Lincoln's Opinion.

Abraham Lincoln was 6 feet 4 1/2 in. in height. Talking with some friends one day, the subject under discussion was how long a man's legs ought to be. Mr. Lincoln said he had given much thought to the matter, and had come to the conclusion that they should be long enough to reach from the body to the ground.

Wild Turkeys Close to Kitchens.

A flock of about 20 wild turkeys has been promenading back and forth across the pike about half a mile above town within the past three weeks. Whether any of the gobblers will grace thanksgiving tables to-day, depends upon the skill of our shootists.

A BULLET 30 YEARS IN HIS HEAD.

A Centre Hall Soldier Shot in the Eye in Battle in 1864.

The Battle of Cold Harbor was fought in June, 1864. John Riter, the veterinary doctor of this place, was in the engagement and where the leaden hail fell thickest. Doc. Riter belonged to a company of Massachusetts sharpshooters; he afterwards re-enlisted and became a member of the 184 Reg. P. V.

At the battle of Cold Harbor, June 3, 1864, a bullet from the enemy's lines entered the left eye of Mr. Riter, and passed to back of the ear and has remained in the back of the head ever since and where it is likely to remain for the rest of his life, having already carried it there 30 years up to June 3, last. His left eye, of course, was totally destroyed when struck by the ball. He suffers much pain in his head, at frequent intervals, but a robust constitution keeps him up. He may not have the same good fortune, as Jacob Dunkle, cited by the REPORTER three weeks ago, who coughed a minie ball from his mouth, which had entered one of his eyes in battle 30 yrs. before.

Painful Accident.

Early on last Tuesday morning Fred Burd, who makes his home with Wm. Haines, at Wolf's Store, started for Coburn with a heavy load of lumber. He was sitting on top of the load and when he came to Sholl's hill reached for the break-lever. The lever slipped out of his hand, causing him to lose his balance, and he fell under the wagon. The hind wheel passed over his chest, inflicting a very serious internal injury. Nevertheless, he was able to walk back to Haines' place, fully one-half mile from where the accident happened. When he got into the house and made known what ailed him, Mr. Ira Brungard, a neighbor, went for Dr. Bright, who arrived about three hours later. Upon examining the injured man he found that the casing of the lungs was broken and that his condition was precarious. He suffers excruciating pain and can hardly be expected to survive his injuries. He is a son of Frank Burd, of Aaronsburg, and is about 18 years old. —Millheim Journal.

Hastings' Libel Suit.

Next Monday is the day set for the trial of the libel suit of Governor-elect Hastings against F. J. O'Connor, City Solicitor of Johnstown, for some utterances Mr. O'Connor is said to have made during a campaign speech last month, alleging that General Hastings had secured a large amount of Johnstown flood money. Prominent persons who know the facts say that the case will not come to trial, and that the proceedings will be quashed, since the General gained his point by his election.

The Debt Goes With Them.

THE Bowmanites recently came into possession of the Evangelical church at Carlisle, but with it went a debt of about \$4000. They are few in numbers and are negotiating for the sale of the property. This is the situation of a few Evangelical churches in our county; the one at Millheim has a debt of some \$2000.

Getting Early Start for Sheriff.

Snyder county patriots are starting in early for sheriff, and are already on the race course for '96. It is said that there will be eight Republican candidates for that office in little Schneider in 1896. Each of these candidates is already moving on the quiet.

To Be Wedded.

A HOME WEDDING.

J. Miller Goodhart and Miss Lettie Ross Married on Thursday Evening.

Last Thursday evening there was a quiet little wedding at the home of Mrs. Mollie Ross, on Church street, at which her daughter, Miss Lettie, and J. Miller Goodhart, were the contracting couple.

Only the connecting families were present, and at seven o'clock the ceremony took place, the couple presenting themselves before Rev. Wright, of Milesburg, who officiated. A supper followed, and the evening was pleasantly spent.

The next morning the bride and groom departed on a wedding trip, and remained away about a week. Miller is one of our best young men, and is a member of the firm of Dauberman & Goodhart, our undertakers and furniture dealers.

Hunters' Game Harvest.

