Some congressmen are kicking vigorously against being docked for absenteeism. They deserve kicking besides docking, for wanting to draw pay not earned. No congressman, having a hired man, leaving his work days after days, would pay him in full-he would dock him for every hour short.

Going among the news is an item of a young man swallowing some live little fish which were in a tumbler of water at night when he had got up to drink, not being aware that, the little things had been put into the glass for safekeeping until next day.

This would constitute that fellow's stomach a private fish pond, in which it would not be lawful for any one but the owner to fish with nets, fish bas kets, out-lines or rod and line. The fellow, however, must put up the required notices in his insides, "No fishing allowed in here.'

The Business Situation.

Dunn's Review for the last week says: The strikes begin to have a serious though it is assumed only a temporary effect. The number of works depending upon supplies of bituminous coal or coke for fuel is large, and quite a considerable proportion of them have already been compelled to stop operations. No doubt the proportion is larger in the iron and steel manufacture than in any other business, but nearly a third in capacity of the iron furnaces at work a month ago appear to have closed. Some railroads at the West are embarrassed, and textile works of some importance must close soon unless the strike ceases. The movement of so-called armies of unemployed on Washington has caused little excitement, and is less important or significant than the outward movement of specie, which shows shrinking foreign demand for products and further withdrawal of foreign capital. But neither striker nor foreign distrust long retard the progress of this coun-

Mrs. W. T. Winkleblech Died Thursday Night from an Attack of Measles.

A. J. Campbell came home on Saturday with a badly bruised foot. While trucking he had the misfortune of getting his foot between the trucks; he can however, walk by the aid of a crutch.

Miss Bertha Young is at present staying with her sister, Mrs. T. G. Hosterman, near Fiedler.

Mrs. Winkleblech, wife of W. T. Winkleblech, who lives with his mother and family of two boys, along Pine creek about two miles north-east of here, died on Thursday night of last week, of a severe attack of the measles and was buried at Aaronsburg on Monday. Deceased was aged about twenty-two years; her maiden name was Lizzie Shawver, and she was married to Mr. Winkleblech less than a year ago. A child about four weeks old is the fruit of their union, which was so untimely ended by the death of the young wife and mother.

Rev. Wolf attended conference which convened at Laurelton last week. Jacob Kerstetter built an additional story to his summer house which

greatly improves its appearance. Ice cream saloons must be paying investments; no less than five had flung their signs to the breeze on Saturday evening.

About Limburger.

Limburger cheese laid away in cupboards and refrigerators will drive away ants. It will do much more; it will drive a spike through a brick; it will drive a hog out of a tan yard; it will drive a tramp away from a meal's victuals; it will drive a mule through a barned fence; it will drive a herd of cattle over a precipice; it will drive a negro away from a chicken roost, or a man into insanity who stays five minutes within ten feet of its unsavory presence, and some men will sit up and eat the stuff and profess to like it.

is an arbitrary word used to designate the only bow (ring) which cannot be pulled off the watch,

Here's the idea The bow has a groove on each end. A collar runs down inside the pendant (stem) and lits into the grooves, firmly locking the bow to the pendant, so that it cannot be pulled or twisted off.

It positively prevents the loss of the watch by theft, and avoids injury to it from

I HAVE HAD THE EXPERIENCE AND YOU CAN HAVE THE BENEFIT OF IT.

I have been in the Carriage-making Business in Mifflin county since 1858, and continuously at Yeagertown for 33 years. I know how to build vehicles in the most durable manner, of best material and in all styles. I have a larger stock of Buggles, Spring Wagons and Carriages on hand than I ever had since I have been in the business, and I will sell them at reasonable prices to suit these times. Vehicles made to order and repairing done in the best manner.
