#### FOSTER'S FORECASTS

Predictions Given for the Month of Au-

My last bulletin gave forecast of the after an illness of several weeks, the spirit of Ella, daughter of Alfred and from July 28 to August 2, and the next Susan Hosterman, of near Centre Hill, will reach the Pacific coast about Aug. is a death deeply regretted by all her the close of the 4th, the great central valleys from the 5th to 7th, and the eastern states about the 8th. This disturbance will be of unusual force, and severe storms may be expected, accompanied by extreme temperatures. The first ten days of August will probably average cooler than the middle third of the month.

Warm wave will cross the west of Rockies country about the 3rd, great central valleys the 5th, and eastern states the 7th. Cool wave will cross the west of Rockies country about the 6th, great central valleys the 8th and eastern states the 10th.

Summing up my forecasts for the four crop months, March, April, May and June, only one error occurs. Southwestern Texas had more rainfall than calculated. For all other parts of the country the verification of my rainfall forecasts is the most remarkable event ever recorded in connection with meteorology.

#### - Tanana Shot Cattle in the Mountains.

A man named Bolinger, now in jail here but on another charge, tells a story about a party of four men, of which he says he was one, who shot and killed the young cattle that farmers had driven into the mountains for the summer up in Oliver or Wayne township. The men killed the steers as they needed meat, used what they wanted and left the remainder for the crows. The owners missed seven head in all. We have not heard if Bolinger divulged the names of his companions, but we infer that the case is being worked up by the proper authorities who it is to be hoped will be able to bring the guilty parties to justice .-Lewistown Free Press.

It is now proposed to telegraph daily to postmasters at distributing offices the weather forecasts, to be bulletined in their offices for the benefit of the public, and also to be mailed to outlying postoffices which can be reached in time to make the forecast of value. A simple device by which the forecasts can be readily and easily duplicated and stamped upon postal cards will be furnished co-operating postmasters by the weather bureau as well as the necessary postal cards for use in this connection.

## A Hair Pulling Match.

About ten days ago two women met in a berry patch in the vicinity of the Stone Mill, across the valley, and indulged in a little playful pastime of hair pulling. Meeting in the berry field they indulged in a wordy war. which finally ended in a first-class scrap. One was knocked down by a straight one from the shoulder, and when time was called, the finish showed several bald spots, numerous scratches, lots of rents of dresses, and a great amount of satisfaction to the victor.
