And the half has not been told. In the field,

G. R. SPIGELMYER, SHERIFF SPIGELMYER, JR. Bellefonte, Pa.

THE FARMERS.....

Feel happier since the abundance of rain, prospects for crops are brighter, with advanced prices for their products, they will once more take fresh courage, gather in their bountiful harvests, forge ahead, eat and sleep better than they have for the past two years.

HOW ABOUT THE MERCHANT?

If the farmers fare well, the merchant will soon feel the effects; the farmer is the merchant's mainstay. Our aim is and has been to receive your patronage. Give us a trial, we will treat you fair and honest. Prices the lowest, goods marked in plain figures, one price to every person. When in town the next time stop in.

W. T. MEYER, Bellefonte.

Bush Arcade, Two doors from postoffice.

B. Y. P. U. AT BALTIMORE, MD.

One Fare for the Round Trip via Pennsylvania R. R.

The Fifth International Convention of the Baptist Young People's Union of America will be held at Baltimore, Md., July 18 to 21, and for that occasion the Pennsylvania Railroad Company will sell, July 16 and 17, excursion tickets to Baltimore at a single fare for the round trip, good to return until August 5 inclusive.

Badly Scalded.

The two-year old son of Ed. Foreman, who lives with his grand-parents, Mr. and Mrs. A. P. Luse, at the station, was badly scalded on the 27th ult, by upsetting a dish of boiling water over himself. The skin peeled off where the hot water struck him, and for several days he was in a precarious condition. He is now on a fair way to recovery.

After-Harvest Term.

The after-harvest term of select school will open at Spring Mills, on Monday, July 22nd, the term to continue six weeks. Prof. D. M. Wolf will be in charge, assisted by Prof. W. F. Zeigler. Prof. Wolf recently closed a most successful term, and the coming term promises to be equally as successful.

Rapidly Improving.

Mrs. Lucy Henney, who had a fifteen pound tumor removed in a Philadelphia hospital about three weeks ago, is rapidly regaining her health. She is now able to walk about her room, and about August 1 expects to be discharged from the hospital and return home.

Death of Philip Royer.

Mr. Philip Royer, a well known resident of this county, died Monday morning at his home near Clintondale, from a complication of diseases, aged 69 years.

Owing to the fact that Lyon & Co., of Bellefonte, must make room for a large stock of spring goods, they now offer their entire winter stock at such prices never before heard of in this county. See their advertisement in another column on page five.

GOING AHEAD WITH THE BUILDING.

Work Progressing Rapidly on the New Reformed Church.

For the last ten or twelve days a number of the members of the congregation have been at work digging the foundation for the new Reformed church, down town at the edge of the woods.

Robert Cole, of the firm of Robert Cole & Co., of Bellefonte, whose design has been accepted by the congregation, was over and started the men at work, and it is being pushed right along. The location is very rocky, and much heavy work must be done. Blasting with dynamite must be resorted to to loosen the rocks. The loose ground has been used to terrace the lot, which will greatly add to the beauty of the new structure. The masons will be started to work on the walls as soon as possible.

The old church on Church street, which has done service for so many years, will be razed to the ground next week. Next Sunday Rev. Eisenberg will hold the last service in the building. Several members of the congregation, who have been worshippers there since its erection, will see the old building torn down with a pang of regret. As much of the timber as possible will be used on the new building.

The congregation has rented the Evangelical church in this place for holding their services until the new building is ready for occupancy. A letting will be held this week when bids will be considered from contractors.

The Triennial Assessment.

The commissioners are through with their tour of the county holding appeals from the triennial assessment. The kicking against the assessment was general in every district, and they had to listen to many a tale of woe over the depreciation of real estate and in some instances were roundly berated by irate individuals who thought they were rated too high. It is remarkable how land does drop in value just about this time every three years. Some apparently were anxious to sell their land at the assessed valuation, but then a purchaser was not in sight. It was an unpleasant duty for the officials to sit in judgment during the appeals and they are heartily glad their work is over.

Died at Millintown.

On Thursday, June 27th, Mrs. Rebecca Kelley, wife of Anthony Sandoe, died at Millintown, Pa., in the 71st year of her age. She was the mother of seven children, six of whom, with her husband survive her. Of the sons, W. A. Sandoe, our merchant tailor, is one. Her illness was long and lingering, and baffled medical skill. An autopsy was held when it was discovered that she had cancer of the stomach and bowels. She was buried on the following Sunday, her four sons acting as pall bearers.

Don't Do It, Boys.

Older boys should not make sport of a younger one in a manner to call forth from the latter the most horrible oaths and then laugh over each utterance of profanity. This is encouraging an already too fast-growing sinful vice into which smaller boys are led, thinking it sounds big if they utter shocking oaths. We are led to these remarks by an occurrence of this kind a few evenings ago—and it is not a rare thing. It is most vicious and debasing.

Feels 24 Inches Taller.

Sam McClintick having been out fishing two times last week found a few dozen trout careless enough to let him hook them, and now he feels just two feet taller, and claims a right to enter the ranks of the rest of us big trout fishermen. All right, Samuel, step into the ranks, you won't be black-balled—any fellow who can catch trout is to be sneezed at.

