THE DEMOCRATIC STATE TICKET.

For State Treasurer, MICHAEL E. BROWN. For Auditor General, WALTER E. RITTER.

DEMOCRATIC COUNTY TICKET. For County Surveyor, J. H. WETZEL. For Jury Commissioner, J. J. HOY.

The election ballot this year will not be quite one-fourth as large as last year.

The Philadelphia Press says that "the Dingley tariff act is more than meeting expectations." That depends on what was expected. If it was a treasury deficiency in three months of \$29,000,000 forecasting one for the year of more than a hundred millions, you are all right.

For the first time in the history of Western Pennsylvania a woman was admitted to practice in the supreme court of the State at the session of the court in Pittsburg. Miss S. S. Beatty has that distinction. She is the second to be admitted, a Mrs. Kilgore having been practicing in the Eastern part of the State for several years.

The formation of a gigantic glass trust at the meeting of manufacturers now in session at Columbus, Ohio, is highly probable. The tariff gives them every inducement and protection that they require, and the new Attorney-General seems to be no more party in enforcing the laws against such combinations.

Justice continues to perform some queer antics. A colored messenger in the office of the Commissioners of the District of Columbia stole \$9,000, and in less than a month was under penitentiary sentence. Over one year ago the disbursing officer of the Department of State was discovered to be short in his accounts to the extent of \$100,000, and apparently no effort is being made to bring him to trial. THE CENTRE REPORTER the equal protection of the laws and the enjoyment of life, liberty and property. This is probably the last use to which the framers of this amendment supposed it would be put and the Court evidently thought so too for it refused to entertain the motion, saying that "the right to the enjoyment of life, liberty and property, as secured by the Constitution of the United States does not deprive the Legislature of the state of the power to reasonably restrict the conduct and acts of its citizens or the use of their property so that no injury may be caused to others thereby." The decision is important as it serves to inform manufacturers and railroads that the right to use soft coal is not imbedded in the Constitution of the United States.

The state of Pennsylvania is in the anomalous condition of practical bankruptcy as to the current needs of its schools and other lawful dependencies, while at the same time the owner of millions of money which is being held by and manipulated for the aggrandizement of favored banks in the several leading cities. There has never been, is not now, and never need be any lack of funds with which to promptly meet every demand that may legitimately be made upon the resources of the state. Whatever injury or inconvenience may accrue from tardy payments proceed from the downright dishonesty and reckless profligacy of Republican rule.

Flagrant as were the steals that have been already exposed, and that have become known of all within the state, gold at Hecla Park. This finding of the whole disgraceful truth will never be revealed so long as the state treasurer's and auditor general's offices are allowed to remain in control of the Republican party. The bookkeeping methods in these departments are so devised as to cover up and conceal many of the disreputable transactions by which the taxpayers have been and are being fleeced to reward the horde sign by the Spanish government, the of hangers-on of the party to whom new captain general of Cuba, Blanco, the dirty work of its campaigns is ashad a long conference with the queen signed. Each year adds to the astounding total of the steals, the awful magnitude of these wrongs. And each ensuing year will continue to add to them, so long as the people remain indifferent to such golden opportunities as the Democratic party has this year, in the nomination of Messrs. Some newspaper men are terrible liars. In writing of a cyclone out west one of them said that it turned a well wrong end up, a cellar upside down, moved township lines, blew all the Household Fixtures and staves out of a whiskey barrel and left nothing but a bunghole, changed the Sewing Machines. The enterprise of McCalmont & Co., of Bellefonte, is now being more fully illustrated in the interests of farmers by the purchasing and shipping of apples. They manufacture barrels in which to ship lime, which enables them to manufacture barrels in which to ship apples. They have two or three agents buying and barreling apples. They buy all the apples in the orchard fit for use, and they report, if the farmers would have taken the precaution to spray all the apple orchards in Centre county at the proper time, the thousands of bushels of wormy apples now being rejected, would have been first-class marketable fruit at 50 cents per bushel. McCalmont & Co. buy all the apples in an orchard. The farmer picks the apples in the first place, and hauls the barrels from the station to his orchard and is required to do one-half the work in assorting and barreling the apples. McCalmont & Co., are at the expense of the other half of the work, after which the farmer hauls the barrels to the nearest railroad station. They also buy potatoes, when they can get them in any quantity. The farmers have recently gathered the largest crop of clover seed ever grown in the United States. Strictly choice clover seed is worth about 5½ cents per pound and seed that contains buckhorn and weed seeds, according to cleanliness, is worth from 3½ cents to 4½ cents per pound. There does not appear to be any foreign demand, which makes it quite likely, that there is more clover seed than can Apples. be sold in the United States.
