CENTRE HALL, PA., THURS. DEC. 2.

The shortage caused in the revenues by the Dingley tariff has fallen as so much clear gain into the pockets of the protected trusts.

The Dingley tariff having produced a shortage in revenues of nearly fifty million dollars already, keeps the high tariff advocates wriggling for excuses.

At last Hanna seems to have the bulge on the Ohio senatorship. He claims to have made sure of every vote—he tapped his barrel, no doubt.

There is reason to believe that farming lands in the middle and eastern states will gradually advance in price; but it may be many years before the \$80 and \$100 per acre of twenty years ago, will be reached.

Congress meets beginning of next week, when it will be interesting to read in the President's message how he explains the deficiency of near fifty millions under the new tariff which was promised to be a revenue producer.

Starvation is now staring goldseekers in the face at Dawson City. All who can are leaving for fort Yukon, 400 miles away, where there is a supply of provisions.

At Dawson City flour is \$2 a pound, and a beef steak the same price.

Hiram Maxim's new quick firing gun was tried at Portsmouth, England, the other day with remarkable results. With 25 pounds of cordite it showed an effective range of 16,000 yards, or nearly nine miles. By increasing the range at this rate, warfare will become easier, since every soldier can remain at home and fire at the enemy regardless of the distance.

The typhoon which swept over the Philippine Islands on the 6th of October was the cause of one of the most disastrous storms that has been reported from the Southern ocean in many years. Thousands of lives were lost, including many Europeans, and the damage to property was something appalling.

In Europe it is the young man's ambition to prove he is a hero by showing scars of sword thrusts received in duels on account of some slight. In our own country the young man is becoming ambitious to have his face and eyes bruised, ribs smashed and arms broken to prove his skill in playing football.

In the United States duels are unlawful but football is a glory. If you will take one cat and pinch his tail he will scratch and bite your hand, but take two cats and put them side by side and pinch both their tails at the same time and they will bite and scratch each other. Plutocracy has learned this trick. So it gets the people arrayed in two old parties and then it pinches their tails and they fight each other. Like the cats, they never turn to fight the hand that is pinching them.

On board the Ward Line steamer Santiago, which arrived at New York on Saturday from South Side Cuban ports, were Dr. Frank Agramonte and Thomas J. Sainz, who were recently liberated from the Morro Prison, at Santiago de Cuba, where they had been confined two years and seven months and one day. On fifteen different occasions they were called out to be shot, but in each case were reprieved.

Less than two years ago a man and his wife in Baltimore borrowed \$50 from a loan company pledging their household goods as security. They have already paid \$85.50 interest and owe a balance of \$49.50 interest. The courts have decided they will have to pay back the principal and a total of \$135 interest to save their furniture. That loan company must have a Klondike in the Druid City.

The riot in the Austrian parliament went on with more disgraceful violence the second day, Saturday. Dr. Wolf, the German Nationalist leader, defied all authority to repress him and was, after a desperate struggle, bound and gagged. Then he was bundled into a cab and taken to a police station. Mark Twain, who had been viewing the extraordinary scenes, was violently ejected from the House, and during his exit was struck a severe blow by a Czech Deputy. Attacks were also made on the President of the House.

In the evening the police were compelled repeatedly to disperse excited political crowds which gathered in the

Rings-Strasse between the Parliament House and the University buildings. In front of the former a mob numbering 2000, principally composed of students, assembled and hooted and groaned at the police, finally attacking the officers with stones. Eventually the police were ordered to clear the streets, which they did with drawn swords.

Philadelphia has leased her gas works to a private corporation, after trying for several years to operate them at a profit.

Williamsport, years ago, erected a water plant, but it was so notoriously farmed and managed by the town officials that the citizens were glad to have the water works sold to a private corporation.

Philadelphia which for many years has suffered from bad management of the city water works, is now agitating the question of turning the water works over to private individuals for a term of 50 years.

Advocates of municipal ownership will now please rise and explain.

As a result of the war now being waged between the Arbuckle Coffee Company and the Woolson Spice Company, the sales of coffee during the week ending Friday have been far in excess of any similar period during the past year. Coffee brokers declared that their sales had been doubled.

The Woolson Spice Company, which is controlled by the Havemeyers, is selling Rio No. 7 at 9 cents a pound. Not to be outdone, the Arbuckles have made a reduction in the price. Coffee is now cheaper than it has been since before the war, say the old dealers, and if the fight continues there is no telling what price it will go for. Another reason for the low price is to be found in the enormous quantity of Rio coffee now in New York.

AN IMPORTANT MEETING.

