CENTRE HALL, PA., THURS. Feb. 3.

POLITICAL ANNOUNCEMENTS.

PROTHONOTARY We are authorized to announce that H. A. McKee, of Spring township, will be a candidate for the Democratic nomination for Prothonotary, subject to the rules and regulations of the Democratic party.

DISTRICT ATTORNEY. We are authorized to announce that William G. Runkle, of Bellefonte, will be a candidate for the Democratic nomination for District Attorney, subject to the rules and regulations of the Democratic party.

The postal bank proposition is likely to be favorably reported by the senate committee.

For President: Mr. Leiter, the man that puts up the price of wheat. McKinley isn't in it.

The affairs of Singler's Chestnut Street National Bank have gone into the hands of a receiver.

If Hanna is not guilty of bribery why are witnesses instructed by his managers not to answer any questions at the investigation?

The Snyder county primaries, last week, went largely for Quay. If little Schneider were to have a king, we'd give 'em Quay as a cure.

The candidates for governor in the two parties, are not a few, but to sift them down to the really worthy ones would leave the score about two.

Home wheat has been shipped out of the country to such an extent that many home mills are likely to find it difficult to get what wheat they need.

Twelve Republican senators voted for the Teller silver resolution. Some Republicans are beginning to lean a little to the Democratic side of the silver question.

Mr. Leiter, of Chicago, who holds from 9 to 15 million bushels of wheat, predicts it will advance to \$1.50 and possibly \$2. Now if McKinley goes fifty cents better he knocks the persimmon.

The Free Homestead bill giving over 20,000,000 acres of public lands as free homes for settlers was ordered favorably reported to the House by the Public Lands Committee.

Attorney General McCormick will not be the anti-Quay candidate for Governor, but will make a fight for Senator against Quay. Wanamaker will be urged as the anti-Quay candidate for Governor.

The Senate passed the silver resolution and will remain in favor of silver. The House voted down the silver resolution and at the next election the country will vote down the House.

People wonder why there is no gold in circulation since the gold party is in power. They further wonder why there is no "prosperity" around since the prosperity party is in power. Well, the people were badly fooled.

Harrity has been ousted from the National Democratic Committee because he opposed Bryan and joined the goldites. J. M. Guffey will be put on the Committee to take Harrity's place, who should have resigned when he refused to support Bryan and the Chicago platform.

Czar Reed is opposed to admitting Arizona, New Mexico and Oklahoma, to statehood, for fear they would elect silver senators. When there was prospect of the already admitted pocket states choosing Republican electors it was all right with the czar and his party.

Gov. Hastings has sent a message to the new capitol building commission strongly protesting against the erection of a new capitol as now planned by the commission, since it would involve the expenditure of several million dollars beyond the half a million authorized by law.

Forced by the fear of poverty and the lack of a union to support them in their strike against the reduction in their wages, the ring spinners at the Iron Works Mills, Fall River, Mass., were compelled, on Thursday, to give up their short battle and return to work for the best wages that were offered them.

A scientist has succeeded in grafting bugs, making parts of one kind of bug grow upon another by careful use of the knife upon the insects, and this mixture has lived in some of the experiments made. There are many humbugs about and if the stock could be improved by grafting then let the humbugs be tackled.

On Friday, last, the Senate passed the Teller silver resolution, in favor of paying government bonds and interest in silver dollars, by a vote of 47 to 32.

The House will likely vote to pay the bloated bondholder in gold, while the rest of folks must take silver as heretofore. That's the way—when we have a gold oligarchy.

Demand for wheat abroad put the price of the current option at \$1.05 a bushel on Thursday 27, at Chicago. Liverpool opened higher, and reports indicated that Russia might soon be compelled to import wheat.

News of heavy exports and lack of wheat in the Northwest for milling purposes, coupled with a big demand for flour, put the price up and closed it but a fraction from the top.

Five or six years ago the father of Joseph H. Leiter, of Chicago, gave him a paltry million dollars, to see, as he expressed it, "what sort of stuff the college-bred dude was made of." He is now thirty years old and is worth 30 million dollars—just one million dollars for every year of his life. Today he is the king of the Chicago wheat pit. He went into the deal six months ago a novice. He now holds all the cards.

The Czar gives assurances there is to be no conflict in the Orient. A despatch from St. Petersburg to Berlin, says that the Czar, at a dinner given by the officers of the Cobrajenski Regiment, of which his Majesty is commander, is reported to have said: "Events in east Asia have been weighing heavily upon my mind, especially difficulties with Japan. Now, however, thank God, everything is clear again, and no conflict whatever need be feared."

A list of the religious denominations of the United States, printed in the Independent, shows 44 names. This number is reached by counting as one the 6 kinds of Adventists, the 13 kinds of Baptists, the 4 kinds of Dunkards and of Friends, the 21 kinds of Lutherans, the 12 bodies of Methodists, the 17 species of Presbyterians. Even the United Brethren are divided into two sects.

Here are over a hundred roads built to get to Heaven, either one being good enough and roomy enough to accommodate all without crowding, and each road is an extra expense to keep up, all leading to one common gate, neither having its own gate. Really, it would seem there was considerable denominational foolishness among men.

HAY THE KING OF CROPS. At the meeting of the State Board of Agriculture, held at Harrisburg, last week, one of the most interesting and eloquent addresses was that by Will B. Powell, the great breeder and importer of fine horses, in Crawford county.

Colonel Powell said, among other things, that there is a better outlook for the price of hay. Pennsylvania mows each year, he said, 3,000,000 acres of grass, this amount only being exceeded by the State of New York. This acreage yields \$35,000,000 worth of hay, which is more than all her oil wells produce. Continuing, he said that the United States grows annually \$400,000,000 worth of hay, and this is only equalled by just one other crop—corn. King corn has undisputed sway, he added, while hay sits next to the throne. The hay crop of America is \$100,000,000 greater than King Cotton.

Leaving out the coal production, and hay is more valuable than all the other products of the earth combined. He declared that the hay crop of America is eight times as valuable as the gold of America. He said, in conclusion, that Pennsylvania was probably the greatest of all the States as a grass-growing State.

WHEAT UP TO \$1.10. At Chicago, on Friday last, wheat made the best prices on this crop for cash, the January option being bid up to \$1.10, and closing at \$1.08. The top price was a cent above the highest figure reached during the recent bulge in December.
