It is reported that the powers will make an effort to stop the war now begun between Greece and Turkey.

If the war goes on all the European powers may become involved in it.

According to the complaints of business men of Bellefonte, the advance agent of prosperity is not attending to his business.

Elections were held in Illinois this week, and the Democrats were victorious pretty much all over. Go on with the Dingley bill!

WAR is a great calamity at all times and should be averted. But if there is to be war between Greek and Turk, may the former come out victorious.

The Dingley tariff bill is alarming the whole country. It is framed in the interests of trusts and monopolies with nothing to gladden the hearts of but he finds little to do. the consumers.

Senator Quay is ill with a severe attack of the grip. The senator had the cent. "grip" on the Republican machine for fifteen years and always rather liked it and couldn't be driven to let go.

WAR has now been declared by Turkey against Greece. The Greeks crossed the frontier and had a brush bugged; instead of good times he sees with the Turks. The Turks bombarded the fort at Actium and Greek gunboats silenced the batteries at Shafida-

Wheat has gone up over 4 cents in the past few days, owing to unfavorable crop reports and the war clouds in Europe. McKinley had no hand in this rise. The jump has been 4 million dollars to the large wheat holders -but as always, the farmer isn't in it.

WHILE workmen were tearing down a part of the old Court House of Westmoreland county the other day a chest full of old records was unearthed, and found to contain documents signed by George Washington, William Penn, King George III and other noted men.

IT is a singular fact that an American citizen can view ancient ruins in of the delegation told the senatorsforeign lands, but that an eminent divine of the Methodist church, Dr. Swallow, is forbidden to view the ruins of the burnt capitol of his own state of Pennsylvania. Shades of Herculaneum and Pompeii!

The Long Mead iron company of Norristown and the Conshohocken tube company, of Conshohocken, are swamped by "prosperity", and gone into the hands of receivers. The failure is the largest that ever occurred in Montgomery county. The liabilities will amount to about \$300,000, and the assets will not be over \$150,000. Why not have Hanna and his advance agent of prosperity foot these bills?

Some of the troubles in store for the Dingley tariff bill in the senate are illustrated by amendments offered by Senator Nelson, Republican, of Minnesota. One of them declares all trusts illegal and void, and authorizes the president to suspend by executive order the collection of all duties levied upon any imported article the home product of which is controlled by a trust. The Republicans of the house rejected by a unanimous vote an amendment of this kind, the Democrats and Populists voting for it. We would not be surprised if such an amendment prevailed in the senate.

Republicans are beginning to hairker for free trade, and this time it is the leather men are clamoring for it, declare the shoe will pinch the poor man unless there is free trade in hides and that the American shoe exportation will suffer to the amount of 25 million dollars per year !

A delegation of manufacturers, most-Pittsburg, New York, Boston and Chicago, pleading for free trade in hides with members of the senate finance committee, was the curious spectacle witnessed in a parlor of the Arlington hotel a few days ago. The spokesman Allison, Aldrich, Platt of Connecticut, and Wolcott-what a boom to the leather industry of the country and to the people at large free trade in hides Stamped Linen Goods, Floss, Toilet had proved for years past and what destruction to leather export trade and distress to the people through dearer shoes would follow the imposition of a duty on hides.

They also told the senators that the duty on hides the northwest was demanding would not inure to the benefit of the farmers and cattle raisers, but solely to the benefit of the great meat packers who bought cattle by the thousands of heads, hides and all, and then slaughtered them. The cattle raisers would not get any better prices for their stock if a duty were placed on hides. The increase in price on the leather would all go into the pockets of the great meat packers. This increase in price would destroy the present leather export trade of \$20,-000,000 a year, and at the same time make Americans pay more for their

THERE are delegations of influential Republicans in Washington endeavoring to secure some abatement of the excessive rates of the Dingley bill, and it may be said they are badly frightened by the outlook says the Pittsburg Post.