The Gentzel and Horner hunting party returned from a week's hunt in Clearfield county, five in number and killed five fine deer, and of these one of the Gentzels shot three. Go up head, Gentzel and stay there until some other feller beats you.

The Woodward and Coburn hunters returned from Clearfield county with three deer.

The Bradfords are going to Stone creek next week for a deer hunt.

Keystone Harter, of the "Gazette," was on a bird hunt to Snyder county last week and returned with thirty quail and half dozen pheasants; and now there's nothing in Snyder county any more that wears feathers.

Is This Law Constitutional?

The question of the constitutionality of the Brooks high license law was recently raised in the Huber case at Carlisle, and a new trial was asked for the reason that there is a conflict between the title and the body of the law. Judge Sadler overruled the motion for a new trial, but held that there is reason to believe the law is unconstitutional so far as it relates to selling on Sunday. He did not sentence Huber on that count, but gave him three months in jail and \$500 fine for selling without a license.

A Perry County Lawyer Sentenced.

At the August term of the Criminal Court William Orr, a well-known member of the Perry county bar, was convicted of embezzling \$150 belonging to F. H. Richler, a client, of Dauphin county. A motion for a new trial was overruled and Judge Lyons sentenced Orr to pay a fine of \$100, undergo an imprisonment of six months and be debarred from further practice at the Perry county bar. That's both timely and right. Let lawyers take warning.

A Tramp Found With His Throat Cut.

An unknown tramp, about twenty-two years of age, was found murdered in the woods, a short distance above the freight house in Tyrone on an early hour Tuesday morning. A gash in the left side of his neck four inches long and about two inches deep told the tale. He was seen in Tyrone Monday perfectly sober and it is thought was murdered by two tramps who were known to be in that vicinity.

The Sick List.

Wesley Loehr is quite low of consumption with no hope of recovery. Wesley was one of the good, well-behaved boys of our town.

Mrs. Boob, of this place, had a severe attack of hemorrhages last week, but has recovered again.

Mrs. D. K. Geiss has been ill for several weeks from general prostration.

Mrs. Olie Mayes is still laid up from an all summer's illness.

A Bad Accident.

A peculiar and bad accident occurred on Friday to Will Gentzel, the school teacher at the forge. Hearing one of his scholars using profane language, and not desisting when spoken to, Gentzel started after him on the run. He in some way made a misstep, breaking his leg in two places. And so great was the momentum with which he was going that the broken bone protruded through the flesh and through his clothing.—Daily News.

A NEW DEPARTMENT.

Added to the Pennsylvania State College Dairy School.

So much has been said of late concerning the possible danger of the introduction of such diseases as tuberculosis or consumption, diphtheria, typhoid fever, scarlet fever, etc., through the use of milk and cream from infected cows or from infected places, that a strong demand has sprung up for dairy products known to be free from possible contagion.

To fit men to meet this demand the Pennsylvania State College has just completed arrangements for giving a course in milk and cream pasteurization and dairy bacteriology in connection with its Dairy School this winter. Orders have already been placed for necessary apparatus, and a trained specialist will have charge of the work. Students in the Short Course in Agriculture may elect this study in preference to an equivalent amount of work in some other line by the approval of the faculty.

These courses open January 2d and continue six and twelve weeks respectively. Application for enrollment should be made as early as possible.

H. J. WATERS, Prof. of Agriculture, State College, Pa.

To Change Locomotive Whistles.

For some time past the Pennsylvania railroad company has been using an improved whistle on some of its passenger engines. It is not as shrill as the old ones, but very much like those on steamboats. It has been adopted in order to distinguish passenger engines from those of freight engines. For a long time there were but two whistles of this kind on the Philadelphia division. One was on a pay car and another was on an engine which pulled express trains. Now the whistle is in use on a number of engines and every passenger engine will be equipped with one in a short time.

Diphtheria at Pl. Gap Abating.

We are pleased to learn that the diphtheria plague is dying off at Pleasant Gap. Some five children have died from the scourge. We are informed that Mr. Clemens' diphtheria remedy was used with the same good effects as have resulted from its use in other localities.
