### FIFTY-THIRD CONGRESS.

EENATE.

200TH DAY .- In the Senate the conference report on the sundry civil bill announcing agreement on some items and disagreement on others was laid before the Senate and adopted, so far as the amendments were con-cerned. The Senate receded from its amendment to the sundry civil bill providing for the purchase of the Mahone lot in Washington, as a sight for the government printing

201st DAY .- The only event of note in the Senate was the reception of the four bills passed by the House, putting coal, iron ore, sugar and barbed wire on the free list. These were laid before the Senate and read once, their second reading being objected to.
Mr. Hill offered an amendment to each of these bills providing for the repeal of the income tax. Some private bills were passed. 202D DAY. -In the Senate the House supplemental tariff bill to place sugar, iron ore, coal and barbed wire on the free list was taken up, and on motion by Mr. Harris to refer them to the committee on finance a lengthy debate ensued, but no action was

203RD DAY .- In the United States Senate a resumption of the sensational scenes of Wednesday over the disposition of the four House free list bills, placing sugar, coal, iron ore and barbed wire on the free list was anticipated, but not a word was spoken on the subject. Everything was as calm as a May morning. After two hours spent in a rather interesting delete on a resolution of Mr. interesting debate on a resolution of Mr. Kyle, the South Dakota Populist, to prohibit the sale of intoxicating liquors in the Senate wing of the Capitol during recess, and a resolution of Mr. Call, of Florida, for a senatorial trip by the Committee on Patents, a vote was taken without debate on Mr. Harris' motion to refer the Sugar bill to the Finance Committee, and it was so referred by a vote of 32 to 17. An analysis of the vote shows that sixteen Republicans, thirteen Democrats and three Populists voted for the motion, and seventeen Democrats against it. Eight Republicans, one Populist and one Democrat were paired in favor of the motion and three Republicans and seven Democrats against. The majorities in favor of referring the Free Coal, Iron and Barbed Wire bills were even larger than on free sugar.

204TH DAY. - The United States Senate held brief session, which was largely devoted to discussing the proposed appointment of Mr. White, of California, to the vacancy on the Finance Committee. The resolution, how-ever, went over without action. The conference report on the last of the appropriation bills (the General Defiency) was adopted. Resolutions were offered and ordered to lie on the table as follows: By Mr. Murphy, de-claring it to be the sense of the Senate that no further tariff legislation should be attempted at this session.

## HOUSE.

200TH DAY .- The House of Representatives after accepting the Senate tariff bill, passed bills placing sugar, coal, iron ore and barbed wire on the free list. The Senate bill goes into effect as soon as signed by the President. A report from the committee on claims advances many reasons why a bill referred to it providing for the payment of French spoli-tion claims and those for stores and supplies furnished the Union forces by Southern men who were loyal to the Union during the civil war should be enacted into law.

## NO MORE THISTLE SEARCHES.

Secretary Morton Says the Agricultural Department Has Investigated the lest Enough.

The Governor of North Dakota has addressed a letter to the Secretary of Agriculture with regard to the damage done in that State by the Russian thistle, suggesting that the Department send a special agent to make an examination of the wheat fields of North and South Dakota in their present condition. Secretary Morton after full consideration of the matter and in view of the investigations already made with regard to this weed in 1892 and 1893, has thought proper to decline this suggestion and explains to the Governor the grounds for this refusal as follows:-

"I have to say in reply that in the Fall of 1892 a field agent was detailed by this Department to make an investigation of this subject. He spent nearly a month in the region infested by the Russian thistle. In the Fall of 1893 the same agent, airendy having an expert knowledge of the Russian thistle question in all its phases, made another tour of inspection and presented a full report on

the subject. "The United States Department of Agriculture has published exact information on the extent of the Russian thistie, the damage caused by it, and the methods available for its eradication. Copies may be had on application to this office and will give valuable and explicit information on the practical treatment of the Russian thistle. In addition to the reports issued by the Department of Agriculture there have been several reports from other agricultural experiment stations Some of the important portions of these bulletins and reports have been reprinted and widely disseminated by the press and have therefore reached almost all of the persons who have not received the reports them-

"In view of the foregoing facts, it is deemed unnecessary for the Department of Agriculture to send out a special agent during the present season to investigate the subject."

## WEATHER CROP BULLETIN.

A Cooler Spell for the Week -The Drough Continues Out West.

The weather bureau in its review of weather crop conditions for the week says: On the Pacific Coast, in the Plateau Region, West Gulf States and on the Atlantic Coast from Virginia northward, except in extreme Southwestern New England the week ending August 13 has been cooler then usual.

From the Upper Missouri Valley and Middle Rocky Mountain slope eastward to the South Atlantic Coast, including the Central Valleys and Lake Region, the week was warmer than usual.

While more than the usual amount of rain fell during the week over a considerable portion of the Southern States, and over limited areas in the Ohio, Upper Mississippi and Missouri Valleys, there has been less than the usual amount over much the greater portion of the country. Exceptionally heavy rains fell in some portions of Arkansas, Alabama, Louisiana and Texas, and copious over extensive areas, including portions of Gas Coal Company. Nebraska, Missouri, Kansas and Western J. J. Coyle, of Mahony City, was nominat-Tennessee, there was no appreciable rainfall during the week.

Drought has been relieved over the greated portion of Iowa and in portions of South Dakota, Southern Wisconsin, and Northern tickets. Illinois, but continues in Kansas, Nebraska, Missouri, Southern Illinois, Northern Wisconsin, Michigan, West Virginia, New York, New Jersey and in portions of Kentucky, Tennessee and Arkansas. Besides the damage effects of drought to crops in the States named planting for Fall seeding is being

retarded. Recent rains have benefitted corn in Minesota and in portions of Ohio, but in Nebraska, Iowa and South Dakota the greater part of the crop has been permanently injured. Unfavorable reports are also received from Kansas where corn is being generally cut to save fodder. In the Southern States, however, except in Kentucky, where the crop is threatened in some localities, the corn crop is reported to be in excellent condition and an unusually heavy yield in that section is now practically assured.

Heavy local rains have caused injury to cotton in portions of the Carolinas and Florida and some injury has resulted from blight, rust and boll worms in Mississippi, but upon the whole the reports as to this crop continue favorable. Picking has begun in Florida and Alabama and continues in Central and Southern Texas.

## SANTO'S EXECUTION.

It Occurred at Daylight Thursday Morning at Lyons, France.

The execution of Caserio Santo Geronimo the assassin of President Carnot, took place at 4.55 o'clock A. M.

M. Raux, the governor of the prison, awakened Santo at 4.30 o'clock, saving to him, "Courage, Santo, the hour has arrived." The condemned man with a great effort raised himself, his face turned livid and his hands and limbs trembled convulsively, despite his efforts to appear careless at his fate.

This trembling continued until the last moment. He could hardly stand, and his limbs were so stiff with cold and fright that his clothes were put on him with the utmost

At 4.50 A. M. Santo was led out of his cell by the guards. He trembled as he emerged from the prison and had to be assisted to the scaffold. His face was deadly pale. As he was being fastened down he cried, "Vive L'Anarchie" His death was instantaneous, There was no unusual sensation,
