More He Crows, Less He Knows.

An exchange rings in like this: At twenty a young man knows it all; he likes to wag his active tongue and exercise his gall; he struts around in noble rage, the world is all his own; he laughs to scorn the world of age, and lists to self alone; he wears a window in his eye to see his whiskers grow; he thinks the ladies pine and die because they love him so; At forty he's knuckled down to biz; 'tis not till sixty that he knows how big a chump he is.

WILL COVER MORE TERRITORY.

The Millheim Telephone Company to Spread their Lines.

The Millheim Telephone Company is branching out and intend extending their lines to other parts of the county.

The company is incorporated and was recently granted a charter by the State Department. The line is now working between Millheim, Aaronsburg and Coburn. The lines will also be extended to Madisonburg and Rebersburg, and the principal points of Brush valley put in connection.

The company desire to extend their line up through Penns valley and have applied to the supervisors of Potter township for right-of-way for their poles and line. Application was also made to the borough council of Centre Hall. The council will voice the sentiment of the public by granting the application and letting them have it.

A Traveling Fraud.

The public is cautioned against a traveling fraud who has already victimized people in a number of towns in the state. He claims to be an agent of the government, and going to houses of the veterans says that the department is about to give orders for several hundred thousand blue army shirts, wishing to give the wives of the veteran a chance to make a little money, the government has decided to give the shirts out to soldier's families to make up. When he receives an order for the shirts the agent looks over the sewing machine in the house and finding that the stitch is not just right offers to change it for a dollar, the money to be given when the material for the shirt is delivered by assistant. His victims are now looking for the assistant.

Accidentally Drowned.

Adaline, the 6-year-old daughter of John Camp, of Milroy, was accidentally drowned on Saturday evening. She had been playing near the dam just back of her home, in company with her sister and Fannie Bunnell. The latter went out on the ice and broke through, the two Camp children following, and they, too, went through the rotten ice. John Davidson sprang in and rescued two of the girls, but could not get the third, as she was under the ice. The body was recovered after several hours' work.

Fatal Quarters.

An exchange says: "It seems that the twenty-five cent piece is about the most unlucky thing a man can carry. On the American quarter dollar there are 13 stars, 13 letters in the scroll held in the eagle's beak, 13 marginal feathers in each wing, 13 tail feathers, 13 horizontal bars, 13 arrow heads and 13 letters in the words 'quarter dollar.'" These twenty-five cent pieces, unlucky and coarse laden as they are, are gratefully received by newspaper men. The "devil" is our right hand man and we are not superstitious.

Big Chunk Girl.

We thought we had some heavy weight girls in Penn's valley—great arms full—but over in Millin county they have a chunk acoming that will take the cake. She is Edith Spigelmyer, 6 years 9 months old, and lives with her parents on what is known as the Carr property, along Honey creek, (she can't help but be a honey), and weighs 106 pounds, is 4 feet 2 inches high, with a waist measurement of 31 1/2 inches.

Potatoes and Grub Worm.

Dr. B. H. Warren, state economic zoologist, has been making some investigations with regard to the destructive insects now giving farmers so much unusual annoyance. He finds that the white grub worm, which is the larva of the June bug, is doing immense amount of harm among potatoes and from one hill a prominent farmer took thirty-six grub worms. German potash is recommended as a remedy for this trouble.

Removed to Centre Hall.

Rev. J. H. Erdman, the newly appointed pastor of the Evangelical church shipped his household goods to Centre Hall last week, and stored them in the basement of the church, owing to the parsonage being occupied by Rev. Goodling. The family are at present the guests of Mr. William Farmer, at Tusseyville. Rev. Goodling will occupy the property of Julian Fleming.

They Were Thick.

DIED AT SPRING MILLS.

Fernando Clark Succumbs to Pneumonia on Sat'day.

Last Saturday evening the death of Fernando Clark occurred at the home of his grandfather, Mr. Isaac Strunk, at Spring Mills, of pneumonia, at the age of about twenty years.

The young man was taken ill about two weeks ago with a heavy cold, which developed into pneumonia, and he died on Saturday evening. He was a bright and intelligent young man, and was very popular.

The funeral took place on Tuesday morning from the residence of his grandfather, and was very largely attended. The services were conducted by Dr. D. M. Wolf, and the interment was made in the Presbyterian cemetery.

A Good one on Schneider Gouandy.

The latest one on Snyder county is this: A fellow from the west end ridges, with his son Jakey, started with a load of rail-road ties for the station at Middleburg, a distance of 7 miles. On a telegraph post near the station was a collector's poster, headed, in big letters, "NOTICE." Says the old man, "Jakey, wot reads dat big letters on dat pole?" Jakey spells: "N-o, (no), t-i-e-e, (ties), No-ties." "Ei, ei, Jakey, dey don't wont no more ties and we'll jist turn round an' haul 'em home agin," says the old man, and back they hauled the ties.

Not to be Licked.

Some newspaper writers are endeavoring to convince the public that it is dangerous to moisten with the tongue the gum of any ordinary envelope for the purpose of closing it. They say that very little gum arabic is used in making this glue and that it is manufactured from parts of dead and diseased animals, thus making it possible to cause blood poisoning. This is worth considering for there may be something in it.

Drainage Needed.

It was emphatically demonstrated on Sunday that in certain portions of the town a system of drainage is necessary. A heavy snow and a hot sun covered the streets with water and a miniature river coursed through all parts of the town. Several yards were completely covered to considerable depth, and a few cellars were flooded. A few gutters would easily do all that is desired in conveying off surplus water.