Joke on Snyder County Teachers.

At the election of school teachers, for Selingsrove, a few days ago, all the places were filled except the assistant principalship. The board is deadlocked on this matter. The more intelligent public are disgusted at the fact that the Board of Directors elected two teachers to the most responsible positions who misspelled twenty-six and sixteen words respectively out of thirty-five common words assigned them.

A Handle Factory.

The large new building at the station which enterprising Wm. Colyer proposes to erect, will we are informed, be devoted entirely to a handle factory. The valley abounds in wood necessary to supply the factory, and it will prove an important industry for the town, employing a number of men.

Bucktail Reunion.

The reunion of the famous Bucktail regiment survivors, will be held in Lock Haven September 4th and 5th, next.

—Read Lyon & Co's great spring opening on page five of the REPORTER. They offer some extraordinary bargains in all departments of their store. Their stock is larger than any in this part of the state, and a dollar invested there brings returns.

CAUGHT THE WRONG BIRD.

Shot two Toes Instead of a Hawk He Was Waiting for.

On last Sunday afternoon, Will Shafer, living near H. D. Rossman's, about 4 miles east of here, met with a painful shooting accident which puts him minus the two toes nearest the big toe of his right foot. Mr. Shafer with gun was on the watch for a chicken-bawk which had been playing thief among his hens. Thoughtlessly he rested his gun, muzzle down, on his foot, with, he says, trigger half-cocked. From some to him unknown cause, the gun went off, and with it went one-half the right toe and the entire second toe. Harvey Rossman living near-by, at once took Mr. Shafer to Dr. VanValzah, at Spring Mills, who found it necessary to amputate what was left of the one toe and dressed the foot. Shafer suffered considerable pain in the evening from his injuries, but prospects for healing all right are good, and he can now count eight toes only where once there were ten.

The 4th in the Mountains.

The only celebration of the glorious 4th in this valley that we know of was at Shreckengast's in one of the gaps on south side of Gregg, where all the mountain folks were free to attend and give ear to the screams of the big American eagle and give vent to patriotic feeling as to each one seemed fit. The girl and her boy were there, and there were ginger-cakes and small-beer and mint-sticks, and the like, amid shades of the forest and the incomparable beauties of the blooming rhododendrons—decorations by the inimitable hand of nature. It wound up by a dance in the evening. What a day it must have been for the mountain denizens! They tell us hops are frequent in at Shreckengast's where a permanent platform has been erected for the purpose.

Base Ball Melange.

The Centre Hall ball team have several games on hand to be played in the next few weeks. Next Saturday they go to Jacksonville, below Bellefonte, to try their luck. The following Saturday the grounds have been engaged by the Rebersburg and Boalsburg ball teams who will cross bats at this place in the forenoon. In the afternoon the Centre Hall team expect to have a try at Rebersburg, provided the latter withstands the slaughter in the morning. It will be an exciting day for the town, and will have ball on the brain for several days previous and after the game.

Decent Burial for a Soldier.

By a decision of the supreme court handed down recently, when a veteran who is very poor dies, his family may bury him and the county shall stand the expenses up to \$50. The custom has been in some counties to bury such unfortunates by contract, let to the lowest bidder, the same as in cases of ordinary paupers. The supreme court says that the law intended that old soldiers should have a decent burial, and that the county should pay a moderate expense.

Huckle Berries Galore.

It is claimed that 800 bushels of huckle berries have been picked in the mountain on the south side of Georges Valley. This may be stretched, but it is true nevertheless that the berries have been plenty in there, and the season not over yet. They are the low-blue huckle berries; next come the medium height stocks, which are also full, and will ripen within ten days; then come the high ones which ripen still later.

Badly Cut.

Several days ago Will Martz, tenant on ex-Sheriff Spangler's farm near Tusseyville, was cutting at a stick of wood with an axe, when he accidentally cut himself in the right arm, severing an artery. He lost a great amount of blood before the flow was stopped, and the attending physician, Dr. McGeehon put five stitches in the gash.

A Cosmopolitan Business.

Wm. W. Boob, our manufacturer and jobber of vehicle wheels, does not confine his business entirely to the United States, but has repeatedly filled orders for Germany, Norway, the Island of Java, and the West Indies. He is seriously considering making extensive additions to his plant, and an equipment of much machinery.

Making Big Hauls.

Parties from Centre Hall have made large hauls lately of eels, catfish and suckers from Sinking Creek, in the old Stone mill dam, across the valley. Sheriff Condo and a party from Bellefonte, made a large catch last week and went home well loaded.

—A tremendous drive in all lines of gent's furnishing goods and clothing is being made at Lewin's, Bellefonte. Their reputation is long established and the prices way below the lowest.

Clay Wosterd Suits worth 12.00 and 15.00, our price, 7.00 and 8.00. Lyon & Co.

HOW THE FOURTH WAS SPENT.

Great Big Hunks of Silence Hung Over the Town.

