CONGRESS NEXT WEEK.

One of the Most Important Sessions in the History of the Country. In view of the many questions of vital importance which are certain to come before the forthcoming session of Congress, those persons who desire to be well informed concerning national affairs will be interested in the news that "The Philadelphia Press" has made arrangements to publish more complete reports from Washington than have ever been furnished by any daily paper heretofore. "The Press" maintains regularly at Washington a special bureau in charge of one of the best known writers on national affairs. The working force of this bureau has been increased so as to leave no doubt of its ability to adequately and promptly report every item of Washington news. As Congress will meet next week it will be well to begin reading "The Press" Washington reports at once.

A Judge Censures a Spitter.

The spitter has met his reward in Philadelphia. He was in the habit of expectorating on the steps of a man he did not like every time he passed the man's residence. The man laid for him, and at last caught him in the act. The spitter was arrested and taken before Judge Arnold, who fined him ten dollars and costs. In his charge to the jury, Judge Arnold took occasion to say that in foreign countries spitting on the sidewalk is unknown, and the only way to stop it in this country is to have the offenders arrested for malicious mischief. "The defendant," said Judge Arnold, "was a hog in spitting on step or sidewalk, instead of, as any gentleman would, over the curbstone."

I had the rheumatism so badly that I could not get my hand to my head. I tried the doctor's medicine without the least benefit. At last I thought of Chamberlain's Pain Balm; the first bottle relieved all of the pain, and one half of the second bottle effected a complete cure.—W. J. HOLLAND, Holland, Va. Chamberlain's Pain Balm is equally good for sprains, swellings, and lameness, as well as burns, cuts, and bruises, for sale by J. H. Ross, Linden Hall, S. M. Swartz, Tusseyville, F. A. Carson, Potters Mills, and H. F. Rossman, Spring Mills.

The Lumber Industry.

Editor Reporter:—Having been a reader of your valued paper for quite a number of years, dating back to my boyhood, when it came to my father's home as the Centre Berichter, and knowing that its columns are read by many who in former years were boys and girls of Penns valley, and who now have their homes in the east, west, north and south, and who, no doubt, read with interest of the changes and improvements going on in the localities of their former homes. With this idea in view, it occurred to the writer to give a short sketch of the lumber operation as being developed in this particular locality. In 1889 a narrow gauge R. R. was built by the firm of Meek & Nagle, from the L. & T. R. R. at this point to the Bear Meadows, a large tract of swampy land covered with a dense growth of timber. In November of that year they commenced running over their road and shipping prop timber to the Anthracite coal mines. The following year they built a sawmill near the Meadows and up to 1896 they have shipped thousands of car loads of prop timber, sawed lumber, shingles and lath, and at that date the firm merged into the Linden Hill Lumber Co., of Sunbury, Pa., who have laid their road about six miles farther, over a mountain, at an elevation of nearly 600 feet, to the headwaters of Stone creek, a tributary of the Juniata river, and at this writing they are breaking ground for a sawmill at this point, the terminus of their road one-half mile west of the village of Linden Hill, and with the probability of adding a planing mill also, and expect to manufacture large quantities of lumber. During these panicky times these parties have employed a large number of men, have paid uniformly good wages and have pushed their project almost to completion.
