DEMOCRATIC COUNTY TICKET.

- For Congress, J. L. SPANGLER. For Assembly, R. F. FOSTER, JAMES SCHOFIELD. For Sheriff, W. M. CRONISTER. For Treasurer, C. A. WEAVER. For Commissioners, P. H. MEYER, DANIEL HECKMAN. For Register, G. W. RUMBERGER. For Recorder, J. C. HARPER. For Auditors, FRANK W. HESS, B. F. KEISTER. For Coroner, DR. W. W. IRWIN. For Surveyor, J. H. WETZEL.

of England for the Democrats. In default of genuine expressions of sympathy in the English papers, forged extracts have been compiled and diligently circulated. Now that the entire British press, with hardly an exception, is solid for the Republican ticket and platform, the Republican organs hardly know whether to feel complimented or abashed. Such English sympathy as the Democrats had in their free trade crusade was due to the belief that trade was a good thing for everybody, and hence that the more freedom we had in this country the better it would be for the whole world, England and the United States included. There was no antagonism of interests there, but there is on the money question. England's interest in that is manifestly opposed to ours. She is a creditor nation; we are debtors. Hence her anxiety for Republican success in this campaign is really as significant as her desire for Democratic success in former years was said to be.

COL SPANGLER NOMINATED.

The Democratic congressional conference of this district met at Ridgeway on Tuesday and nominated Col. J. L. Spangler, of this county, for congress. There was perfect harmony and the nomination will receive the hearty support of the Democracy in every county of the district. Jack promises to make a lively campaign and he knows how. He is up to the neck for Bryan and free silver. His Republican competitor, congressman Arnold, on the day after the November election, will find himself knocked higher than any mountain in the state. The district must and will be redeemed.

Spangler's triumphant election will be one of over a dozen of gains of Democratic congressmen in this state next fall, and free silver and the farmers' and workingmen's interests will, for once, have the right-of-way in congress. Silver Republicans will see the importance of voting for congressmen who are sound on free coinage in addition to their vote for Bryan. Hence Bryan and Spangler must be their watchword.

THE COMMON PEOPLE PAY THE BILLS.

We copy the following from the N. Y. Journal and ask our readers what they think about it: "To-day the many in moderate circumstances pay for the maintenance of the Federal Government; the few who have acquired enormous fortunes enjoy its profitable favors. The fundamental services of government—protection to life and property—are indeed rendered with practical impartiality, but those functions of the state by the exercise of which private fortunes may be enhanced have ever been employed for the further enrichment of men already wealthy. Out of the taxes paid by the people on the clothing they wear and the tools they use must be paid the enormous indebtedness incurred by the nation that C. P. Huntington and his three colleagues in Pacific railway building might become wealthy. The American sailor has been sacrificed that three or four American shipbuilders may be millionaires. The hardy pioneer who is turning the Great American Desert into a flower garden paid during the long years of Republican domination heavy taxes upon the lumber of which he built his little shanty that the Alders and the Palmers of the Grand Old Party might become princes of pelf. Coal and iron may not be brought from near-by Canadian mines to the United States lest Mark Hanna should not make money enough to buy a Presidency or "Steve" Elkins wax rich enough to be a Senator. Nor in the esteem of those who have come to consider themselves the governing class in the nation are such pervasions of governmental power to the services of individual greed socialist. But if it be urged that the Post Office Department establish a parcels post system, as in England, the Hon. Thomas Platt, seeing his express business threatened, cries "Socialism!" If a postal telegraph system be suggested the voice of Gould is heard crying "Anarchy!"

It is perfectly appalling to read in the opposition organs of the dreadful things that will befall the country if Bryan is elected. Everything, they say, will go to the dogs. Factories will stop, mills shut down, stores close and no more work for the laboring classes. They might add there will be no more rain and that the sun will stand still and look on in pity.

This year will be noted for splits. It runs quietly that the grangers are having trouble and want a change in leadership. Grangers that heretofore wouldn't touch the Mt. Gretna encampment with a forty foot pole are now eager to be seen there hoping to give grand old Williams a backset. If true, its picknickal sacrilege and it becomes the farmers to stand united even if "the leaders" do get to hair pulling about the benefits and upper seats. For our part, we as ever, stick to the farmers who are not quarreling over pie.

