Since Spain talks of privateering on the high seas, the following is given in brief explanation:

Letters of marque and reprisal are simply commissions granted by a government to private persons authorizing them to equip, arm and navigate vessels upon the high seas, the mission of said vessels being to destroy the commerce of an enemy by seizing its merchant ships, as well as confiscating goods in neutral bottoms that are consigned to one of the enemy's ports. A privateer is simply a legalized pirate. The United States announces that it will not countenance privateering, a statement which is received with much satisfaction by the commercial nations of Europe. Spain, however, being a weak nation, is quite likely to issue letters of marque, as in that way she hopes to destroy millions of dollars worth of property.

In this important crisis, says the Boston Herald, of the nation it would naturally be expected that counsel in the Senate would be looked for from its two greatest States, New York and Pennsylvania. Yet who expects the debates in that body to be even participated in by Platt or Murphy, Quay or Penrose. Little Delaware comes to the front with one of the wisest and ablest Senators, and Rhode Island has a man in the Senate with a capacity for the best service on matters of practical legislation, but New York and Pennsylvania's Senators are never heeded. It would be regarded as simply absurd to suggest counsel from them in statesmanship. Their sphere is solely politics and politics of the lowest and most corrupting school. They have neither ambition nor capacity to attempt anything beyond this.

The war revenue bill as now prepared, it is estimated, will raise between \$95,000,000 and \$100,000,000 annually.

The principal decision made on Friday was the definite determination not to place a tax upon either of the substitute propositions, railroad and other transportation tickets or petroleum. It was decided, however, to place a tax of 1 cent upon chewing gum, and 2 and 4 cents upon mineral waters, ginger ale and foreign and native wines, 2 cents on pints and 4 cents on quarts. These additions are made to the stamp tax act of 1866, which is re-enacted with modifications. A tonnage tax, which is expected to raise \$2,500,000 is also incorporated in the bill. The addition of \$1 per barrel upon beer is expected to raise \$35,000,000. The question of allowing a rebate on beer stamps is still open.

The doubling of the tobacco tax and the provision for a retail license of \$4.80 are expected to raise \$30,000,000, and the provisions of the stamp tax over \$30,000,000.

After Intervention—What? A subscriber to The World in Boston asks us these questions: Will not The World glance ahead and answer, After intervention, what? What will war accomplish for Cuba? How will war accomplish it? And after war, what?

1. After intervention, independence for Cuba. No more Spanish oppression. No more robbery of the Cubans for tribute to Spain. No more taxation without representation. No more butcheries. No more starvation. No more blowing up of our ships in Havana Harbor.

2. War will free Cuba and insure lasting peace upon the only secure basis of justice and freedom. It will relieve the United States of a long-standing menace and a horror close to our shores. "Unsettled questions have no pity for the repose of nations." "No question is settled until it is settled right."

3. The application of force (or war, if you will have that inexact word) will accomplish the results just named by banishing Spain from this hemisphere. Spain is the exciting cause of all troubles in Cuba, as her Bourbonism, her rapacity, her cruelty and her incapacity for civilized government were the cause of the revolutions that successively freed Mexico and Central and South America from her domination.

4. After war, peace. With peace the organization of "a stable and independent government in Cuba by the free action of the people thereof"—a government based upon the consent of the governed: a republic.

This will be the grandest exhibition of unselfishness ever made by a strong people in behalf of a weak one. This will be the noblest monument to the martyrs of the Maine.—World.

New Weapon of Warfare.

At Rote a few days ago a quarrel arose between two families who were moving from one house to the other. Finally a pitched battle ensued between the head of one household and the wife of the other, during which the woman broke a large looking glass over the head of the man. The man's head was badly gashed and the woman's face was cut by the flying pieces of broken glass. Both bled freely.

Three More Ports Closed.

Rear Admiral Sampson has closed the ports of Cardenas, Mariel and Matanzas in addition to Havana. His war ships have captured two new prizes: the Miquel Jover, a merchantman, worth \$400,000, and the Spanish transatlantic liner Catalina, worth \$1,500,000. This makes six prizes in all, the others being the Buena Ventura, the Pedro, the Mathilde and a fishing smack. The report that Morro Castle fired on the fleet came from the fact that ten shots were fired on a newspaper tug which lost her bearings at night and got too close to land. Spain issued an official decree recognizing the state of war and announcing that she would fit out privateers, but that she would give American ships 30 days to get out of her harbors. In some parts of Cuba the Spanish soldiers have started to burn the towns. A new fort is to be built at the entrance to Chesapeake Bay for the further protection of Washington. The battleship Oregon took coal in the Strait of Magellan Friday and sailed north in the Atlantic. She was warned that the Téméraire is after her.

The American squadron, seven fine battleships, left Hong Kong, early Tuesday morning, to attack Manila and blockade the Philippine islands in the Pacific 700 miles below Japan. An insurrection has broken out in these islands against Spanish rule. The population of the Philippines is 9 millions. The squadron is expected to be before Manila by Saturday.

The six prizes captured by our vessels will be worth no less than \$3,500,000, one half of which goes to the crews of the vessels making the capture and the other half to the government.

War having been declared our government sent a demand to Portugal to order the Spanish fleet from the Cape Verde islands or the United States would look upon Portugal as an enemy. The demand was complied with and the Spanish fleet was ordered away.

The Spanish queen is still imploring the Powers for help but none will lend her assistance.
