BANG! Up goes wheat and the speculator rakes in millions of gold sweet. But the farmer, he is left in the cheat!

AIN'T it about time "farmer" John Hamilton comes back from his gold stumping trip, and attends to boiling his apple butter?

ON Bryan's side are all the plow-holders. On the Hanna-McKinley side are all the bond holders. Think it over.

ALL the banks in the county and country, are openly or secretly for gold and against silver, because it brings them immense gains. Think it over.

The Republicans of Philadelphia have a bitter split on sheriff, which the Press thinks will cause Bryan to get 40,000 Republican votes.

The republican party is bigger than any man.—Altoona Tribune, rep. Not a bit; Markhanna is bigger, he carries it in his vest pocket.

A vote for Weaver, for Treasurer, is for a most worthy man, whose fidelity to the duties of the office none can question. Give him your whole support.

ON Tuesday at a monstrous silver parade in Chicago, eggs were thrown at Mr. and Mrs. Bryan, who were riding in a carriage in the parade. The goldites are getting desperate.

Bigger prophets than labor pinching Hanna have arisen; he prophesies McKinley will have 272 electors. A greater one, Quay, prophesies his man will have 302 electors; and, Apsley, Repub congressional chairman, prophesies the gold-bug will have 325 electors. The Bible prophesied truly, "there would many false prophets arise."

Ridgeway, Pa., Oct. 29, 1896. The price of silver from 1893 to 1872, ranged from 134 cents per ounce to 132. By the crime of 1873 congress was influenced by British gold to demonize silver, the natural effect was the American silver kept dropping until now it is down to 63. Now British gold is being used to defeat Bryan and prevent our American silver from again taking its place as money. Voter, farmer, workman, can you see who has been choking you?

Farmers, in P. H. Meyer and Daniel Heckman you have two worthy and well-known citizens from among your own class, for commissioners. They hail from two of the oldest and most esteemed families, the pioneers of our valley, and none of whom have held office or have been office seekers. To do their duty will be their highest aim in the important position of county Commissioners; their past lives, of unsullied reputation, are a guarantee that they will be faithful public servants.

No tax-payer can consistently vote for Harry Curtin and Phil Womelsdorf for assembly, since these gentlemen in the last session voted to squander hundreds of thousands of dollars in creating new offices and clerkships with fat salaries and in favor of raising the salaries of the old offices. Vote for Foster and Schofield.

Judge Simonton, rep., of Dauphin, on Tuesday scored some of the Philadelphia Republican organs with a red hot poker for trying a case in their col-

ums which was to be heard before him regarding the "McKinley citizens ticket" as to whether it had a right to be printed on the ballot. This is a purely Republican fight between two factions. The Judge charges these organs indecently attempted to influence the court and public opinion.

SILVER A SOUND PLATFORM. Yes, silver must be a sound platform which these truths attest:

The immortal Jackson, old Hickory, and all Democrats of his day, except a few bank-crats, were for silver.

Jackson set his foot on the banks when they tried to threaten him into their support.

Silver coinage was a principle of our government from Washington down to the crime of 1873, when English gold bribed our congress to demonize silver, and make a British gold standard for the United States!!! This is where the Republicans now flopped to.

Grant and Lincoln thought silver coinage should be upheld.

Blaine and Garfield strongly advocated silver coinage.

Palmer, Ingersoll, Waterson, and Shurz, strongly endorsed silver coinage.

Republican National platforms, previous to 1896, had strong silver resolutions in them.

The Ohio Republican platform of 1896, a few months before McKinley's nomination, contained a strong silver resolution AND McKINLEY WAS THE AUTHOR OF IT.

All McKinley's speeches and votes previous to his nomination for President by the goldbugs and banks, were very strongly for silver coinage whenever the currency question was up.

Two years ago McKinley wrote a letter to a prominent Ohio Republican telling him how proud he was of his record in favor of silver, and gave his friend the dates of his votes for silver.

All but two Republican state conventions held in 1894 put a silver plank in their platforms.

Now this should convince any Republican that silver is a good platform or else admit that the past history of his party, and of McKinley, was a fraud and falsehood.

In addition to this, in brief, we have Democratic testimony from Jefferson and Jackson down to this day in favor of free coinage of silver and gold.

In 1888 Cleveland was nominated on a silver coinage plank and strongly endorsed it.

According to the present Hanna-goldbug howl, the Republican and Democratic parties were made up almost entirely of "anarchists" bent on destruction of the country! The only exception being a few Bank-crats. What a high compliment the Hanna-money sharks are paying to the patriotism of the American people!

Vote for Bryan next Tuesday, he does not stand on the British gold platform. Bryan stands for the good, old American principle of silver and gold coinage. We whipped England in 1776 and in 1812, now we'll repeat the drubbing in 1896.

England and English gold shall not rule and oppress the American farmer and workman!

ARNOLD AND THE SOLDIERS.

Ridgeway, Pa., Oct. 29, 1896. Editor Democrat.—W. C. Arnold, the present representative in congress, and who seeks re-election, is a lover of the old soldier—not only for his vote. Mr. Arnold has had opportunity to assist some veteran from the 28th district, as did other representatives, by obtaining for him a position in the folding room at Washington where public documents, speeches, etc., are wrapped and mailed. This job is worth \$250 a day, and some 25 hands are employed—nearly all old veterans of the late war. Mr. Arnold was given opportunity to have a man appointed from his district, but no soldier was given the job! Jas. P. Baker, a brother of the editor and manager of the "Elk Advocate," was selected, and he has been having an easy time of it, as any old man can do the work after short practice. Mr. Baker has been at Ridgeway from the middle of June to the middle of September and came home again on Sunday last to assist in bringing about Arnold's re-election, but his pay (so he says) never stopped. Why did not Arnold assist some deserving soldier, instead of Baker, who is a printer, and could have had work at home. Probably Arnold knows, but there are a good many soldiers in the district who don't know.

REPUBLICAN SOLDIER.

QUAY A POOR PROPHET. Quay is prophesying the election of McKinley by not less than 272 electoral votes.

On November 1, 1892, Quay also prophesied for Harrison, as follows: "Mr. Harrison will be elected. It is my be-

lief that he will carry the states of New York, Indiana and Connecticut. Existing conditions are such that the electoral vote of New York will elect him without Indiana and Connecticut—Indiana and Connecticut will elect him without New York."

Harrison was not elected and Cleveland got the three states of Indiana, New York and Connecticut.

INGALLS ON GOLD.

Senator Ingalls, one of the Republican gods, said the following in a speech, Feb. 15, 1878:

"No people in a great emergency ever found a faithful ally in gold. It is the most cowardly of all metals. It makes no treaty it does not break. It has no friends it does not sooner or later betray. Armies and navies are not maintained by gold. In times of panic and calamity, shipwreck and disaster, it becomes the agent and minister of ruin."
