League of Pennsylvania.

The purpose of this organization is to put down boss rule in this state and especially to defeat boss Quay's re-election to the Senate.

Wanamaker's letter of acceptance is a straightforward but strong denunciation of machine politics, such as now rules the Republican party of this state and which has introduced the most foul corruption in the government of the state and into the county organizations. The state has been plundered wholesale by Quay's machine, and a great share of the plunder goes to bribe | Cure as a preventive of pneumonia, the big and little bosses in the state, consumption and other serious lung counties and townships, so that Quay and his henchmen may keep the machine in their grip.

It is the thieves on one side and the Business Men's Republican League on the other. No fairminded Republican can fail to see that his proper place is to stand with the League and Wana-

John Wanamaker's indictment of the Republican party and Republican administration in Pennsylvania is certainly forceful, and has the merit of being true. Here it is again :

"Let there be no misunderstanding as to where the responsibility rests and let the Republican voters demand a strict accounting. With school funds long past due and personal property taxes withheld from counties to allow the State treasurer* to farm out didate for congress this time-it looks millions of dollars to favorite banks, with a commission breaking down the restrictive barriers erected by popular sentiment and planning a building Barbara Long, late of Gregg township, deceased. sentiment and planning a building It is asserted that our country will shortly recognize the Independence of Cuba, and that England will follow in a similar recognition.

THE OSBORNE COLUMBIA SPRING-TOOTH HARROW.

The champion of all spring-tooth harrows; a masterpiece of skillful construction, built for any and all conditions of soil. The teeth can be adjusted to any depth, while in motion, by the levers on the rear bars, to give any amount of cultivation desired, or they can be lifted high above the ground, for the transportation of the harrows.

The one-piece steel angle bar frames are shaped to withstand all strain without warping; the front part of each is bent upward, sled-runner shape, to allow the harrow to slide over ordinary obstacles and trash, and to render its transportation to and from the field exceedingly easy. The rear side of one of the frames is cut away to prevent clogging. This is found only on the Osborne. For prices address or apply to the agent,
