

MILLHEIM.

Our Ready Correspondent Finds Much of Interest.

The Harvest Home picnic held in Dr. Musser's woods was attended by a great many people from town and surrounding country.

The law suit before Squire Garthoff, at Coburn, by parties from town, was quite an exciting one. Law suits as a general rule, pay well.

Quite a wind storm accompanied by a good shower of rain passed through here on Sunday afternoon, cooling the hot air and reviving vegetation.

A number of hands are at work putting up the new bridge across Elk Creek at George Peters. In about two or three weeks it will be finished.

George Springer, Elmer Noll, John H. Woerner and W. A. Tobias were in Paddy Mountain tunnel last Monday to camp for three or four days, fishing for eels and frogs. They took no bait along.

The mouth battle of some of our prominent citizens, and the blocking up of the side walks on last Saturday evening was not very creditable, and especially to some who hold borough offices, those who should prevent this interference of the people. Ladies were compelled to take the street or go around them in another way. The burgess gave notice to the crowd to disperse and open the sidewalk.

The council should pay some attention to the obstructions caused by the lower branches of trees hanging so low that a person with an upraised umbrella cannot walk on the pavements without being in danger of ruining their umbrellas and parasols, and tall persons must stoop down in order to avoid overhanging branches.

One "fresh air kid" at Dr. Musser's to stay a month or two. These "kids" are not so plenty as two or three years ago. Are the people tired of them? Let the echo answer—

J. P. Gephart registered at the Musser House last week. The Esq. thinks Hill is all O. K.

R. M. Foster, the Democratic candidate for Legislature, was in town last Saturday, getting acquainted with the voters, and looking after the political fences. We judge that he was well received, and will carry the full vote. Bob is a good fellow.

Mrs. Lizzie Condo, of Indianapolis, Ind., sister of Landlord Musser, is visiting her relatives here and Brush valley.

Any person wanting their dogs clipped will consult Pat Bellman or Cob King, and the proper information can be had.

Andrew Soux and Harvey Coter, two young men from Iron Bridge, Montgomery co., passed through town on bicycles, one day last week, on their way to Brookville, Jefferson co. They took dinner at the Musser House.

A. A. Frank, F. P. Musser, Al. Walter and Geo. Springer were down fishing for eels in Penns Creek below Beaver Dam and "Schnoka Loch," and some one lifted and stole some twenty outlines. They had fifteen eels and to judge by what they did get, had their lines not been disturbed, they would have caught at least forty eels, more or less.

Dr. Wetzel having purchased the old woolen factory property, is changing the course of the creek, in order to more securely prevent the floods from overflowing and washing away of the ground.

It is reported that there are several nuisances in this borough that are detrimental to the health of the citizens. If true, proper steps should be taken at once to have it abated. Borough Dads, where are you?

Musser and Gephart, owners of large tracts of mountain land, offer \$100 that will lead to the arrest of the fiend or fiends that applied the torch and burned and destroyed their timberlands. It is a great pity that such persons cannot be caught, and thrown into the fire and burn up with it.

E. C. Gale, of Wellsville, N. Y., called on his many friends here last week—the same Ed. as of yore. He has an interest in seven hardware stores in different parts of the state.

Charles Woodling, of Brooklyn, N. Y., a nephew of jeweler Leitzel, in company with G. M. Musser, of Rebersburg, paid our town a visit last week. Both are whole-souled fellows. Charley Cummings, the shoe man, was seen on our streets one day last week. Charley sticks to the Democratic party like wax.

Milford Stover was hobbling around on crutches. Playing base ball, he sprained his ankle. He is all right again.

The Millheim cornet band, accompanied by quite a number of people, took in the festival at Booneville, last Saturday.

Ira Granley, the genial butcher at Brumgard's meat market, is able to be about again after a week's lay-off, nursing wounds which he received by the crank of a windlass striking him.

Miss Mammie Miller returned home from her visit to her brother at Jersey Shore. She reports having had "just a splendid time."

Mrs. Willis Weaver is spending a few weeks at Atlantic City, with her friend, Mrs. Nolan.

On our streets at different places can be seen large posters announcing "Judgments for Sale," against parties in Lycoming and Clinton counties. The notices are represented by two

men from Williamsport. They are registered at the National Hotel.

