DEMOCRATIC COUNTY TICKET.

For Legislature, ROBERT M. FOSTER, JAMES SCHOFIELD. For Jury Commissioner, JOSEPH J. HOY. For Associate Judge, THOMAS F. RILEY.

THE SKIES BRIGHTEN.

Every day has been a day of advancement in business revival since the country finally shook off McKinleyism, says the Record. The manufacturing and merchandising interests will soon be moving forward at a pace to furnish employment for all who are willing to work. Past delay and doubt will only add to the momentum in the volume of recuperative energy. The croakers are now busy in trying to account for the failure of past prediction. They see no hope for vindication unless they can persuade the people of the United States that they did not know what ailed them in 1890 and 1892, and that there can be no prosperity for the nation until it reverses itself and prostrates itself again before the protective Baal. But the people are not fools. They are tired of agitation. They are ready to give revenue reform a fair test. The verdict of November will be a sober and reassuring announcement that the country rests satisfied and content to move forward on the lines laid down by the Democratic party as partially formulated in the fiscal measures adopted by Congress.

WELL, the tariff is passed and now in force, and the calamity bowls of the opposition are heard no more. Better times are setting in. The tariff is a good one; it is not as good as the President and the Democracy wanted it, but it is a big way in the right direction, and it will come up to Democratic demands before many months. Have patience, there is a good future ahead. Industries shut down under Harrison are beginning to start up. Goods are lower already, as advertised by Wanamaker, and the working classes will save money in all their purchases with few, if any exceptions. Better times have begun to begin.

The Democracy of Aaron Williams is not questioned by any one, and his character cannot be successfully assailed. He has been in the ranks all his life, and he will prove a faithful representative in Congress.

The cut used by the Tyrone Herald as a picture of Gen. Hastings, does not look like our Dan. The Herald's picture makes him look like a south-sea island cannibal. Better take it down neighbor, and put up Slingerly's picture.

THE TARIFF'S GOOD EFFECTS.

From all over the country we have intelligence of the good effects of the tariff on trade. From New York comes news that the hotels of New York are the places where the revival of business makes the first sign of its appearance. Just now the hotels are packed with merchants and buyers from every part of the United States. Within a week they have begun to pour in from all parts of the compass to buy goods. Some of the Broadway hotels have become crowded up to the "standing room only" point. There are thousands of out-of-town business men in New York purchasing their Fall and Winter stocks. Their sudden and multitudinous presence there tells better than anything else the story of the revival of trade which has come on the very heels of the disposition of the tariff bill. Some of the hotels have been turning people away for several nights for lack of room.

There is an unusual demand on the express companies, and the transportation companies have almost as much freight at their depots as they are capable of handling without making extra efforts. Among the importers and dealers in raw silk it was stated that the manufacturers of silk goods throughout the east have bought large quantities of raw material during the past few weeks and that they express

an intention of running their mills to their fullest capacity, as they look forward to a great holiday and winter business.

BEFORE the new tariff bill was passed Republicans stated it would close every industry and that its blighting effects would be felt all over the land. Now since the bill has passed and the reports come from all sections that industries are reviving, these same Republicans now assert that "times are brightening notwithstanding the Gorman bill." All of which goes to show that Republicans are better hedgers than they are prophets.

WELL, the tariff is off of wool and already the price is going up. Now manufacture an excuse for it, Messrs. Republicans; under the McKinley and other high tariffs wool went down—it cannot be denied.

CENTRE and Clearfield have nearly twelve thousand Democratic voters. Will these allow the four thousand of Elk and Forest to have as much say as three times their number in the first two named above? The rules say no, and we cannot afford to have the rule set aside; unless in the regular way by the Democracy of Centre and Clearfield themselves.

THE new tariff is beginning to work all right. For the first time in two years and more the receipts of the treasury for any one month of the year have reached \$40,000,000, those of August, as stated in the statement issued a few days ago, aggregating \$40,417,605. This is nearly \$6,000,000 more than the receipts in July.

UNDER the new tariff law every pack of cards must have a two-cent revenue stamp. Might have gone a trifle further and added that each fellow playing cards shall have two stamps of sole-leather.

