

# REV. DR. TALMAG.

## The Eminent Washington Divine's Sunday Sermon.

Subject: "The Division of Spots."

Text: "He shall divide the spoil with the strong."—Isaiah 61, 12.

In the Coliseum at Rome, where persecutors used to let out the half starved lions to eat Christians, there is now planted the figure of a cross. And I rejoice to know that the upright piece of wood nailed to a transverse piece has become the symbol not more of suffering than of victory. It is of Christ the conqueror that my text speaks. A kingly warrior, having subdued an empire, might divide the palaces and mansions and cities and valleys and mountains among his officers, so Christ is going to divide up all the earth and all the heavens among his people, and you and I will have to share in our Christian loyalty, for my text declares it, "He shall divide the spoil with the strong."

The capture of this round planet for Christ is not so much of a job as you might imagine, when the church takes of its coat and rolls up its sleeves for the work as it will. There are 1,500,000,000 of people now in the world, and 450,000,000 are Christians. Subtract 450,000,000 who are Christians from the 1,500,000,000, and there are 1,050,000,000 left. Divide the 1,050,000,000 who are not Christians by the 450,000,000 who are Christians, and you will find that we shall have to average less than three souls each, brought by us into the kingdom of God, to have the whole world redeemed. Certainly, with the church rising up to its full duty, no Christian will be willing to bring less than three souls into the kingdom of God.

I hope and pray Almighty God that I may know more than I do now. I know evangelists who have already brought 50,000 each for the kingdom of God. There are 200,000 people whose one and only absorbing business in the world is to save souls. When you take these things into consideration, and that the Christians will have to average the bringing of only three souls each into the kingdom of our Lord, all impossibility vanishes from the prospect. I know a man why I know a Sabbath-school teacher who for many years has been engaged in training the young, and she has had five different classes, and they averaged seven to a class, and they were all converts. Her times seven are thirty-five as near as I can calculate. So that she brought her three into the kingdom of God and had thirty-two to spare. I know a woman who has been in the kingdom of Christ, and her grandchildren, and I hope all her great-grandchildren, for God remembers a prayer seventy-five years old as though it were only a minute old, and so she has had her three into the kingdom of God and had more than 100 to spare. Besides that, through the telephone and the telegraph, this whole world, within a few years, will be brought within compass of the possibilities. Heedless that, omnipotence and omniscience are presiding in this matter of the world's betterment, and takes the question of the world's salvation out of the impossibilities into the possibilities, and then out of the possibilities into the certainties. The building of the Union Pacific Railroad from ocean to ocean was a greater undertaking than the building of the ark with the Gospel, for one enterprise depended upon the human arm, while the other depends upon almighty power.

Do I really mean that the earth will surrender to Christ? How about the uninviting portions? Will Greenland be evangelized? The possibility is that after a few more hundred brave lives are dashed out among the icebergs and the icebergs, the Polar region will be given up to the walrus and bear, and that the inhabitants will come down by invitation into tolerable climates, or those climates may soften, and as it has been postulated that the arctic region was once a blooming garden and a fruitful field, those regions may change climate and again be a blooming garden and a fruitful field. It is proved beyond counter by German and American scientists, that the arctic regions were the first portions of this world inhabitable; the world beyond human endurance, those regions were, by German and American scientists, found to be so warm and so good enough for human food and human lungs. It was positively proved that the arctic region was a tropical climate. Professor Beer, of Zurich, says the remains of flowers have been found in the arctic region, showing it was like Mexico for climate, and it is found that the arctic was the mother region from which all the flowers descended. Professor Wallace says the remains of all styles of animal life are found in the arctic region, and those animals that can live only in warm climates. Now that arctic region, which has been demonstrated by flora and fauna and geological argument to have been as full of vegetation and as warm as our Florida, has turned back to its original bloom and glory, or it will be shut up as a museum of crystals for curiosity seekers once in a while to visit. But arctic and antarctic in some shape will belong to the Redeemer's realm.

What about our unproductive or repulsive regions? All the deserts will be irrigated, the waters will be forced up to the great American desert between the Pacific by machinery now known or yet to be invented, and as Great Salt Lake City has no rain and could not raise an apple or a bushel of wheat in a hundred years without artificial help, but is now through such irrigation the great garden, so all the unproductive parts of all the continents will be turned into harvest fields and orchards. A half dozen De Lesseps will be made, and the canals needed and will change the course of rivers and open new lakes, and the great Sahara desert will be cut up into farms with an astounding yield of bushels to the acre. The marsh will be drained, the swamps cured of their malaria. I saw what was for many years called the Black Swamp of Ohio, its chief crop chills and fevers, but now, by the ties put into the ground to carry off the surplus moisture, transformed into the healthiest and healthiest of regions. The God who wastes nothing, I think, means that this world, from pole to pole, has come to perfection of foliage and fruitage. For that reason he keeps the crops from rotting, though so many fires are blazing down in its timbers and so many meteoric terrors have threatened to dash it to pieces. As soon as the earth is completed Christ will divide it up among the good. The reason He does not divide it now is because it is not done. A kind father will not divide the apple among his children until the apple is ripe. In fulfillment of the New Testament promise, "The meek shall inherit the earth," and the promise of the Old Testament, "He shall divide the spoil with the strong," the world will be apportioned to those worthy to possess it.

