

FARMERS MILLS.

Interesting Items of the Week as Gathered by Our Correspondent.

The long looked for rain came at last and no doubt the farmers will make good use of it and try to get out their seeding before the Grange picnic.

M. L. Rishel is at present erecting a house on the Peter's property at Pottery Mills.

John Durst with his steam thrasher was whistling around in this locality, and has been doing No. 1 work.

W. J. Finkle the miller, has been kept busy the last few weeks, on account of low water at many mills.

The dry spell has delayed many of the farmers with their seeding and fall work.

The potatoes on an average will not yield more than half a crop.

John Bridge, formerly of Zion, is black-smithing in M. P. Musser's shop, and is gaining a large trade. There is always work for a good mechanic.

John S. son of Spear Hettinger came home Saturday last and intends spending a few weeks under the parental roof, and take in the picnic.

George Rishel is the happiest man in the neighborhood, because of the little girl who came to stay at his house a short time ago.

The miscreant who trimmed the tails of O. T. Corman's horses had better keep shady, or he will have to abide by the consequences.

Mrs. Carrie Eckhart returned from her wedding tour a short time ago and looks gay as you please. Good luck to you.

G. J. Meyer, of Coburn, was visiting at his son-in-law's, J. H. Rishel during the past week.

Tammie Rishel spent several days with her brother, Ed Meyer, at Linden Hall, and reports the old homestead looking natural.

Mr. and Mrs. Bickle, of Bellefonte, spent Sunday with Nathaniel Bathman.

Rumors of a Big Combine.

There is a rumor abroad that there is a big plan on foot to concentrate the Anthracite coal roads including the Reading, Lehigh Valley, Jersey Central, Delaware and Hudson, and the Delaware, Lackawanna & Western into a few hands and it is openly asserted that the Rothschilds and Vanderbilts are working in harmony on the scheme. The former have been buyers of Reading stocks and bonds reports to the contrary notwithstanding, but the extent of their purchase is not known. That control of the Reading has not changed since last year is admitted, but it is not improbable that the big holders could be induced to join in a plan the object of which would be the control of all the Anthracite coal carrying and producing companies. Important developments in this respect are promised for the near future.

Irving W. Larimore, physical director of Y. M. C. A., Des Moines, Iowa says he can conscientiously recommend Chamberlain's Pain Balm to athletes, gymnasts, bicyclist, foot ball players and the profession in general for bruises, sprains and dislocations; also for soreness and stiffness of the muscles. When applied before the parts become swollen it will effect a cure in one half the time usually required. For sale by Wm. Pealer, of Spring Mills and S. M. Swartz, Tusseyville.

The Judge Censured the Jury.

Before Judge Harold McClure at Lewistown this week William E. Peffer was tried for felonious assault upon his twelve-year-old sister-in-law, whom he dragged from a buggy and outraged while taking her home from a neighbor's. The jury brought in a verdict for simple assault and recommended the prisoner to the mercy of the court. The judge censured the jury for not finding him guilty as indicted, as he then could have given him a longer sentence. As it was he gave him the full extent, \$25 fine and two years in the Western penitentiary.

Uniformity in Fees.

The lack of uniformity in charging fees for taking out naturalization papers in the several counties of this state has impelled the auditor general, after receiving an opinion from the attorney general, to send notices to all prothonotaries stating that it is the imperative duty of each to charge \$1.15 when a foreigner files his declaration of intention to become a naturalized citizen and \$1.25 when the subsequent papers are issued.

A Good Walk.

There is now a good, stiff board walk over the long stretch between Kerlin's and Runkle's, a thing needed for the past two years in place of the dangerous one off referred to in these columns. An improvement is the nailing of the boards crosswise instead of lengthwise, the latter method causing such a walk to be more slippery than ice in wet weather. It is four feet wide, which is sufficient. We chalk you a merit mark for it.

A Complete Store.

During the week of the picnic Harper & Kreamer will be found at their usual stand on the grounds, where a purchase of any kind can be made.

