MILLHEIM

News of the Week as Gathered by Our Correspondent.

Elmer E. Noll and Dr. Fred E. Gutelius were to Loganton on last Monday on business. Dr. Fred was over to see about starting a branch dental office, and Noll looking after the carriage and wagon trade.

On last Saturday a heavy storm passed this way, and on Sunday was very cold, and Sunday night it was so cold that garden "sass" got a complete setback, as well as the early corn and potatoes; in some places the early bean stalks were as black as night, and many plum trees by their shriveled foliage show that they were not passed by on the other side.

The condition of Dr. S. G. Gutelius, who has been sick for some time, at this writing has not improved very much. Heart trouble and dropsy are the ailments.

The foundation for the new house of Fred O. Hosterman, on Penn street is up and ready for the carpenters.

Rumor says, and it is no doubt wellfounded, that there are some young men in this locality who are fishing with nets in our trout streams. If have respect for yourselves but will have the respect of others.

BILL VETOED.

Governor Hastings vetoed the bill giving a married woman the same right and power as an unmarried woman to sell or otherwise dispose of her real estate and the authority to make and execute any written contract or deed in the same manner and to the same extent as an unmarried person, saving to the husband only his right as tenant by courtesy. The governor says in his veto message that to give married women the uncontrolled power to dispose of or mortgage their real estate is to invite ill-considered and selfish advice from meddlesome and impecunious relatives and to afford new opportunities to the intinerant speculator on the credulity and inexperience of the people. He believes this legislation would not prove beneficial to married women, and on the other hand, is likely to be productive of bad results.

in Elk Creek that measured fourteen inches; the largest trout that was caught here this season.

"Billy" Tobias caught a trout in Elk Creek that measured 51 inches, and it is supposed that he caught the smallest one this season.

H. H. Weiser who has been confined to the house for some months, is improving some so that he is able to walk around but unable to work at his trade.

A. A. Frank, the merchant on North street will this week move his barn in order to make room to build an extension to his store room, of which he stands in need of for his increasing trade.

On last Sunday the following gentlemen of Bellefonte came to town on their bicycles and partook of a trout dinner at the Musser House: Geo. T. Bush, Charley Richards, Ben Bradley, Harry Yeager, Harry Taylor, Jake Gross, Roe Wyle, J. S. Waite, C. B. Williams and Geo. S. Williams. There would have been more but on account of the muddy condition of the roads the rest staid at home and went to church.

Harry and Geo. Ishler, of North St. have constructed a fish box which is supplied with fresh running water, in which box they have from 75 to 100 trout in sizes from 6 to 10 inches. Some of the trout are so tame that they can be handled without any trouble.

John Harshbarger and Mrs. Lizzie Kerstetter were married last Tuesday evening; Rev. Ralph Illingworth tied the knot.

Don't Feed Corn to Fowls,

In many parts of the country people are realizing the injurious effects of feeding Indian corn to fowls, though there is still a vast quantity of this grain used. At one time, with wheat and other cereals high in price, it was scarcely to be wondered at if something that was cheaper was adopted; but in these days, with wheat at its present low value, and barley, oats, etc., relatively cheap, there is no excuse what-ever for feeding Indian corn. Its effect is seen to a large extent in covering the intestines with yellow fat, and this is borne out by many poultry keepers who could not account for the circumstance. The organs become congested, stance. The organs become congested, and we have liver disease, apoplexy, etc., as a direct sequence to the use of this grain. Where there are fowls liv-ing on a cold, bleak, exposed place, the oil in corn would be of some service, but in a temperate clime it is positive-but in grain. ly injurious.
