVE NERVE is sold by all druggists on a positive guarantee, or sent direct by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price. 50c per bottle, six bottles for \$3. Express prepaid. It contains neither opium nor dangerous drugs.

My wife was confined to her bed for over two months with a very severe attack of rheumatism. We could get nothing that would afford her any relief, and as a last resort gave Chamberlain's Pain Balm a trial. To our great surprise she began to improve after the first application, and by using it regularly she was soon able to get up and attend to her house work. E. H. Johnson, of C. J.