Green Goods Men Lose for Once.

The Green Goods men of Jersey City and New York are out \$3,000. They induced a farmer to take it and he took it and kept it and has it yet, although two of the gentry assaulted him and tried to get it away from him, but he held on to the grip in which he had the money and is now considerably richer than before he visited New York. Their scheme is to count out a lot of good money and let the victim examine it, and then after he has examined it they pretend to wrap it up for him but here is where they deceive him, for they substitute brown paper, shavings, &c., for the money, and the victim never discovers the fraud until he opens the package on his way home. In this case the farmer, after receiving the money, preferred to hold on to it and did hold on to it, and the sharpers seeing that they were to lose their cash let the farmer go until he entered a street car when they assaulted him, but they failed to get back their \$3,000. Now, why shouldn't the sharpers have had the farmer arrested for beating them, the same as is usually the case when it goes the other way.

Captured at Last.

The wild man who for some time past has terrorized the citizens of Potter county by his presence there was captured on Friday last by a posse of nearly a hundred citizens. The man was first discovered by some women while berrying. He was not afraid of women but would flee at the presence of a man. Wonderful stories are told about the marvelous strength of the captured man. He is said to be nearly seven feet in height and his body is covered with long hair. Flowing locks, two feet in length, hung down his back and his hands are said to resemble long bird-like claws.

Death the Result.

Intemperate eating, as well as intemperate drinking has its fatal results. William Seaworth, a young farmer living near Chana, made a wager with his sister that he could eat more water-melons than she could. The offer was taken up. The boy is dead and the girl, it is thought, cannot recover.

Jas. Boss Filled Watch Cases

are all gold as far as you can see. They look like solid cases, wear like solid cases, and are solid cases for all practical purposes—yet only cost about half as much as an out-and-out solid gold case. Warranted to wear for 20 years; many in constant use for thirty years. Better than ever since they are now fitted, at no extra cost, with the great bow (ring) which cannot be pulled or twisted off the case—the

Non-pull-out

Can only be had on the cases stamped with this trade mark. All others have the old-style pull-out bow, which is only held to the case by friction, and can be twisted off with the fingers. Sold only through watch dealers. Send for a watch case opener to the manufacturers.

The Human Electrical Forces!

How They Control the Organs of the Body.

The electrical force of the human body, as the nerve fluid may be termed, is an especially attractive department of science, as it exerts so marked an influence on the health of the organs of the body. Nerve force is produced by the brain and conveyed by means of the nerves to the various organs of the body, thus supplying the latter with the vitality necessary to their health. The pneumogastric nerve, as shown here, may be said to be the most important of the entire nerve system, as it supplies the heart, lungs, stomach, bowels, etc., with the nerve force necessary to keep them active and healthy. As will be seen by the cut the long nerve descending from the base of the brain and terminating in the bowels is the pneumogastric, while the numerous little branches supply the heart, lungs and stomach with necessary vitality. When the brain becomes in any way disordered by irritability or exhaustion, the nerve force which it supplies is lessened, and the organs receiving the diminished supply are consequently weakened.

Physicians generally fail to recognize the importance of this fact, but treat the organ itself instead of the cause of the trouble. The noted specialist, Franklin Miles, M. D., LL. B., has given the greater part of his life to the study of this subject, and the principal discoveries concerning it are due to his efforts. Dr. Miles' Restorative Nervine, the unrivaled brain and nerve food, is prepared on the principle that all nervous and many other difficulties originate from disorders of the nerve centers. Its wonderful success in curing these disorders is testified to by thousands in every part of the land.

Restorative Nervine cures sleeplessness, nervous prostration, dizziness, hysteria, sexual debility, St. Vitus dance, epilepsy, etc. It is free from opiates or dangerous drugs. It is sold on a positive guarantee by all druggists, or sent direct by Dr. Miles Medical Co., Elkhart, Ind., on receipt of price, \$1 per bottle, six bottles for \$5, express prepaid.
