# NO FREE SUGAR

THE PRESIDENT OPPOSED TO PLACING IT FREE.

A Republican Senator Makes a Sensation-Flop to Populism.-Hoke Smith's Axe at Work.

WASHINGTON, Sept. 10.—Secretary Carlisle has left no doubt as to where he and President Cleveland stand on the sugar question. He told Representative Meyer, of La., that the administration would oppose any attempt to put sugar on the free list, but would aid in the passage of the substitute proposed by the Senate Finance Committee, striking out the different cuty of one-eighth of a cent a pound of refined sugar, leaving all sugars valorem. Secretary Carlisle still holds affairs. What he says cannot be put a plan of representation. Clinton preto his original opinion that he has no down as political vaporing. In his sented three delegates, and Clearfield authority to pay out a dollar for bounty on sugar, but he told Mr. Meyer that "the settlement of the tariffquesthat he and President Cleveland were both in favor of legislation providing prosperity;" that "confidence is renot only for the payment of the bounty upon all sugar made previous to the taking effect of the new tariff but for the payment upon this year's entire yet fully developed, is resistless when crop of the difference between the bounty and the duty on foreign sugar. Had this information been in the possession of the La. sugar planters it is prosperity for every business regardprobable that they might have adopted a different sort of resolution at their meeting last week. He also told Mr. Meyer that his letter to Senator Harris, showing the necessity for the revenue that the sugar duty will bring in enacted. This isn't a good administration for sinecures. Secretary Hoke Smith's axe has just fallen upon another. Like a great many other people Secretary Smith was puzzled when he first heard of the editor of the U.S. Geological Survey. A little investigation convinced him that the said editor was drawing \$2000 a year without rendering an equivalent to Uncle Sam, and straightway an order was issued abolishing the office, which by the way, was created for the man now turned out, Mr. W. A. Croffut, a very pleasant newspaper man with a fad for mesmerism, which he calls hypnotism. Mr. Croffut's hypnotism worked all right on a Republican Secretary, but it was a dismal failure when applied to a hard shell Democrat like Hoke
