Where will the Republicans of this county stand when they come to elect state delegates—for Wanamaker or for Quay?

Dr. Warren, the state ornithologist, or bird-book-man, has resigned. Now let that entire expensive department, with its sinecure clerkship, be abolished. It is a fraud and a steal upon the taxpayers of the state.

Dr. Atherton, of State College, went to Washington to protest against the passage of the bill providing for the disposal of all public lands in the western states. Dr. Atherton asserts the passage of such an act would be the ruin of every State college.

Our government is making all haste to be ready for war. Preparations so far on fortifications, and in the purchase of battle-ships, etc., will make it impossible for any power to invade the United States.

A war with Spain is still an uncertainty.

To carry this county, the Democrats must put up a good ticket. Men whose record is not clean and whose Democracy has not been straight, will drag themselves and the ticket to defeat. Take warning that the county has been too close to monkey with poor and vulnerable nominees.

The Holland submarine boat has demonstrated all that the inventor claimed for it, going under water and navigating there with ease, diving and rising again at will and showing itself under perfect control at all times. Thus, we have another new invention adapted to meet the changed conditions of warfare, and possibly, to effect as great a revolution in naval architecture as the Monitor did in her day.

Ex-commissioner Goodhart having been criticised, he has really survived the looking into his record for something terrible while an official. He was and is and always expects to be a farmer, and wishes to be rated and ranked as such as long as he plows and sows and reaps—and he was true to the interests of tax-burdened farmers at every call. The more one looks into his official record the more praiseworthy it grows and it does not need any defense.

A handsome surplus and economy in county affairs are his monument. A thousand lines of criticism can be brushed aside by less than a score of lines of defense.

Within three years there will not be a grade crossing on the entire Pennsylvania railroad between Pittsburgh and New York. This is the latest declaration from officials who are in a position to know what they are talking about. It is a declaration which means not only the elimination of road crossings on grades, but carrying of foot crossings at stations under the rails by means of subways. Already a number of such subways have been constructed on the main line between Pittsburgh and Harrisburg, and it is understood that the company will prepare plans for more of them right away. The subway at Blairsville intersection does away with one of the most dangerous station crossings, and another at Tyrone gives absolute safety at the platform.

The New York Herald has gathered the opinions of a large number of busi-

ness and professional men in all parts of the country as to how the existing difficulty between this country and Spain can be peacefully settled. It was a good thing to do, as tending to show the trend of public sentiment outside of the newspapers. The replies to the Herald's queries suggest: Arbitration between the United States and Spain and between Spain and Cuba; purchase of Cuba by this country; its purchase by the Cubans; joint action by the United States and England to stop the war in Cuba; a stable government for the island under the joint auspices of the United States and Spain, and the self government of the island under Spanish suzerainty. As a whole, however, the writers show a general inclination to trust the disposition of the whole matter to the wisdom of President McKinley—than which they could not come to a better conclusion.

A SINECURE FOR SOME ONE.

There are a score of applicants for the position of State Economic Zoologist, which Dr. B. H. Warren, of West Chester, threw away rather than support the anti-Quay slate for State delegates at the recent primaries in Chester county, says the Pittsburgh Dispatch. The applications have been carefully sifted away by private secretary Beitler, and will be laid before the Governor when he gets back to the State capital. The position pays \$2,500 a year, and there is nothing to do but draw the salary and prepare an occasional bulletin on the diseases among chickens, etc., for the "instruction" of the farmers of the state. The Zoologist is also allowed a clerk at a salary of \$1,500 a year.

When State Chairman Elkin was Deputy Attorney General, he was asked by the head of a certain department for an official opinion defining the duties of this position. Mr. Elkin made a careful study of the act creating the office and was forced to admit that its duties were not defined. The office was created for Dr. Warren at the solicitation of leading members of the State Grange, in which he has been an active spirit for many years. The doctor tried to repay the Governor for his appointment by tramping over the state for Bank Commissioner Gilkeson in the fight for State Chairman in 1895. He tried to line up the grangers, but his mission was a failure and every county he visited elected Quay delegates.

A Very Worthy Movement.

Senator Hoar has introduced a bill to prohibit the importation of birds and bird feathers for hat decorations. This bill should pass, and should be amended to prohibit the killing of birds in this country. The fair sex, who do not appear to realize the destructiveness of their fad for feathers, should be willing to spare the lives of the few song birds still remaining in this country.

Whole Grain for Fowls.

All kinds of fowls have so strong digestion that it is waste of labor to grind feed for them. Not only does the food digest equally well when unground, but the fowl thrives better, as it needs just the exercise for its digestive organs that the unground food gives to it.

We are anxious to do a little good in this world and can think of no pleasanter or better way to do it than by recommending One Minute Cough Cure as a preventive of pneumonia, consumption and other serious lung troubles that follow neglected colds; for sale by Smith & Crawford.

State's Oldest Resident.

Miss Peggy Turner, aged 107 years, died in West Lampeter, Lancaster county, a few days ago. She is believed to have been the oldest resident in the state and was never outside the county. Only once was she on the cars, when she took a trip of 3 1/2 miles.