Governor Hastings and Attorney Gen. McCormick went to Philadelphia Monday and had a long conference at the Union League with Secretary of the Commonwealth Martin and State Senator Magee. The meeting was an important one, judging from the length of time the quartette were together and the arrangements made for the conference. None of the participants would discuss what took place, but it is believed that it had some bearing upon Attorney General McCormick's candidacy for governor. It is understood that the chances of Mr. McCormick's success were canvassed and the conclusion reached that the Republican nomination could be secured for him.

It is therefore expected that the formal announcement of his candidacy will soon be made and his friends throughout the state notified to begin work in his behalf. There is no doubt that if the attorney general enters the lists for the gubernatorial nomination he will do so with the understanding that Secretary Martin and Senator Magee will give him the Philadelphia and Allegheny delegates they control. Conceding these two leaders all the delegates they claim in the counties they represent, they will not amount to 70 or the 362 in the convention. It was thought that Messrs. Martin and Magee would be for P. A. B. Widener for governor, but it now looks as if they were favorable to Mr. McCormick.

England's Alarm.

The note of warning sounded by Mr. Ritchie, the president of the board of trade, to England's commerce and manufactures is timely and significant. Under the stress of American competition in agricultural products the farming land of England has in the past ten years shrunk one-third in value. Under the competition of our newer machinery, of our more efficient methods, of our higher individual intelligence, and especially of our more abundant natural resources, we are undoubtedly competing with Great Britain for the supremacy of the world's manufactures. England has good reason to be alarmed over the situation. The best reason for alarm is that there does not seem to be any remedy.—N. Y. World.

In a Bad Fix.

The Republican party has managed in the first eight months in which it has had control of the Government to put itself in a very unfortunate position. Its tariff act "to provide revenue for the Government" does not provide as much revenue as the act which it supplanted. The borrowed money accumulated in the Treasury by the Cleveland Administration in excess of the gold reserve is fast disappearing. There is serious trouble ahead, and the party will soon have to choose one of three ways to meet it: The Administration can borrow more money to make good the deficit; or it can frankly admit the mistake made in the passage of the Dingley bill and try to amend it so as to get the necessary revenue from customs or internal taxes; or it can take the heroic method of cutting down appropriations to the measure of the Federal income.

If in need of a stylish and dressy suit, it is wise to consult Lewins, Bellefonte, and have him fit you out.

SPRING MILLS.  
Burglars Discovered Robbing Krape's Shoe Store.

On Thursday night an attempt was also made to enter the residence of Mr. Gramley who resides a short distance above the village on the pike. In endeavoring to remove a light from the window, the glass broke and the noise awoke the inmates. In the confusion the robber or robbers escaped.

On Sunday evening last a few boys of our village after leaving church, amused themselves by building a huge stack of waste paper on the street and setting it on fire. This senseless piece of business created considerable excitement in the neighborhood. Some of these reckless boys will find themselves in Bellefonte very unexpectedly, if these foolish freaks are continued.

About every third man in this neighborhood is butchering. I hear of some rather "tough" statements as regards weight. Apparently no one is butchering less than a 400 lb. porker; of course the scales generally tell a far different story, but very singularly this record is kept quiet. Sausages, scrapple and liver-wurst are now the dishes par excellence on nearly all table mornings, noon and night, while boiling fat fills all space with a greasy vapor—too much of a good thing. No wonder old Shylock exclaimed in his wrath at an invitation to dine, "yes to smell pork, to eat of the habitation which your prophet the Nazirite conjured the devil into." Possibly they were butchering in Venice just at that time, and the "old man" had more than he wanted.

On Wednesday night last, burglars entered the shoe store of C. A. Krape, of our village, by boring holes around the lock of the door and forcing it open. Mr. Moyer, whose store and residence is directly across a passage way from Mr. Krape, was awakened between twelve and one o'clock by an unusual noise, and thinking that possibly some one might be endeavoring to effect an entrance into his store, he arose and cautiously raised the window, and discovered a man in the street directly opposite Mr. Krape's store. After watching him some time and deeming his actions rather suspicious, he shot off his revolver simply to give an alarm; the stranger immediately replied with a similar compliment. Mr. Moyer then shot again, taking aim at the scoundrel's legs, but missed his mark. The robbers, two in number, possibly three, being discovered after shooting off their revolvers, no doubt to deter any one from following, hastily retreated across the foot log near the postoffice and disappeared in the darkness. The burglars secured very little booty. Mr. Krape says his loss is four pair of men's shoes, about fifty cigars and a dozen or fifteen pennies. The tools used, a brace-bit and two chisels, were stolen from the wheelwright shop of Mr. Roper located a short distance above the hotel. These tools the robbers left behind.
