POLITICAL ANNOUNCEMENTS.

PROTHONOTORY

We are authorized to announce that H. A. Mc-Kee, of Spring township, will be a candidate for the Democratic nomination for Prothonotory, subject to the rules and regulations of the Democratic party.

We are authorized to announce that M. I. Gardner, of Belletonte, will be a candidate for the Democratic nomination for Prothonotory, subject to the rules and regulations of the Demo-oratic nerty. cratic party.

DISTRICT ATTORNEY.

We are authorized to announce that William G. Runkle, of Bellefonte, will be a candidate for the Democratic nomination for District Attorney, subject to the rules and regulations of the Dem-counter matty. ocratic party.

We are authorized to announce that N. B. Spangler, of Bellefonte, will be a candidate for the Democratic nomination for District Attor-ney, subject to the rules and regulations of the Democratic party.

The Bellefonte Daily News one day last week strongly advocated free silver. It had a lucid interval, and will now take silver dollars on subscription.

P. E. Womelsdorf, of Philipsburg, ex-representative, will be a Republican candidate for state senator. But, you see Phil, this district is going Democratic next fall.

Russia, France and Great Britain have agreed to insist on the candidature of Prince George of Greece for the governorship of Crete, and are ready to enforce it should the Sultan prove obdurate. Prince George is ready to depart for Crete under the tri-partite protection.

Philadelphia morning dailies now get here at 8:13 a. m. Years back they got here the third day after issue ; then next day after, and that was considered a great convenience; the next push brought the dailies at 4 p. m., same day, and now we have them at breakfast time.

THE CENTRE REPORTER here. Germany was a heavy purchaser of American fruit, now she says, You shut out our sugar, now we shut out your fruit, green, dried and canned. And here the American fruit growers are losers to the amount of millions of dollars.

Dingley-mckinleyism hits our farmer in pork and fruit pretty severely, but fits the trusts quite admirably.

WHITE METAL ISSUES.

The State of Michigan has before it two interesting issues relating to silver generally affecting everybody, but particularly of interest to old soldiers and mortgage transactions. As to the first, Governor Pingree has offered prizes to the students of the University of Michigan for the quickest and most accurate answer to the question of what the difference to the average Union soldier would have been if he had been paid in gold, "or the best money, or honest money, as some call it." instead of depreciated currency. This is supposed to be another slap at the "money power" which has taken possession, as he fears, of his beloved party. The Governor not long ago made declara tion that the Democratic party New Rye "kicked out" this particular power, Rye New Oats. New Oats. dominated the Republican party. He is uncomfortable.

The other case involving silver is a legal one and, while interesting, will amount to nothing. Stephen Bald- Butter, win, a capitalist of Detroit, recently Lard. bought a piece of farming land in Oak- Shoulders land county, Michigan. Fred A. Ba- Tallow ker, chairman of the Democratic State Sides committee, held a mortgage on this Onions land for \$364, which debt became due December 13 last. On that day Baldwin went into the law office of Baker and deposited the great weight of 364 coined silver dollars in tender for the debt. Baker refused to surrender the mortgage, demanding either gold or paper money-or silver dollars in such amount that the bullion value of the same should equal the debt due. Baldwin refused to agree to this, and has begun proceedings in equity to compel the cancellation of the mortgage in view of the tender made. Both parties agree to carry the case up to the highest court to determine the constitutional right of Congress to coin money of unlimited legal tender where the bullion value of the coin has no relation to the nominal or tender value. Baldwin seems to be a gold man, and made the tender in bulky silver dollars to give Baker a practical lesson on the subject. Baker is a silver man, and refused the tender probably in the

PRODUCE AT STORES.

brings us prosperity without worken'.

When we think of the kind of legislators the people send to Harrisburg, remarks the Record, to make laws for them the idea of wasting millions of money to sumptuously house them during their deliberations becomes more and more repelling. Building marble walls around such an aggregation seems a grotesque sort of extravagance.

Can't keep lost valuables you find. In the case of an individual who had claimed a reward for the restitution of a diamond ring which he had found, Judge Finletter, of Philadelphia, the other day rendered a decision to the effect that the mere fact of finding the ring gave the finder no lien upon the property. The article had been lost . its loss was advertised, and to keep it was practically larceny. This has always been the common sense and ethical view of the matter; and coming now from a distinguished judicial authority it will have legal efficacy every where, and should help to correct the curious notions of "meum et tuum" which have so widely prevailed respecting articles which have been lost and found.

We have before us a copy of a speech delivered by granger and ex-representative Nesbit before the Union county grange. Mr. Nesbit represented Northumberland county in the last legislature and is a farmer and business man of superior qualifications. It was Mr. Nesbit who boldly on the floor of the House exposed the robberies at Harrisburg, and especially the steal in lumber for fitting up Grace church.

Mr. Nesbit told home wholesome truths to his brother grangers, and didn't a bit spare even some of the order who participated in the spoils of useless offices, clerkships, and as lobby boodlers, and he enlightened the grange by citing notorious, undeniable facts. We may make extracts from this ringing speech in some future issues.

The Dingley-mckinley tariff keeps cutting in on the farmer. By prohibitive duties it shut off the importation of products from foreign countries including beet sugar from Germany, which was one of the largest customers for American pork. That country now retaliates by refusing to buy our pork, in consequence of which our farmers find a drop in the price of pork from 6 and 7 cents to 41 cents. This is a loss of thousands of dollars each year to Centre county farmers alone, and a loss of many millions of dollars to the west.

cent dishonest dollars, etc. Honors are even in this respect. MARCH 23-Jerry Snavely, near Old Fort; farm implements of all kinds, horses, cattle, hogs, sheep, etc.

But we have an idea that Baker, t he free silver man, will make very little by his refusal, and that Baldwin, the goldite, will win. The Bland act made the silver dollar a full legal tender for all debts, public or private. The su-MARCH 31-S. W. necessary to preserve the Government, and could be neither surrendered nor denied. If Congress has the power to make bits of paper a full legal tender, it certainly has the power to make the money of the constitution a legal tender. That money is gold and silver .--Pittsburg Post.

To Advance the Cost of Living.

Prosperity is on the way. The price of nails, thread, hose, tinware, rubber, enameled ware, machinery and bread is to be advanced by the trusts, while the Dingley tariff will advance all wearing material in the spring, or as soon as wool importations are necessitated. Here is a short list of recent combines and organizations of capital to corner the products in use :

1. Wire nail trust, capital \$70,000,000. 2. Machinery trust, capital \$60,000,-000.

3. Enameled ironware trust, capital \$10,000,000.

Beer trust, capital \$60,000,000.
 English thread trust, capital \$50,-

000,000. 6. Cotton hose trust, capital \$25,000,-

000. 7. Biscuit trust, capital \$30,000,000.

8. Tinware stamping trust, capital \$25,000,000.

9. Rubber goods trust, capital \$50,-000,000.

These are all combinations of capitalists to drive out smaller manufacturers so the trusts can control prices to further enrich themselves, and secure the promised "prosperity."