The grateful downpour of last week gave new life to corn, potatoes, oats and garden sass.

Joe Winters, of New Berlin, was in town last week attending to the wants of his many customers. He was accompanied by his son, a bright and intelligent boy.

Ed. Bickle, of Philadelphia, the popular salesman of Hood, Foulkrod & Co., was here looking after the welfare of his firm.

Quite a number of Millheimers were down to Coburn last Saturday evening to take in the tub race, festival and other attractions.

A HOT-HEADED DEPUTY.

Taunted by a Crowd of Women He Kills One of Them.

Jennie Jones, wife of a striking coal miner, was killed on Tuesday by a shot fired by James Myers, a deputy sheriff. Immediately after the shooting Myers fled into the mine. It will be difficult to save him from death at the hands of the enraged strikers, who swear that they will avenge the death of the woman.

The Pardee mine was to have resumed with non-union men on Tuesday, and deputies, including Myers, were commissioned to guard those who were going into the mine. Maddened by the jeers of the women who assembled about the entrance to the mine Myers fired into the crowd with the result already stated.

FARMERS MILLS.

A Big Sunday School Picnic Last Saturday. —Other News.

The picnic held at the cave last Saturday by the Murray Sunday school, was a grand success. Rev. Eisenberg delivered a brief address in the forenoon. The recitations by the scholars were all well rendered, as was also the music by the school. The Farmers Mills and State College band discoursed music throughout the day. A large crowd was in attendance and all seemed to enjoy a day of pleasure.

W. F. Bible opened a six weeks term of school on Monday.

Mrs. Harvey Schaeffer, of Zion, is visiting among friends in our valley this week.

A band of Gypsies having nineteen horses passed through this vicinity last week, and as usual, begged a little of everything imaginable.

In Cases of Sunstroke.

The following instructions for restoring persons overcome by heat have just been re-issued by the New York board of health:

Anyone overcome by the heat should be immediately removed to the nearest shade, and the collar of shirt or dress should be loosened. Send immediately for the nearest physician and give the person cool drinks of water, black tea or coffee, if able to swallow.

If the skin is hot and dry, place the person in a sitting position against a tree, wall or anything that will be a support to the back; sponge with or pour some cold water over the body and limbs, and apply to the head pounded ice wrapped in a towel or other cloth. If there is no ice at hand keep a cool cloth on the head and pour cold water on it as well as on the body.

If the person is pale; very faint and pulse feeble, lay him down on his back, let him inhale ammonia for a few seconds, or give him a teaspoonful of aromatic spirits of ammonia or tincture of ginger in two teaspoonfuls of water. Use no cold water upon the head or body, but rub the hands and feet and apply warm applications to the same until the circulation is restored.

Kenneth Bazemore had the good fortune to receive a small bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy when three members of his family were sick with dysentery. This one small bottle cured them all and he had some left which he gave to Geo. W. Baker, a prominent merchant of the place, Lewiston, N. C., and it cured him of the same complaint.

When troubled with dysentery, diarrhoea, colic or cholera morbus, give this remedy a trial and you will be more than pleased with the result. The praise that naturally follows its introduction and use has made it very popular. 25 and 50 cent bottles for sale by Wm. Peeler, Spring Mills and S. M. Swartz, Tusseyville.

State Law for Good Roads.

Senator Wm. Flinn, of Pittsburg, who is just back from Europe, says he will introduce in the next legislature a general bill for good roads in all parts of the state. It will first take effect, however, only in counties which have special or local road laws such as Allegheny, Beaver, Crawford, Erie, Dauphin and Lancaster, and probably a few other progressive counties.

Jacob Neece Ahead.

Our old friend Jacob Neece, of Farmers Mills, called in the other day, and among other things reports that from eighteen acres, he took forty four-horse loads of hay, each load having one and one-fourth tons. This gives Mr. Neece the medal, and Hiram Durst must try and beat Jacob next year. This makes nearly three tons to the acre, and some of it was sold at ten dollars per ton. That beats wheat farming all hollow.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to insure their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble. The noted specialist, Franklin Miles, M. D., L. L. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts. Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land. Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by the Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid.