It is not so now. In this country capable of holding, feeding, clothing and sheltering 1,500,000,000 inhabitants, we have 2,000,000 who cannot get honest work, and with their families an aggregation of 5,000,000 that are on the verge of starvation. Something wrong, most certainly. In some way there will be a new apportionment. Many of the millionaire estates will crack to pieces on the dissipations of the grandchildren and then dissolve into the possession of the masses who now have an insufficiency.

cleanness and a child of hell!" Sworn to be the Lord's, you are perjurers. If you think these offenses are to go on forever, you do not know who the Lord is. God will wait for the day of judgment. All these palaces of sin will become palaces of righteousness. They will come into the possession of those strong for virtue and strong for God. "He shall divide the spoil with the strong."

China and Africa, the two richest portions of the earth by reason of metals and rare woods and inexhaustible productiveness, are not yet divided up among the good because they are not ready to be divided. Wait until the doors that Livingston opened in Africa shall be entered, and Bishop Taylor, with his hand of self-supporting missionaries, have done their work, and the Ashanti and Senegambians shall know Christ, and you know Him, and there shall be on the banks of the Nile and the Niger a higher civilization than is now to be found on the banks of the Potomac or the Hudson, and the great cities that contain among his friends, will divide up that continent among his friends. All that China, which is half as large as all Europe, shall have developed her capacities for rice and tea and sugar among dunes, and her amethyst and sapphire and porphyry among precious stones, and her rosewood and ebony and camphor and varnish trees among precious woods, and tin and iron, and copper, and zinc, and silver, and gold, and her 500,000,000 of people shall be evangelized. Then the Lord will divide it up among the good.

If my text be not a deception, but the eternal truth, then the time is coming when all the farms will be owned by Christian farmers, and all the commerce controlled by Christian merchants, and all the authority held by Christian officials, and all the ships commanded by Christian captains, and all the universities under the instruction of Christian professors, and Christian kings, Christian presidents, Christian governors, Christian mayors, Christian common council. Yet, what a scouring out! What an upturning! What a demolition! What a resurrection! What a new apportionment! What a new map! Do not underestimate the enemy. Julius Caesar got his greatest victories by fully estimating the vastness of his loss and prepared his men for his greatest triumph by saying, "I know how to win." Joba will be here with 30,000 horses, 100,000 skimmers and 300 elephants. I do not underestimate the vast forces of sin and death, but do you know who commands us? Jehovah! And the reserve corps behind us are all the armies of heaven and earth, with hurricane and thunderbolt. The good work of the world's redemption is going on every minute. Never so many splendid men and glorious women on the side of right as to-day. Never so many good people as now. Diogenes has been spoken of as a wise man because he prayed with a lantern at noonday, saying he was looking for an honest man. If he had had his lantern toward himself, he might have discovered a crank. Honest men by the 10,000! Through the international series of Sunday-school lessons the next generation will be wiser than any generation since the world stood. The kingdom is coming. God can do it. No household with a chamois cloth ever polished a silver teaspoon with more care than Christ will rub off from this world the tarnish and brighten it up till it glows like heaven, and then the glorious apportionment, for my text is re-echoed by a score of other texts, when it says of Christ, "He shall divide the spoil with the strong."

