We are authorized to announce that N. B. Spangler, of Bellefonte, will be a candidate for the Democratic nomination for District Attorney, subject to the rules and regulations of the Democratic party.

ASSEMBLY.

We are authorized to announce that A. C. Thompson, of Hill Moon Township, will be a candidate for Assembly, subject to the decision of the Democratic County Convention.

The United States started business with 13 colonies—it wasn't an unlucky number at all.

There are some hot heads in Madrid. The Carlist organ talks of American sailors as drunkards, thieves and rioters. Well, who cares?

The population of Spain proper is 17,550,216; of Spain and her colonies 28,911,609. The population of the United States is estimated at 75,000,000.

A good many fellows may wish to see a war between our country and Spain in the hope of becoming colonels, quartermasters and contractors.

A rain cloud don't always bring rain, nor does a war cloud always bring war. In the one it is always safest to have umbrella and in the other your gun ready.

Mayor Van Wyck snubbed the Captain of the Spanish warship which recently anchored in New York harbor; all other officials treated the Captain courteously.

We still have a deficit of 50 millions in our revenues under the Dingley tariff, that was put up as a revenue raiser—a revenue razor would be its proper name, it keeps shaving down the revenues right along.

Four millions short in the state treasury and fifty millions short in the national Goldsack, leave the whole stage clear for Republican orators to explain. And the thing is getting deeper into the ruts each month.

The Madrid correspondent of the London Times says: "There is an appalling scarcity of food in many provinces of Spain. The price of wheat is unprecedentedly high. Bread riots are of daily occurrence at Salamanca, and it is feared that martial law will be proclaimed.

If the divers find that Spanish villainy caused the disaster to the Maine, then the Dons will come and beg, "Please, good Uncle Sam, don't whip us, we won't do it no more." U. S. will say, "You scamps, pay me 50 million dollars or I'll skin you from head to toe quicker'n you can say Jack Robinson."

Latest advices say there will be no hurrying the report of the Maine inquiry court. Getting through at Key West it will return to Havana and the President and Cabinet can utilize the time in preparing for any emergency. Spanish newspapers still talk fiercely. An officer of the exploded battleship gives his opinion that the cruiser was blown up from the exterior.

A Washington dispatch to the Pittsburgh Dispatch says: "All doubt in the minds of Pennsylvania Republicans here regarding the attitude of Governor Hastings in the gubernatorial fight has now been removed.

From reliable reports that have reached this city from Harrisburg they are satisfied that the Governor is in active sympathy with the movement in behalf of John Wannaker for Governor."

Should war be declared by the United States against Spain, the first act of our government would be to seize Cuba which lies less than 100 miles from Florida. Our vessels could then remain near our coast to defend it, and the Spanish fleet would have to cross 2500 miles of ocean to attack our seaports, while Spain would be left almost entirely unprotected, and one or two of our great battleships could slip over there and demolish some of her cities. Spain wouldn't have vessels

to spare, in case of war, to guard her colonies, while in two of her principal possessions, Cuba and the Philippine Islands, insurrections have existed for several years which Spain has not yet been able to put down; then with the United States after her too, somebody would have to "walk Spanish" sure.

Holidaysburg, Pa., Feb. 23.—A "war cross" appeared in the heavens about this community this evening. It was red, with a background of blue clouds. Hundreds of people viewed the strange figure in the sky and the superstitious accepted it as a token of strife with Spain.

Bosh! who the deuce would think of putting a "war cross" in an out-of-the-way place like Holidaysburg, where nobody wants to fight?

Work of a Large Torpedo. Friday's disclosures of the divers prove, finally, a full international fact—that the Maine was blown up February 15 by an outside explosion of probably a large torpedo.

The court of Inquiry has ceased investigating the remains of the forward magazine. The members are satisfied that it did not explode. From the first glance everything has pointed that way. It is known now that the divers found the floor of the big forward starboard powder magazine, containing 25 tons, intact, while the sides were not completely destroyed. It is an absolute impossibility that a part of its 150 powder-filled cylinders should not have exploded, and it is just as awfully true that no explosives aboard the ship could, unaided, have so mangled and blown away and broken in two the battleship Maine. Something else must have done it.

Naval experts say a big torpedo, placed under the port side of the bottom, just next to the reserve magazine, would easily have caused the observed damage if it were assisted by the 2,000 pounds of quick-burning saluting powder known to have been in the reserve magazine.

From Washington, Feb. 25, comes a contradictory story, viz: In view of the widely published report that the harbor of Havana contains a system of submarine mines, a statement around which has centered the chief public interest in connection with the disaster to the battle ship Maine, Senor DuBose, Spanish Charge d' Affaires at Washington, to-night made to the Associated Press the following statement, which, coming from such authority, may be considered as an official denial:

"I wish to state on my own official knowledge that no mine exists inside or outside of Havana harbor, nor is there any submarine defence of any kind. The report is so absolutely false and ridiculous that it could only have originated in the minds of those persons anxious to incite the evil passions of both nations for their own miserable ends. I consider the very suggestion of such a thing an insult to Spain."

The Merritt Wrecking Company, it was announced, wanted two million dollars to raise the wreck. The company's representatives made this demand after viewing the condition of the ship. The wreckers turned their attention to saving the great guns. These, at least, can be recovered in sufficiently good condition to warrant the effort.

A Horrible Railroad Accident. Is a daily chronicle in our papers; also the death of some dear friend, who had died with consumption, whereas, if he or she had taken Otto's Cure for Throat and Lung diseases in time, life would have been rendered happier and perhaps saved. Heed the warning! If you have a cough or any affection of the Throat and Lungs call at G. H. Longs, Spring Mills, sole agent, and get a trial bottle free. Large sizes 50c. and 25c.

The Trimming Season. Trim your grapevines while the sap is down. While in the business look after your boys, and if they are among the truant players, trim them until the sap flows. Good stiff grapevine cuttings can be utilized in this latter trimming exercises, as some of us have had reason to know.

Want a New County. A Johnstown dispatch says the board of trade has inaugurated a movement for the establishment of a new county, to be composed of portions of Cambria, Indiana, Westmoreland and Somerset counties, with Johnstown for the county seat.

A thrill of terror is experienced when a brassy cough or croup sounds through the house at night. But the terror soon changes to relief after One Minute Cough Cure has been administered. Safe and harmless for children; for sale by Smith & Crawford.

Don't annoy others by your coughing, and risk your life by neglecting a cold. One Minute Cough Cure cures coughs, colds, croup, grippe and all throat and lung troubles; for sale by Smith & Crawford.
