ANNOUNCEMENT.

SHERIFF.

We are authorized to announce that Jacob L. Rankle, of Bellefonte, will be a candidate for the office of Sheriff, subject to the decision of the Democratic County Convention.

RECORDER.

We are authorized to announce that A. R. Alexander, of Penn township, will be a candidate for the office of Recorder, subject to the decision of the Democratic County Convention.

A GOOD Democratic county ticket and next November will find it elected by an old-fashioned majority. We have good material and none other should be placed in nomination.

AN exchange says that the Reynoldsville woolen mill has orders enough in to keep it busy for a year. Other woolen mills make similar reports, so that they are prospering under the Wilson tariff.

We have received a copy of The Constitution, a new weekly paper, published at Parsons, W. Va., by Howard Spangler, a son of ex-sheriff Spangler, of this place and a graduate of the REPORTER office. It is a readable paper and Howard has our best wishes for success.

WELL, well! this Republican congress, with its big majority, is afraid to tackle either the money or tariff questions, after making such a big brag last year that would be done if congress got under their control. Get out—they are making a nuisance of themselves!

THE farmers of New Jersey have solid good sense and when their brethren in Pennsylvania are heard from by their actual representative men, they will be found on the side of honest money for their honest wheat.

The Jersey State Board of Agriculture reported adversely resolutions favoring bimetalism and the free coinage of silver at the ratio of 16 to 1, and demanding that all property protected by law should pay its full share of the cost of such protection. The latter was rejected from the committee's report because of its indefiniteness.

A resolution was adopted favoring a reduction of high salaries paid to State officers.

ENGLAND AND CUBA.

One of the many sensations about the Cuba question is the wholly invented report that England is negotiating for the purchase and annexation of Cuba. This rumor is simply an unmitigated fake, as there is no more likelihood of England annexing Cuba than there is of that great nation annexing the moon.

Under no contingency could the United States assent to the possession of Cuba by England. Even if Spain were to cede the island to England with all the solemnity of a treaty, it would be an act of war against the United States, and would be accepted as such by our 70,000,000 of people with absolute unanimity.

Spain does not possess Cuba today except in name. With nearly 100,000 Spanish troops on the island they do not hold entire possession of a single province, and the people of Cuba would at once resent their transfer to England. All their sympathies are with the United States, and the location of the island clearly indicates to what nationality Cuba should belong when her relations with Spain are severed.

Everything now points to the independence of Cuba. It is simply a question of how many lives must be sacrificed and how much property destroyed before Spain shall surrender the unequal conflict, and when the independence of Cuba shall have been recognized, the people can decide for themselves whether they will maintain their independent government or become part of the United States.

It is possible that this country may never obtain possession of Cuba but until the power of this great government shall be overthrown, it cannot be possible for England to extend her possessions to the annexation of that island. —Philadelphia Times.

"Saved My Life" A VETERAN'S STORY.

"Several years ago, while in Fort Snelling, Minn., I caught a severe cold, attended with a terrible cough, that allowed me no rest day or night. The doctors after exhausting their remedies, pronounced my case hopeless, saying they could do no more for me. At this time a bottle of

AYER'S Cherry Pectoral was sent to me by a friend who urged me to take it, which I did, and soon after I was greatly relieved, and in a short time was completely cured. I have never had much of a cough since that time, and I firmly believe Ayer's Cherry Pectoral saved my life." —W. H. WARD, 8 Quimby Av., Lowell, Mass.

How to Breathe.

Cultivate the habit of breathing through the nose and taking deep breaths. If this habit was universal, there is little doubt that pulmonary affections would be decreased one-half. An English physician calls attention to this fact, that deep and forced respirations will keep the entire body in a glow the coldest weather; no matter how thinly one may be clad. He was himself half frozen to death one night and began taking deep breaths and keeping the air in his lungs as long as possible. The result was that he was thoroughly comfortable in a few minutes.

The deep respirations, he says, stimulate the blood currents by direct muscular exertion, and cause the entire system to become pervaded with the rapidly generated heat.

G. A. R. COMMANDER

Jas. S. Dean, Gen. Grant Post, Rondout, N. Y. CURED OF DYSPEPSIA. Commander Dean writes: "As Chief U. S. Mail Agent of the U. & D. R. R., good health is indispensable. I found myself however all run down with Dyspepsia. I doctored and doctored, but I grew worse. I suffered misery night and day for fully two years. My case was pronounced incurable. I chanced to meet Dr. Kennedy about that time, and told him of my condition and he said, try a bottle of

DR. DAVID KENNEDY'S FAVORITE REMEDY

take it morning, noon and night, and it will cure you. I took the medicine as directed, but had no confidence in a cure, as my case had been tried by so many. After using it a week I began to feel better, and in a short while after that I was entirely cured. That terrible distress, everything I ate, breaking up sour in my throat had all gone and I have not had a moment's discomfort since. Today there isn't a healthier man and my appetite is grand."