One great calamity that is to follow the election of Bryan and free silver coinage will be to make the United States the dumping ground for the silver of all foreign countries. But, our blessed country produces more silver than the rest of the world; and as each silver producing country needs a large proportion of the metal for coinage and manufacturing purposes, surely to dump the balance here wouldn't be enough to cure "the silver craze" in a single patient.

THE DUMPING GROUND FOR SILVER.

Well, "to answer a fool according to his folly"—pardon the REPORTER for quoting scripture—say we have free coinage; a foreigner has a million dollars worth of silver bullion and brings the metal over here, we collect a handsome duty off of him and put that much gain into Uncle Sam's treasury. Then the foreigner lugs his bullion to the mint and has his grist ground into a million dollars. Now, pray, tell us, what is that foreigner going to do with that money? Why, you say, he will use it buy goods to be shipped to foreign lands. That would be a real good to our manufacturing establishments in creating work in and out of the same for American labor. Deny it if you can! He don't want to take his coined silver back with him because he could have had it coined over there, and if he does take it back then it goes to show the folly of the argument that our country, by free coinage, will become the dumping ground for the silver of the rest of the world. Now if there is an American manufacturer or shop that has been getting any other metal than silver for his goods we have not heard of him. If any farmer in Pennsylvania has received any other than paper or silver money for his products in the last ten years, let him hold up his hands. If any American farmer or manufacturer can have a foreign demand for his products is he not too glad for it and eager to take silver in payment for that's just the same money he has been getting these many years. Without a foreign demand for the products of our shops and farms the country would be in a sad plight, and the banks hoarding the gold will not give any relief under 12 to 20 per cent. If the silver of foreign mines were dumped into this country, naturally it would go up in price abroad and that would keep the metal there. If brot here under free coinage and used here in the purchase of American wheat, pork, implements, or any articles of manufacture, for export, would it not infuse new life into our workshops and farms? The country is attempted to being turned into a dump for all kinds of gold and silver, the banks, trusts, corporations and millionaires who have dumped on the people until the last breathing spell is nearly out of them. If there is to be any more dumping why let the other fellows do it for a while.

SPRING MILLS.

A Few Republicans Who are Trying to Find Some Consolation.

A few Republicans here, you might call them leaders—if there are such personages without a following, who are very much elated over the meeting of a few bogus Democrats in the insurance office of Charles Smith, in Bellefonte, a week or ten days since, and have been shouting that even the Democrats of Centre county are repudiating and denouncing the Chicago platform, and refer to their cabal as a large and enthusiastic meeting of sound money Democrats, when it is a notorious fact that the assemblage consisted of only ten or fifteen persons, and not five of them ever voted the Democratic ticket. The people here know all about the personnel of that meeting, and the bombastic statements of these "leaders" of course, was simply labor lost; but like a drowning man, they will catch at every little straw for relief, any little fizzle, and will magnify it into vast proportions in order, if possible, to stem the silver tide which is now sweeping over the entire country like a tornado. In these valleys the precious gold bug can make an impression. The farming community simply point to their depreciated farms as simply the "crime of 1873" demonizing silver and making money scarce and "dear," his farm and products have depreciated steadily, and knowing the prime cause, he is now determined to assist in effecting a remedy, to stop the drain before he loses home and all, by supporting Bryan and Sewall, regardless of past party affiliations.

LINDEN HALL.

Current Gospel of the Week as Forwarded by Our Reporter.

Some of your readers may think the Linden Hall correspondent has disappeared, which is not the case, but has just failed to appear at his post for a few weeks, which may have been caused by the "free silver" boom. The boom seems to have knocked the bottom out of some people, so deep an interest do they take in it.

The farmers in this section are fast preparing their soil for the golden grain, which is about to be sowed, and some of them have already worn the rust from their drill hoes.

Mrs. Henry Meyer, of Boalsburg, was a pleasant caller in and around our town on Tuesday.

Mary Miller, of Lemont, has again returned to her home after spending a few weeks with her many friends at this place.

Since 1878 there have been nine epidemics of dysentery in different parts of the country in which Chamberlain's Colic, Cholera and Diarrhoea Remedy was used with perfect success. Dysentery when epidemic, is almost as severe and dangerous as Asiatic cholera. Heretofore the best efforts of the most skilled physicians have failed to check its ravages, this remedy, however, has cured the most malignant cases, both of children and adults, and under the most trying conditions, which proves it to be the best medicine in the world for bowel complaints. For sale by Wm. Peeler, Spring Mills, S. M. Swartz, Tusseyville, and R. E. Bartholomew, Centre Hall.