THE RICHEST MAN.

Ten Houses to Live in Yet Not as Happy as Many Who Have but One.

William K. Vanderbilt, who is probably the richest man in the world, whose wife is beautiful and accomplished, with ten houses in this and foreign countries to live in, yet the two are not as happy as many in Centre Hall who have only one home, or some of our people who do not own their own home.

Mr. and Mrs. Vanderbilt are making an effort towards a divorce. Mrs. Vanderbilt has a house in her own name which cost a million dollars; her husband erected a residence which cost three million dollars, and the other eight homes, all of which are furnished with elegance and kept up, are also of great value.

He owns one of the finest yachts in the world and they have been living much of their time upon the water as well as upon the land. But riches do not bring happiness and the Vanderbilts, man and wife, are now living apart.

There are thousands of families in this land who live from hand to mouth, yet are far happier in their poverty than those with their scores of millions.

Ten costly and elegantly furnished houses to live in, yet peace and happiness dwell not therein, and divorce has been sued for.

A woman in high Europe circles, of great beauty and winning ways, but not of shining virtue, has dazzled Mr. Vanderbilt, and his attentions to her, and the money he spends upon her, has brought about the separation between Mr. Vanderbilt and his wife, and there are now ten palaces, some of which rival the palace of any prince, from which peace and happiness have taken their flight, and the Vanderbilt family has only its hundreds of millions of wealth left, but that cannot purchase the sunshine of a happy home, such as is found in many a hov-el.

Riches without happiness is nothing. Happiness without riches is the greatest of blessings.

Wanted Workmen for Fall Bearers.

Before Mrs. Dawson Coleman, of Lebanon, died last week she requested that employes of her iron furnace at Lebanon should act as her pall bearers. Capt. Suston, manager of the furnaces, and seven plain laborers were chosen and they went to Philadelphia where the funeral was held. Mrs. Coleman was 65 years old and was noted for her philanthropy.

Republican Conference at Tyrone.

The Republican judicial conference of the Centre-Huntingdon district met at Tyrone on Friday and balloted for a candidate for president judge. Twenty-three ballots were taken without choice, 3 for Love and 3 for Lovell. They adjourned to try it again this week.

Services Sunday.

Rev. E. J. Wolf will preach in the Presbyterian church at this place, next Sunday morning at 10.30 o'clock.

—Lewins, Bellefonte, has the most experienced cutter in these parts and at his establishment you can be suited in a manner befitting a prince, and at a reasonable price.

THE INCOME TAX.

Get Ready to Pay Your Tax on Your Income Above \$4,000.

The passage of the income tax sections of the Senate bill by the House makes it probable that the office of Deputy Internal Revenue Collector will become one of great importance. Every person having an annual income of over \$4,000 must pay a tribute to the Collector of 2 per cent. upon the excess. Every guardian, trustee, administrator and executor controlling an estate whose income exceeds \$4,000 must walk up to the Captain's office and settle and so also must the managers of most business corporations, companies and associations.

The income tax feature will take effect on January 1st, 1895. Nearly all income from whatever source above \$4,000 is taxed except interest upon such bonds of the United States the principal and interest of which are by the law of their issuance exempt from all Federal taxation. Profits realized within the year from sales of real estate purchased within two years previous to the close of the year for which the income is estimated must be reported as part of one's income. Money and the value of all personal property acquired by gift or inheritance must be taken into account.

In estimating incomes persons may deduct sums paid for taxes and interest paid by themselves on mortgages, but money paid for improvements and new buildings cannot be deducted. Farmers will have to account for their profits, the cost of growing crops and raising stock being deducted from the money realized by their sale.

Persons having an income of more than \$3,500 must make a return to the Internal Revenue Collector under oath and the Collector shall have power to increase the amount if he believes it is understated.

If anyone having a taxable income neglects to make a return the Collector may make out one according to the best information he can obtain and add 50 per centum as a penalty to the amount of the tax. In case of a willfully false return the Collector is to add 100 per centum to the tax as a penalty. An appeal may be taken to the Commissioner of Internal Revenue, and ample provision is made to prevent an income being taxed more than once.

