The Butler county Republicans gave Quay only 2573 votes out of about 5000.

The Wanamaker people are on the war path and making the Quay fold feel muchly uneasy.

Some of the Republican organs accuse President McKinley of being too slow in dealing with Spain.

Those of the Republicans who side with Quay and against Wanamaker, simply mean that they approve the infamous doings of the last two legis latures.

When you remember how shamefully the last and previous legislature pilfered the public monies, it is in place and fair to ask what kind of conscience

But since it seems to be impossible to restrain these uneasy monarchs by mere suggestions of common sense. It may be worth while to convey to them the additional suggestion that if they want to make American action more emphatic and aggressive the best way to do it is to intimate that Europe proposes to prevent us.

Thus far we have tried to keep cool in regard to Cuban affairs and have achieved a reasonable success. But if anything could make us hot under the collar and spoil our temper it would be a notification from Europe that we must get permission from Francis Joseph and Kaiser Wilhelm before wiping out the blot on civilization in Cu-

# THE OSBORNE COLUMBIA SPRING-TOOTH HARROW.

The champion of all spring-tooth harrows; a masterpiece of skillful construction, built for any and all conditions of soil. The teeth can be adjusted to any depth, while in motion, by the levers on the rear bars, to give any amount of cultivation desired, or they can be lifted high above the ground, for the transportation of the harrows.

The one-piece steel angle bar frames are shaped to withstand all strain without warping; the front part of each is bent upward, sled-runner shape, to allow the harrow to slide over ordinary obstacles and trash, and to render its transportation to and from the field exceedingly easy. The rear side of one of the frames is cut away to prevent clogging. This is found only on the Osborne. For prices address or apply to the agent,

A DMINISTRATOR'S NOTICE .- LETTERS

the man has who will vote to keep those fellows in power.

The best thing the Republicans of this state could do would be to follow the example of our good women and begin house-cleaning-join John Wanamaker, who has started in with banner lye, pearline, brush and hot water.

The Pennsylvania railroad voluntary relief fund has attained mammoth proportions. In 1897 \$631,038.81 were paid out of benefits. In 1886 the number of members was 10,952 and last year it was 43,975. The fund now has in its treasury \$463,379.56.

It was determined by the Westmoreland County Commissioners a few days ago that all aliens employed in the county who send their children to the public schools must hereafter pay a tax. It is claimed there are several thousand aliens in the county who are not now paying school tax. The law passed in 1895 will be strictly enforced.

A novel discovery was made by David Burkhart, of Belsano, Cambria Hazel Salve is the best thing to keep county, last week. While looking over the Bible Mr. Burkhart found written on a blank page the will of his wife who died recently. The document is valuable to the husband, as it makes him heir to considerable property.

Any one can find a will in the Book making him heir to more than millions. The will there reads by coming to the Savior you shall become heir to a priceless heritage.

Uncle Sam is in right shape to go hunting for Spaniards. Over 350,000 men can immediately be armed with rifles from the Springfield armory, if necessary. There are stored in the different arsenals within the armory grounds in that city 102,000 Springfield rifles. These are of the old model, which was discarded for the Krag-Jorgensen rifle, now being manufactured.

The judicial investigation of bribery in the Philadelphia councils conducted by Judges Bregy and Gordon, is panning out "pay dirt" of the most loathsome character. Councilmen have testified to offers of from \$5,000 down to \$500 for their votes. In some cases they were accepted and in others rejected. The evidence is direct, and apparently makes out a clear case against the jobbers engaged in getting through an ordinance leasing the city water works to a private corporation at figures so fat as to make nice divys for some councilmen.

A number of arrests have been made SPRING MILLS,
