County Commissioners Cannot Evade the Compulsory Education Act.

The efforts of the commissioners of several counties in the state to evade the compulsory education act by refusing to pay the assessors for making the enumeration of school children will not avail. TIRES MUST ALL BE FOUR INCHES.

The Attorney General Gives an Opinion in

Reference to the Rebate. Attorney General McCormick gave the department of agriculture an opinion on the act passed by the legislature to encourage the use of wide tires upon wagons on the public highways. The opinion is in answer to a question from Secretary Edge as to whether a farmer residing near a large city, who has placed wide tires upon all his farm wagons except a covered wagon which John Love vs. Central R. R. of Pa. the city market, can claim the reduc- It would be a convenience. Jerry Sharer, administrator, vs. Sam- tion of road tax under the law so long as his one wagon has narrow tire.

The attorney general says the evident purpose of this legislation was to prevent as far as possible, the use of narrow tires on wagons upon which heavy loads were carried and to encourage the use of wide tires to that end that the roads should be injured as little as possible. He is of the opinion, however, that a farmer who uses week. a draft wagon with a narrower tire for the purpose of carrying 2,000 pounds or more, brings himself within the provisions of this act and is entitled to the rebate of one-fourth of the assessed highway tax.

If a farmer has a covered wagon which he uses for hauling market products to the city markets, presumably with a tire narrower than four inches, loads that wagon with 2,000 pounds or more, General McCormick holds, he is not entitled to the rebate of the tax, even although all his other wagons are equipped with the tires of the re-W.