The penalty for failing to pay by July 1st is five per cent. and interest at one per cent. a month. In case a corporation, company or association fails to file the required statement it will be subject to a penalty of \$1,000 and two per cent. on the amount of taxes due for each month until the same is paid.

The exempt corporations include states, counties, municipalities, assets held for religious, educational and charitable organizations, saving banks which comply with certain conditions, building and loan associations and fraternal beneficiary societies and orders.

The Senators and Representatives did not exempt their own salaries. Each member receives a salary of \$5,000, and must, therefore, give a rebate of at least \$20 a year to Uncle Sam.

What Caused the Hard Times.

Judge Hubbard, of Iowa, says it is the existence of private corporations. George Gould says it is the hostility to corporations.

The farmer says it is the low price of wheat.

The silver man says it is the action of Wall street.

The consumer says it is the tariff. The debtor says it is the creditor. The creditor says it is the debtor. The Democrats say it is the Republicans.

The Republicans say it is the Democrats.

The Populists say it is both.

The Prohibitionists say it is whisky. The preachers say it is the devil. Now, what do you say?

Cost of the Encampment.

The cost of the Gettysburg encampment was \$211,000, made up as follows: Pay roll, \$140,000; transportation, \$40,000; subsistence, \$16,000; horse hire and quartermasters' stores, \$15,000. This, with the expenditures for rifle practice, armory fund, and naval battalion, aggregating \$170,000, exhausts the appropriation of \$310,000.

Up and Down.

Cows are going up and horses are coming down. If you can't afford to buy a cow, then buy a horse. Cows and beef cattle will always have a good price, because meat, butter and milk are getting in greater demand each year. Farmers, shape yourselves to the change. Electricity is knocking the price out of horse-flesh like lightning.

No Money.

The public funds of Blair county are locked up in the closed Second National bank of Altoona, and the county treasurer cannot pay off the orders for poor relief and other current expenses.

—Whether you want a suit made of order or one ready-made, you will find Lewins \$3 to \$5 cheaper than elsewhere. Has new spring styles just opened. Largest assortment in Central Penna from which to select.

Hints About Window Shades.

In replacing a window shade that has been torn from the roller use nothing but one-ounce tacks; longer tacks injure the spring.

Always fasten the round-hole bracket on the right hand side of the window.

Always place roller in brackets with shades rolled up.

To strengthen the spring draw the shade down a few revolutions, remove roller from brackets, roll up shade and replace.

If the spring is too strong, remove roller from brackets with shade rolled up, unroll a few turns and replace.

If the shade is tacked on properly it will hang toward the window.

To fit a shade to a window with inside shutters, measure inside moulding next to shutters.

To shorten a roller for windows with inside shutters, measure from tip on spring side and allow half an inch for roller end; it will then roll freely in the brackets.

Always see that roller is cut true and that roller end is free from imperfections arising from casting.

To properly wind a spring roller for ordinary length shades, fifteen to sixteen revolutions are sufficient.

In mounting a shade on spring roller place spring end to the left.

A piece of bread, not too fresh, will remove all dirt from shades; never use oils.

Irving W. Larimore, physical director of Y. M. C. A., Des Moines, Iowa says he can conscientiously recommend Chamberlain's Pain Balm to athletes, gymnasts, bicyclist, foot ball players and the profession in general for bruises, sprains and dislocations; also for soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one half the time usually required. For sale by Wm. Peeler, of Spring Mills and S. M. Swartz, Tusseyville.

—A light summer suit from Lewins, Bellefonte, will do much keeping cool this hot weather.

Waterproof collars and cuffs that will not wilt, are not effected by moisture and look just like linen are all the fashion now. They are made by covering a linen collar or cuff with "celluloid" and are the only waterproof goods made with an interlining, consequently the only ones that will stand wear and give perfect satisfaction. Try them and you will never regret it. Always neat, and easily cleaned. When soiled simply wipe off with a wet cloth or sponge. Every piece of the genuine is stamped as follows:

Ask for those so marked and refuse any imitations, as they cannot possibly please you. If your dealer does not keep them, we will send a sample direct on receipt of price. Collars 25c each. Cuffs 50c pair. State size and whether stand-up or turned-down collar is wanted.