The Fourth was a very quiet affair in Centre Hall. No effort was made to have any sort of attraction for the day, and those who could went to other places, the bulk taking in the picnic at Hecla, some to Williamsport, and a few who cared not and could not, stayed at home. The town was almost deserted, and had not the small boy kept up an occasional burning of powder, one was inclined to think it was Sunday and gone to church.

Millheim had a little celebration, which interested the citizens to a certain extent, a number of contests were held such as potato races, etc., and the day was spent in that manner.

State College went to considerable trouble and had a good time. A game of ball, climbing a greased pole, catching a greased pig, running races, etc., was the programme. Between State College and Hecla the county was divided, and each place was well represented.

Williamsport had the big time for this part of the state in celebrating their centennial. It continued over three days, and thousands of visitors went to that city. The city did the business successfully and many a twist was given the British Lion's tail.

Dr. O. P. Bollinger Dead.

Dr. O. P. Bollinger, a native of Aaronsburg, died at Apollo, Pa., on 4 inst., aged 68 years, and leaves several adult children. His wife was Maggie, daughter of Adam Gentzel, who was a well-known landlord at Aaronsburg over 40 years. The deceased was familiarly known in the eastern end of this valley as Perry Bollinger, and was a brother of George, Michael, David, Thomas and Emanuel Bollinger; the father was Jacob Bollinger a citizen of some prominence in his day. Of the brothers Michael, in Ohio, and Emanuel, of Phillipsburg, are yet living. The Dr. was an uncle of Mrs. Will Spangler, of Potter's Mills. After completing his medical studies he left Aaronsburg, and practiced his profession in Juniata valley. His illness ran over a period of four years. Like the entire Bollinger family, whom we knew intimately, the deceased was a gentleman of honor and integrity.

Who Carved Initials "M. F." on a Turtle?

The other day Harry Rossman, living near Logan's Gap, captured a full-grown land-turtle on his premises. On its lower shell we found plainly carved the letters "M. F." The letters are considerably worn down, indicating that the turtle has done some traveling since the initials were carved on its shell. The query is, whose initials are these? when were they put on and where was it done? If this item falls under the eyes of "M. F." his report would certainly be of interest in the science of turtleology, as to the reptile's age and its peregrinations.

New Fish Basket Law.

Centre county and outside fishermen will be interested to know that last week Gov. Hastings signed a bill which is of special interest to them. It makes it lawful now to use in the waters of this Commonwealth other than trout streams, eel pots made of wicker work or netting, the said eel pots to be of a length not exceeding five feet with an entrance to the same not exceeding two and one-half inches.

Not a Drug on the Market.

This is about the time of the year cherries are ripe, but only those who have had trees each year are aware of the fact, the public in general will scarcely know anything about it. The fruit is not a drug on the market, and between the small boy and the birds, mighty few will be harvested.

Broke his Collar Bone.

About ten days ago Johnny, the eldest son of Jerry Miller, was playing on Hoffer street with some boys, and was thrown hard, sustaining a severe fracture of the right collar bone. Johnny is a victim of accidents, and during his brief career has had both collar bones broken and an arm fractured.

Arrested for Forgery.

A fellow named Coxey was arrested in Lewistown on last Saturday evening for forgery. He presented a certificate at the Reedsville National Bank for \$100 on a Harrisburg bank and received the money. A telegram to Harrisburg revealed the fact that it was forged.

Nearly Through the Job.

The tract of timberland on which E. M. Huyett has been operating for some months, in the Seven mountains, south of Potters Mills, is about cut out and three weeks more will finish the job. Huyett is skinning around looking up another tract to operate on.

Destroyed by Fire.

The home of John T. Fowler, at Dix station, on the Bald Eagle valley railroad was destroyed by fire last Wednesday afternoon.

—You will want a new suit. You want it cheap and good, as well as of the latest cut. Lewins, Bellefonte, can accommodate you in every particular, and is bound to please.

ON THE WEATHER.

What Foster Has to Say About the Weather for This Month.

My last bulletin gave forecasts of the storm wave to cross the continent from July 6th to July 19th and 12th to 16th. The next weather disturbance will reach the Pacific coast about July 17, cross the west of Rockies country by close of 10th, the great central valleys 19th to 21st and eastern states 22nd. General rains will not occur with this disturbance and heavy rains will fall only in a few places of small extent. The rain period of the month will have passed before the dates of this storm wave and it will come in the drought period of the month. I do not mean to say that a general drought will occur, only that the last half of July, for the United States, will produce less rain than the first half of the month. The drought sections for July were noted in my last bulletin, which I regard as the most important weather bulletin I have issued. This storm wave will also bring some of the hottest days of the month, very hot in the Atlantic states. The warm wave will cross the west of Rockies country about 17th, great central valleys 19th and eastern states 21st. Cool wave will cross the west of Rockies country about 20th, great central valleys 22nd and eastern states 24th.

Clay Wosterd Suits worth 12.00 and 15.00, our price, 7.00 and 8.00. Lyon & Co.

Killed by Lightning.

In Clinton county, near Waterville a little girl aged 8 years, daughter of Henry Button, was killed recently by a stroke of lightning. The little girl was lying in bed with her twin sister before an open window. Her sister was unharmed.