"But," you say, "this is pleasant to think of for others, but before that time I shall have passed up into another existence and I shall get no advantage from that new appointment. Ah, you have only driven me to the other more exciting and transporting consideration, and that is that Christ is going to divide up heaven in the same way. There are old estates in the celestial world that have been in the possession of the inhabitants for thousands of years, and they shall remain as they are. There are old family mansions in heaven filled with whole generations of kindred, and they shall never be driven out. Many of the victors from earth have already got their palaces, and they are pointed out to those newly arrived. Soon after our setting there we will ask to see the apostolic residences, and where does Paul live and John, and show me the patriarchal residences, and shall say, "Where does Abraham live or Jacob?" Do you want to see the martyr residences and say, "Where did John live and Bilety?" We will want to see the bonlivards, where the chariots of conquerors roll. I will want to see the garden where the princes walk. We will want to see the mansions where Handel and Haydn and Mozart and Charles Wesley and Thomas Hastings and Bradbury have their homes, out of their windows, ever and anon, rolling some snatch of an earthly oratorio or hymn transported with the composer. We will want to see Revival trace, where Whitfield and Nettleton and Payson and Rowland Hill and Charles Finney and other giants of soul rearing are turning out their almost supernatural labors, their doors thronged with converts just arrived, coming to rest themselves. But brilliant as the sunset and like the leaves for number are the celestial homes yet to be awarded when Christ to you and millions of others shall divide the spoil. What do you want there? You shall have it. An orchard? There it is—twelve manner of fruits, and fruit every kind. Do you want a vineyard? Take your choice of the banks of the river, in longer, wider, deeper roll than Danube or Amazon or Mississippi, if mingled in one, and emptying into the sea of glass, mingled with fire. Do you want your kind of acre again? Go out and meet your father and mother, without the staff or the stool, and your children in a dance of immortal glee. Do you want a throne? Select from the reports to have the throne of your want a crown? Pick it out of that mountain of diamond coronets. Do you want your old church friends of earth around you? Begin to hum an old revival tune, and from their flock from all quarters level with you in sacred reminiscence. All the earth for those who are here on earth at the time of continental and planetary distribution and all the heavens for those who are there.

That heavenly distribution of spoils will be a surprise to many. Here enters heaven the soul of a man who took up a great deal of room in the church on earth, but sacrificed little, and among his good words selfishness was evident. He just crowds through the shining gate, but it's a very tight squeeze, so that the doorkeeper has to pull hard to get him in, and this man expects half of heaven for his share of trophies, and he would like a monopoly of all its splendor and to purchase lots in the suburbs, so that he could get advantage of the growth of the city. Well, little by little he gets grace of heaven for his share of trophies, and he is never left her for twenty years; but she was strong in prayer—and she prayed after revival after revival and pentecost after pentecost upon the churches, and with her pale hands she kept a mite or a tip for the poor, and with her contrivances she added joy to many a holiday festival, and now with those thin hands so strong for kindness and with those white lips so strong for supplication she has won coronation and in-throneament and jubilee. And Christ said to the angels who have brought each a crown for the glorified invalid. "No, not these. They are not good enough. But in the jeweled vase at the right hand side of My throne there is one that I have been preparing for her many a year, and for her every pang I have set an anesthetic, and for her every good deed I have set a pearl. Fetch it now and fulfill the promise I gave her long ago in the skieorum, 'Be thou faithful unto death, and I will give thee a crown.'"

But notice that there is only one Being in the universe who can and will distribute the trophies of earth and heaven. It is the Divine Warrior, the Commander-in-Chief of the Centurions, the Champion of Law, the Universal Conqueror, the Son of God, Jesus. You will take thy spoils from His hands, never take them at all. Have His friendship, and you may defy all time and all eternity, but without it you are a pauper, though you had a universe at your command. He is so honored as to have the twelve gates of heaven named after them—over one gate of heaven Naphthal, over another gate of heaven Issachar, over the third gate of heaven Gad, over another Z-bulo, over another Judah, and so on. But Christ's name is written over all the gates and on every panel of the gates, and have His help. He is the Father, the Son, and the Holy Spirit. I must or be a forlorn wretch forever. My Lord and my God, make me, and all who hear me this day, and all to whom these words shall come, Thy repentant, believing, sworn, consecrated and ransomed followers forever.

What a day it will be! This entire assemblage would rise to its feet if you could realize it, the day in which Christ shall, in fulfillment of His promise, divide up the world. It was a great day when Queen Victoria, in the midst of the Crimean War, distributed medals to the soldiers who had come home sick and wounded. At the same time, in the midst of the Crimean War, the injured members of the Royal family, the injured members of the British nobility, the injured members of the British aristocracy, the injured members of the British gentry, the injured members of the British clergy, the injured members of the British military, the injured members of the British naval, the injured members of the British mercantile, the injured members of the British industrial, the injured members of the British agricultural, the injured members of the British manufacturing, the injured members of the British commercial, the injured members of the British professional, the injured members of the British literary, the injured members of the British scientific, the injured members of the British artistic, the injured members of the British musical, the injured members of the British dramatic, the injured members of the British theatrical, the injured members of the British sporting, the injured members of the British gaming, the injured members of the British gambling, the injured members of the British betting, the injured members of the British racing, the injured members of the British hunting, the injured members of the British shooting, the injured members of the British fishing, the injured members of the British boating, the injured members of the British oystering, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the injured members of the British scallops, the injured members of the British clams, the injured members of the British mussels, the injured members of the British oysters, the injured members of the British crabs, the injured members of the British mussels, the injured members of the British lobsters, the injured members of the British prawns, the injured members of the British shrimps, the
